

Introduction

I am writing in face book more or less regularly to express and share the views, observations, findings, and opinions of ICWF to communicate others as I am a member of the ICWF.

Observations, aim and objects of the ICWF in short is as: There is no communist movement since 1896, but communism is an unavoidable condition for the emancipation, and undoubtedly, the historical consequence of capitalism is communism. So, communism is inevitable. Information Centre For Workers Freedom (ICWF @ www.icwfreedom.org) is working to help and cooperate to rebuild the communist movement to form a communist party- a party of working class to unite the workers of the world to fight against the capitalist class by fighting against the wage slavery to end it to end exploitation by ending the selling and buying by disappearing the commodity by vanishing the capital by vanishing the capitalist mode of production by abolishing the capitalist private property by a communist revolution -the ever biggest and ever important event of the world by the working class alone for the emancipation by the communism- a most modern and scientific society but free from discrimination thereby, its free from rule, man by man thus, communism is a society free from ideology, politics, state, etc& etc class weapons and instruments thereby, communism is not only a society of equals but also a society of uninterrupted peace but working to win the nature to use for the best of the undivided but healthy and ever young human being with

full sense of humanity with an association of all for the all by the all of the world with social/commune/common ownership of means of production, transportation and communication by searching and investigating history and historical facts; collecting and storing the concern documents related to the social change, mainly communist movement; And gathering the theories and contemporary information to review and conclude on the basis of science of communism, discovered by Marx by discovering the code of capital and the code of society for change to publish, store and circulate the observations, findings, views and opinions to share and communicate the liberty hungers and freedom lovers.

Noted, rejection of poisonous Leninism- the corruption of science of communism is an unavoidable condition to rebuild the communist movement.

As I am not so sound in English but its need to write in English to communicate to liberty hungers and freedom lovers of the world therefore, I am writing in English. Thus, its not unnatural that there are some grammatical error and mistakes. But, expectation is that everyone will take it easy but take issues what we expressed seriously to correct our error or wrong in views, opinions etc to help to rebuild the communist movement.

Was Che a communist revolutionary?

[Shah Alam·Tuesday, June 14, 2016](#)

Was Che a communist revolutionary? Have there any reason? Lets examine.

Was Che against wage slavery to vanish it by a communist revolution by the working class alone for communism? No.

But, a communist is against the wage slavery to vanish it by a communist revolution- the ever biggest event of the world by the working class alone for their emancipation by communism- a society of equals thus, its free from hero, leader etc parasitic nonsense.

Was Che against the selling and buying of labor power to produce commodity to accumulate capital by exploiting the wage slaves? No. But, a communist is against selling and buying system to vanish commodity production to accumulate capital by exploiting the wage slaves by socialism - a society free from exploitation.

Was Che against the private property to vanish it with rights of inheritance for socialism- a society with social ownership of means of production, transportation? No.

But, a communist is against the private property to vanish it with all rights of inheritance by a socialist society- a society free from class and class rule thus, its a society free from discrimination and disparity among the human being, so socialism is a society free from rule man by man- the highest form of disrespect to the human being by confirming the below standard of the human being than wild animals.

Was Che against the state capitalism to end it to end the exploitation and rule man by man? No.

But, a communist is against state capitalism to end the exploitation and rule man by man for the liberty and freedom of all of the world. Was Che against the parasitic organizations including state, political party etc nonsense? No.

But, a communist is against all parasitic organizations including IMF, state, political party etc & etc to free the whole human being from the parasiticism and oppression.

Was Che against nationalism and all other ideologies to vanish these including Leninism for communism- a scientific society with a single human being with a single identity of human being along with full sense of humanity to work to win the nature? No.

But, a communist is a scientist thus he is not only against nationalism, colorism, sexism but also against all ideologies including Leninism- the corruption of science

of communism, discovered by Marx to vanish all these rubbishes for communism- a most modern and scientific society to work for the scientific development of the society for the scientific life of all of the world by the ever green and healthy life of all by defeating even death. However, Che was a collaborator of Fidel & com to found a state of state capitalism, where the rate of exploitation was much higher than USA, wage slaves had no right to bargain their wage and other benefits.

Sure, Fidel was for the religious constitution of CUBA-1940.

Fidel and Che has created a false and bogus impression about the socialist revolution by some heroes and socialism in one country alone by ignoring and denying the science of communism, even they did not care the manifesto of the communist party to say such nonsense .

Undoubtedly, communist revolution is nothing but the culmination of contradiction of capitalist class and working class by the condition of production of commodity to accumulate capital by exploiting the wage slaves, thus, the range of communist revolution is universal so, communist revolution is the job of millions and millions of wage slaves to end the exploitation.

So, both were liar not only about socialist revolution and socialism but also capitalism and they tried to hide the science of communism but used the name of Marx to confuse the working class to serve the capitalist interest.

Finally, who provided them all required things including arms and ships to come and captured the state power of CUBA?

So, there is no reason to consider Che as a communist revolutionary.

He who think, that a leader is need to lead to live is not free from slavery in mind.

A leader is nothing but a boss to serve the parasitic interest of exploiters by overpowering the exploited by various false, foul and bogus but ill-motivated and fabricated statements about the lives and activities of human being.

But, wild animals have no leader to live. Because, they have no private property to protect it by saying so many lies about the origin of the private property, family, state, politics etc & etc to justify the private property ship to exploit others.

Sure, the production of commodity is not by any leader but wage slaves- the producer of capital- the unpaid part of commodity.

So, the capitalist mode of production is the producer of the concept of life without leader.

Therefore, socialism- the replacement of capitalism is a society not only free from leader but also free from rule, man by man - the highest form of disrespecting to the human being by confirming the below standard of human than the wild animals.

But, Lenin was not only for leadership but also for a absolute leader to lead the nation. Mosses was a ' great'

leader and teacher of his nation. Leninist boss Mao was ' great' teacher of his nation, and his nation is yet guided by the ' great' teaching of Mao by the constitutions of both the party and state, founded by Mao.

In spite of that, Lenin or Mao was communist? Sorry.

Communists are communist revolutionary friends to work to end the exploitation, man by man by the working class alone by vanishing all false and bogus stories , concepts, ideas, ideologies etc nonsense manufactured by the so-called ' great' teachers and leaders.

They are claimed Marxist of India but do not agree with Marx that the East India Company has introduced the capitalist mode of production in India and that was a revolution,so, the East India Company has played a progressive role in history.

Sure, such revolution was so important to develop the capitalist world by defeating the local, self-dependent but so poor economy by observation of Marx.

CPI(M) is also against the observations and analysis of Marx on capitalism in India by the East India Company by practicing the Leninist politics of so-called right of self-determination of nations by opposing the colonial policy-the integral part of capitalist development.

Therefore, Marxists of India are not only against the formulation of capitalist development thereby the

consequence of capitalism by socialization of means of production, transportation and communication by the working class alone by Marx but also against the history of capitalist development by the revolutionary capitalist class.

Because, Marxists of India are not against the capitalist system. Thus, they have no need to acknowledged the historical development of capitalist mode of production to know capitalism to fight against the capitalism to vanish it for the emancipation.

But, Marx was with the history of capitalist development to know the consequence of capitalism.

Because, Marx was a communist therefore, he was against the capitalist mode of production so, he was with history to know the code of society for change.

But, Marxists of India are not interested to change the capitalist society by the working class alone. Rather, they are very much interested to captured the state power of India to build a better India to serve the capitalist interest under a capitalist constitution of India. Though, the executives of India have no capacity to ignore or deny the IMF, to determine the financial policies of India. But, Marx was against the capitalist interest, rather, he was for the interest of the working class.

But, Marxists of India are not with the interest of working class.

So, Marxists of India are so expert to say lie and false but fabricated stories about India by glorifying the dark age of barbaric India to justify their politics, what is also doing BJP-the ruling party.

Noted, Marx was not a Marxist but a communist but the Marxists of India are Marxist but not communist.

04-06-16.

There are cowboys to control the cows to protect them for the interest of the owners of the cows.

Human being is not cow.

But, there were self-claimed masters to control the slaves by ignoring and denying the ability of slaves to live without master.

But, there is history of revolt by the slaves and currently slavery society is not exist.

In fact, masters had no ability to live a parasitic life without slaves.

However, masters did not care and consider the slaves as human being with power to live by denying and ignoring the facts and past of human being to live.

Facts remain that the human being has passed not less than 90,000 years before slavery society.

Therefore, the fabricated but ill-motivated concept of created by the masters to control, to guide, to lead and to save the slaves by the masters is not only against the dignity of humanity but also denial the past of human being. Therefore, masters were the historical liar about the role of both slaves and masters.

Capitalists are not against the parasiticism, thus, they are for leadership to lead and to rule the wage slaves -the

producer of capital. But, they do not know that wage slaves are wage slaves but not slave. Rather, wage slaves has been knowing the fact form their working process that they are equally important to produce commodity to accumulate capital, thereby, they have no need the capitalist class to live. So, working class has no need any leader - the boss of parasitic people.

In fact, the capitalist production system has introduced the views and truth that each and every one is equally equal though there is discrimination among the human being by the private property.

So, if there is no private property, there is no discrimination thus, each and everyone is equally equal in socialism. Thus, there is no masters, no guide, no leader, no boss, no savior, no hero or no slave in socialism, but all are human being with full sense of humanity.

But, Lenin was for teaching, guiding and leading the wage slaves.

Leninist boss Mao was for teaching the nations by his teaching.

Leninist bosses are for teaching of Lenin and some are for teaching of Lenin and Mao.

Therefore, Leninist bosses are not free to think the wage slaves as like as cow or slave.

But, sorry, wage slaves will win their world by reducing the all such nonsense and rubbish concepts originated from the private property but against the dignity of human being.

03-06-16.

No individual can produce commodity.

No individual can produce capital.

No individual can maintain the capitalist system.

No individual can solve the capitalist problem.

No individual can change the capitalist society.

No individual can build a social history.

So, no individual is so important to produce commodity or to accumulate capital or to maintain the capitalist system or to solve the capitalist problem or to change the capitalist society or to build a social history though every individual is an important one in every job what mentioned above.

Commodity is a social product.

Capital is a social product.

Problem and crisis of capitalism is a social problem.

Change of capitalist society is a social matter by the code of society for change by the working class by the existing conditions of capital.

But, Lenin - a liar about capitalism too is so important to the Leninist bosses to capture the state power to serve the capitalist interest by the state capitalism but they have been claiming that they are against the capitalist system, which is totally lie and false.

Therefore, every Leninist party has a Lenin to teach, guide and lead the party to capture the state power.

Thus, no Leninist is ready to consider the process of commodity production, accumulation of capital, capitalist global system, code of society for change, communist

revolution is the job of the working class alone, and communism - a society of equals where there is no room for any guide or leader win by the working class alone.

Sure, masters has introduced so many fabricated stories and bogus concepts that they are so important to teach, guide, lead, save and protect the slaves to live to justify their parasitic role as the ruler of the slavery society.

Leninists parties are not free from such concepts, though it is the capitalist society with most modern information and communication system.

So, Leninists parties are not free from mental slavery.

Noted, a slave can revolt, but a mental slave can not live without his master.

We are speechless. We are soundless. We have no language to condemn and protest the brutal atrocities of Bangladesh police against the unemployed diploma nurses those were went to street of the capital city-Dhaka, yesterday to attract the attention of the concern authorities to realize their demands.

A pregnant nurse has lost her immatured baby by the atrocity of police. More then 100 nurses were severely injured by the report of the media, and in spite of that they are in the street till now.

Its their right to get job and thereby, its their right to demand to the authority to fulfill their rights to live a normal life. But, who care?

Therefore, they are in the street. Sure, no one have right to torture them.

No more such brutality against them or stop all steps by the police against them including filling false cases to stop, disturb and vanish the movement.

We strongly demand to the concern authority to take all necessary steps to treat the injured properly and free of cost and release all arrested nurses if arrested.

In fact, the concern authority have no option except meet their demand.

So, its good to do the so as early as possible.

BOLSHEVIK PARTY AND COMMUNIST PARTY

Bolshevik party was not a working class party.

But, a communist party is a working class party.

Bolshevik party was a multi-class party with reactionary peasants.

But, a communist party is a class party.

Bolshevik party was not for uniting the workers of the world to fight against the capitalist class, rather, it was for capitalist development at Russia,

But, a communist party is working to unite the workers of the world to fight against the capitalist class to vanish it by vanishing the capitalist mode of production. Bolshevik party was not a party for a communist revolution by the working class alone. Rather, it has

captured the state power of the Russia by a military coup by killing 2 guards at night.

But, a communist party is a party for a communist revolution- the ever biggest event of the world by the working class alone. So, a communist revolution is the job of millions and millions wage slaves.

Bolshevik party was not a party for socialism/communism. Rather, it has founded a state of state capitalism, where the rate of exploitation was much higher than USA.

But, a communist party is for socialism/communism- a most modern society with social/commue/common ownership of means of production, transportation and communication. So, socialism -the replacement of capitalism is a society free from exploitation. Bolshevik party was not against the class weapons of capitalist to free the society form the parasiticism by vanishing the all class weapons including political party. But, a communist party is against the all class weapons to vanish these for the liberty and freedom of all of the world.

The origin of all Leninist parties is the Bolshevik party, founded by Lenin and his associates.

So, no Leninist party is communist party.

He who acknowledge that some are intellectual, is not free from the slavery of mind or thinking.

He who identify some people are non-intellectual by acknowledging the so-called intellectuals is not free from highly disrespecting the human being as human being.

Sure, there is discrimination among the human being but it does not mean that some are intellectuals and rest are non-intellectual.

Rather, cause of such discrimination among the human being is nothing but the private property- the cause of all nonsense and evil concepts and jobs.

Lenin was not only intellectual but also extra-ordinary by the recognition of all Leninist bosses and Lenin he himself was for division of human being by intellectual and non-intellectuals.

So, Lenin and his disciples are not free from both highly disrespecting the human being and slavery mentality.

(1)

CAPITAL WILL NOT EXIST:

Capital is the mightiest power. But, capital will not exist. Because, capital is the cause of disappearance of capital.

National boundary was not enough to develop the capitalist mode of production. Therefore, colonial policy was the integral part of capitalist development, practiced by the progressive capitalist class. Thereby, the revolutionary capitalist class has created a capitalist

world by uniting the divided and unknown world by defeating the self-dependent, local but so poor economy. So, capitalist class, historically has played a most revolutionary part.

But, capital can not exist without reproduction and circulation and the capitalist class can not exist without constantly revolutionizing the instruments of production. But, the conditions of capitalist society are too narrow to comprise the wealth created by the capitalist society. Therefore, capitalism has suffered by recession- a non curable disease of the capitalist economy by the existing conditions of capital, 1815.

Marx was born 1818. He has discovered the code of capital and the code of society for change.

Therefore, he determined the old age of the capitalism by the first recession of the world so rightly.

The outcome of recession is so many including labor unrest, economic anarchy, war, killing, destruction, negation of private property by bankruptcy and social contract to limit the production and amalgamation of companies . And finally, the historical consequence of capitalism is social ownership of the means of production, transportation and communication by the negation of negation of the private property by the working class- the producer of capital but its a product of capitalist class.

So, capital is the cause of disappearance of capital and capitalism by the existing conditions of capita.

Therefore, the manifesto of the communist party (Published-1848) has written by Marx and Engels by

declaring the historical death sentence for the capitalist class by considering the historical facts of previous societies, development of capitalism, existing conditions of capital and capitalist class, the historical conditions and consequence of recessions and thereby the historical and ultimate consequence of capital by the capital is socialization of the means of production, transportation and communication by vanishing the capitalist private property by the working class alone.

But, CPSU and CPI(M) has manufactured a fake manifesto of the communist party to confuse the workers of the world to serve and protected the so old capitalism. In spite of that, the moribund capitalism will not exist by the existing conditions of capital.

So, capital will not exist.

28-05-16.

There was not a single sentence against capitalist exploitation to end it for the emancipation of the working class by the socialism in the founding declaration of the Bolshevik party, founded by Lenin and his associates.

In spite of that all Leninist parties, originated from the Bolshevik party has been claiming that they are communist party. How funny!

There was not a single sentence for communism in the founding declaration of the Bolshevik party, founded by Lenin and his associates.

In spite of that all Leninist parties, originated from the Bolshevik party has been claiming that they are communist party. How funny!

Are the bosses of the Leninist parties stupid or so cunning to spread the poisonous Leninism to serve the capitalist interest by confusing and dividing the working class?

27-05-16.

WAS THE NAXALIST MOVEEMNT A REVOLUTIONARY JOB?

Any such job by the working class to vanish the wage slavery to end the exploitation by disappearing the capitalist private property is a revolutionary job in this epoch.

Therefore, was the Naxalist movement for the same aim?
No.

Sure, land distribution among the landless people is nothing but a heinous reactionary effort to reform the capitalist society to protect it by chaining the free men by land by creating such aspiration among the newly land holders that they will not only be happy but also become rich men by producing the crops.

But, they were simply wage slaves in country side in various fields including agriculture thus they were the revolutionary force as the sellers of labour power to produce commodity to accumulate capital.

Undoubtedly, the cause of all such sufferings, miseries, hardship etc of the working class is the private property. So, no alternate except abolition of the private property by the working class alone for the emancipation of the working class.

But, a newly land holder has become a capitalist not only in thinking but also in reality by the private ownership of the said land. Thus, he became a member of the reactionary peasant.

Therefore, he is trying to do all possible things to be a rich man by all nonsense jobs including political hooliganism and even by involving his babies in his property to work to save money for buying the labor power to produce crops.

Thereby, such newly land holders has become the enemy of the working class. Though, so many of them has lost their land by the rule of the capitalist system, based on private property but failed to protect the private properties of all by the existing conditions of capital.

Military rulers of different countries including Bangladesh also has done the same job by distributing the land among the landless people to protect the moribund capitalism.

Lenin- a claimed socialist leader with success also has done the same thing to destroy the revolutionary concepts to abolish the private property for the emancipation by a new society with social/ common/ commune ownership of the means of production, transportation and communication.

Therefore, have there any difference between the said military rulers and so-called communist Lenin is this case to protect the capitalist society? No.

The Naxlaist movement of West Bengal, India has done the same job and has created the aspiration to landless people to be a capitalist by betraying the revolutionary working class.

Sure, any such efforts to protect the capitalist system in this moribund condition of capitalism is a so reactionary job.

So, the leaders of the Naxal movement has done the same reactionary job by the support of the another world famous liar about the capitalism too- the Leninist boss-Mao, the infamous killer of the world and a tactful and cunning servant of the capitalist interest by founding a state of state capitalism and a bogus communist party.

22-05-16.

He who is not against the rule man by man to end it is either a master or a slave in mind.

Communism is a society of equals by ending the rule man by man.

Therefore, a communist is against the rule man by man to end it.

But, Lenin, Trotsky, Stalin, Mao, Ho-Chi-Min, Kim, Pol-Pot, Hoxa, Tito, etc Leninist bosses were not against the rule man by man.

Rather, they all were ruler to oppress and overpowering the wage slaves to accumulate capital by exploiting the wage slaves- the producer of capital.

A ruler is a ruler may be he is Changish Khan or Lenin or Obama.

Undoubtedly, a rule is nothing but a political boss of the exploiters to manage the exploitative system by oppressing and overpowering the exploited. In fact, rule man by man is the highest form of disrespect to the humanity or sense of humanity by creating and spreading the nonsense and rubbish concept that maximum members of the human being are not able to live without a ruler or rulers, thus, such dangerous concept is so useful to ignore and deny the ability and capacity of the ruled people to live without rulers .

Though, wild animals have no ruler but the animals of forest can live.

Therefore, its clear by such foul and bogus but ill motivated and fabricated concept of rulers to rule man by man that the living ability and capacity of maximum members of the human being are bellow then the wild animals.

Though, all rulers has been claiming that the human being is the best among the animals.

Noted, history of rule man by man is not more than 5,600 years but the age of human being is not less than 2,00,000 years.

Sure, working class will end such inhuman and shameful condition of human being by ending the rule man by man

by ending the exploitative capitalist system by ending the capitalist private property.

Therefore, Lenin, Trotsky, Stalin, Mao etc Leninist bosses and rulers were : (1) Heinous collaborators of all rulers including the rulers of Farah Dynasty of Egypt - the bosses of dark age and the founder and maintainer of the slavery society by dividing the human being as master and slave but liar about the creation of the earth and earthly animals including human being; (2) Fraud and liar about not only socialism but also capitalism; (3) Shameful elements of the human being though they were shameless to say lie about their role as communist; (4) Bosses of exploiters; (5) Creators of poisonous Leninism, Mao thought etc to confuse the wage slaves to ignore and deny the class identity and class interest of the working class to serve the capitalist interest; (6) Dividers of the workers of the world to protect the decayed capitalist system; (7) Creators of disturbance and obstacles to change the capitalist society by creating their states of state capitalism but claiming socialist; (8) Cunning men to hide the socialist movement by practicing the politics of so-called right of self-determination of nations ; (9) Infamous killers of the world by killing even their party men and long time friends; And (10) Enemies of working class- the best hope of the future.

20.05.16.

COMMUNIST PARTY OF INDIA (MARXIST) IS NEVER A COMMUNIST PARTY-

A communist party is a party of working class to fight against the capitalist class to vanish the capitalism by a communist revolution for the emancipation of wage slaves by the communist society- a society free from exploitation.

Thereby, a communist party is a party for class struggle to end the class and class rule for the liberty and freedom of all of the world by vanishing all weapons of capitalist class including state.

But, the 2nd biggest Leninist party of the world-the CPI(M) has been trying to occupying the governments of various level - local to central by election to serve and protect the capitalist interest by working by supporting, defending and protecting the constitution of India - a constitution for capitalist interest.

Moreover, India is the founding member of the IMF- the controller of the world economy.

So, the government of India has no option except implementing the policies of the IMF- a global but ever mightiest syndicate to serve and protect the capitalist interest globally.

Thereby, the government of India is not only serving the capitalists of the India but also the whole capitalists of the world.

Thus, Government of Tripura state or Kerala state have no scope to work against the IMF, rather both government lead by the CPI(M) are bound to comply the conditions of the IMF for the economical activities in their respective jurisdiction.

So, as a ruling party of the state government - the CPI(M) is not only serving the capitalists of India but has been serving the capitalists of the world.

But, as a Leninist party-the CPI(M) has been claiming that its work to develop the national economy thereby, work to build better India is the current slogan of the CPI(M).

Therefore, CPI(M) has ignore and deny the class question and class interest of the working class thereby, its for so-called alliance of 'men' to hide the class struggle. Undoubtedly, such politics to hide the class struggle is so helpful for the capitalist class as a whole.

But, name of the CPI(M) is a communist party even it has using the name of Marx - the discoverer of the science of communism to marking it as a pure communist party to confuse the workers.

Thus, CPI(M) is not only a party of capitalist interest but also working against the working class but so tactfully and cunningly.

In fact, CPI(M) is a party of double standard, and the capitalist is not free from double standard to maximize its interest by maximizing the exploitation.

Thereby, CPI(M) is a corrupt party, thus, the CPI(M) did not feel any type of shame to manufactured a fake

manifesto of the communist party to justify its misdeeds against the working class to serve the capitalist interest. So, CPI(M) is never a communist party.

16.05.16.

There was no king- a boss of masters to serve and protect the parasitic interest by oppressing and overpowering slaves and subjects before the slavery society-the first class divided society.

So, there was no politics before the slavery society, introduced by the boss of the masters- the king, a liar, cheater, fraud, brutal ,heinous, cunning but a dangerous person of the dark age.

Therefore, there was no discrimination among the human being before, the politics has introduced by the bosses of masters to live a parasitic life by exploiting the slaves. But, it was necessary to justify the political power of kings to rule and oppress by producing so many false and bogus stories about their source of power by hiding their inhuman and brutal jobs to create the slavery society.

Therefore, they have produced so many fabricated stories about the creation of the earth, and earthly lives including human being.

Thereby, they were divine right holders to rule on behalf of the creator or creators and maintainers of the world by the description of the manufactured but ill motivated stories.

Therefore, they have every right to do anything along with killing or saving the life of anyone in his kingdom to protect the peace.

But, no claimed creator or none of the creators or maintainers of a single earth was aware even about the diameter of the earth. The said earth of them was constant and fixed. So, none of them was known that the earth is moving around the sun.

Because, the creators of the said but false and bogus creator or creators or maintainers of the earth were not aware about the real earth.

It was impossible to know the origin of life in the earth by the kings or their theoreticians because, cell theory was not formulated before 1839.

So, kings- the political bosses of the masters and lords were so expert to say anything without knowing the fact to justify their political action.

So, politics is nothing but a bundle of lies to justify the actions of politicians to oppress and overpowering others. In fact, politics is the supreme policy of all evil polices to serve and protect the parasitic interest.

But, working class will vanish the politics to end the parasitic interest for the emancipation by vanishing the private property- the cause of all evil jobs.

14.05.16.

He who sale his labor power to produce commodity to accumulate capital is a worker or wage slave.

Engineers, doctors, journalists, academic professionals, acting singing, and writing professionals, and professional researchers and scientists etc are also seller of labor power to produce commodity to accumulate capital.

Therefore, they are worker or wage slave.

But, they do not agree it in general.

Rather, they think that they are the intellectual class of the society by ignoring and denying the intellectual power of other workers.

Thus, other workers are manual labor by their consideration.

But, no one can produce anything without intellectual capacity.

Therefore, working class- the producer of all commodities of the world are also intellectual. So, all workers of the world are intellectual.

Thereby, such false and bogus concepts about the intellectual power of a sizeable but academically or professionally sound part of the working class is not only a dangerous weakness of the working class rather it is effective but a poisonous concept to divide the working class by so-called manual and intellectual by denying the class identity of the claimed ' intellectuals' as wage slave and ignoring the working class interest.

Therefore, holding such unscientific concept about the intellectual power by insulting a section of wage slaves by a sizeable part of the working class is not only helpful for the capitalist class, but its so useful to create a hateful atmosphere among the workers of the world.

Thus, such poisonous concepts about the intellectual power is suicidal for the working class.

But, unity of workers of the world is the first condition for the emancipation.

So, there is no option except rejecting such false, foul, bogus and poisonous concept about labor and intellectualism.

13.05.16.

He who knows that the CPI(M) has manufactured a fake manifesto of the communist party but not opposing such heinous crime of the CPI(M) is against the capitalism-the producer of all crimes or is he a honest by the capitalist law? No.

He who knows that the CPSU has distorted and disfigured the writing of Marx and Engels including the manifesto of the communist party but not opposing such heinous crime of the CPSU is against the capitalism-the producer of all crimes or is he a honest by the capitalist law? No.

So many Leninist leaders, workers and supporters knows the facts about the such forgery of both CPSU and CPI(M).

But, none of them yet come forward to oppose the such evil jobs done by the CPSU and CPI(M) to serve the capitalist interest.

Therefore, are the said Leninist leaders, workers, and supporters those who know the such crimes, committed by the CPSU and CPI(M) to confuse the workers of the world about the capitalism, capitalist contradiction, communist revolution, socialism etc to serve the capitalist interest at least honest by the standard of the capitalist law? No.

Leninists [CPSU-CPI(M)] done fraud in translation of the manifesto of the communist party too, a book, published by the ICWF, @ icwffreedom.org .

If there is judiciary, there is injustice to judge.

But, if there is no injustice, there is no utility of judiciary. Therefore, there is necessity of injustice to judge by the judiciary.

But, if there is no judiciary, there is no injustice.

So, injustice and justice are nothing but the opposite side of a coin.

There was no judiciary before the private property has introduced by the masters.

Therefore, there was no injustice before, the private property, and judiciary.

Judiciary has introduced by the master to serve and protect the interest of the parasitic ruling class to rule the ruled classes.

Thus, not fair justice but abolition of private property along with its all weapons including judiciary is the condition for a fair society free from injustice.

Noted, the code of Hammurabi is the first written code on the basis of eye for eye, nose for nose, and killing for killing.

The age of this code is not more than 3,800 years but the age of human being is not less than 2 lacs years.

Furthermore, rule man by man is the highest form insulting to the humanity by ignoring and denying the equal dignity of every member of the human being as a human being and everyone of human being is from 23 pairs of Chromosome.

They are for socialism, but they are not interested about capital to disappear it for socialism, win by wage slaves-the producer of capital.

Therefore, are they for socialism, the historical consequence of capital? No.

They are for socialism, but they are not interested about commodity to disappear it for socialism, win by wage slaves-the producer of commodity..

Therefore, are they for socialism, the historical consequence of commodity production? No.

They are for socialism, but they are not interested about selling and buying system to disappear it for socialism,

win by wage slaves-the seller of labor power to producer commodity to accumulate capital.

Therefore, are they for socialism, the historical consequence of selling and buying system ? No.

They are for socialism, but they are not interested about wage slavery to disappear it for socialism, win by wage slaves-the exploited class.

Therefore, are they for socialism, the historical consequence of wage slavery system? No.

Leninist parties are not interested to disappear the capital by disappearing the commodity production by ending the selling and buying system to end the exploitation by vanishing the wage slavery system by vanishing the capitalist private property by the wage slaves of the world for socialism.

So, no Leninist party is for socialism.

(1)

Everyone for success, but capitalism is not a society for success of all.

In fact, the ultimate meaning of success is nothing but gaining and holding the private property in this capitalist society, based on private property- the cause of competition, contest, conflict, quarrel, violence, war, theft, robbery, hijacking, kidnapping, plundering, exploitation, corruption, contamination, cheating, forgery, misappropriation, lie, blamegame, false propaganda, provocation, hypocrisy, torture, killing, rape, crime, punishment, discrimination, disparity, power and

powerlessness, rich and poor, bankruptcy, lose of private property, people without private property, unemployment, poverty, hungry, ill health, illiteracy, darkness, ignorance, blindness, unscientific concepts, faith and ideology, failure to gain the private property, differences of scope to get equal opportunity and facility by every kid to develop equally etc nonsense.

But, socialism is a society for success of all.

Because, there is no private but social/common ownership of means of production, transportation and communication for all of the world in socialism.

Babur- the founder of Mughal Dynasty was a descendant of Genghis Khan a heinous and infamous killer of the world history. He conquered the India by defeating the Ibrahim Lodi, the last ruler of the Delhi Sultanate in the First Battle of Panipat (1526).

He was the eldest son of Umar Sheikh Mirza. ruler of the Fergana Valley, contemporary Uzbekistan. Mirza was a descendant of Yunus Khan, the ruler of Moghulistan.

Bahadur Shah II, was the last Mughal emperor was deposed in 1858 by the British East India company and exiled to Burma following the War of 1857 after the fall of Delhi to the company troops.

None of the emperors of Mughal Dynasty (1526 to 1858) from Babur to Bahadur Shah II, has taken any step against the nature and self-dependent but so poor local economy.

Therefore, the lives of Indian mass people were as like as the lives of plants, but with so serious hardship, miseries, unnatural death by so many causes including famine in every year more or less and suffering from the inhuman caste system by considering the cow as mother of Hindus.

India was conquered by many more invaders from different parts of the world but no one took any meaningful step to develop the so poor economy of India by introducing capitalist mode of production.

But, the East India company has introduced the capitalist mode of production by defeating the Nawab Siraj-ud-daulah, Nawab of Bengal and his French, allies on 23 June 1757. Though, the EIC was not the king of UK, rather it was formed for trade and commerce in India.

Undoubtedly, the East India Company has introduced the capitalist mode of production in India.

Therefore, the East India Company has played a revolution role by introducing the capitalist mode of production by defeating the self-dependent, local but a poor economy of India.

Marx has described it as the first revolution in India.

France East India Company has also played a progressive role to develop the capitalist mode of India. Though, there was contradiction between the said companies for their capitalist interest.

Sure, national boundary was not enough to develop the capitalist mode of production. Thus, the progressive capitalist class has practiced the colonial policy to develop the capitalist system globally by the existing

conditions of capital by defeating the self-dependent but so poor local economy all over the world.

Discovery of USA was the effort of the same policy by the progressive capitalist class.

But, the Leninist parties are against the colonial policy by practicing the politics of so-called right of self-determination of nations.

Thus, Leninist parties of India, Pakistan, Bangladesh etc are against the introduction of capitalist mode of production by the East India Company, even they are not considering it as a company formed for the capitalist interest by the some capitalists but not all people of British to serve the all people of British. In fact, these parties do not care to consider that there was class division at UK and the capitalist class is exploiter of working class. Thus, Leninist parties of India, Pakistan, Bangladesh has been ignoring not only the class question and class interest both UK and the then India but also denying the history of capitalist development. Parasitic ruling class but defeated by another parasitic but progressive capitalist class is against the capitalist class and capitalism. Thus, the said defeated and reactionary force- the boss of dark age has tried to regain the political power what they lost by the capitalist for the sectarian parasitic interest of it. But, failed. Because, capitalism is a worldwide system with modern industry thus, there is no scope to back it in the self-dependent, local and poor economy.

But, the Leninist parties of India, Pakistan, and Bangladesh etc are considering Bahadur Shah II- the last

emperor of Mughal Dynasty as the national hero of the so-called first independence war of India but merely a mutiny by the some East Indian Company soldiers because of professional dissatisfaction.

Sure, there is contradiction between the exploited working class and the exploiter capitalist class by the condition of the production of commodity to accumulate capital.

Thereby, working class-the product of capitalist class will vanish the capitalist class by vanishing the capitalist system by vanishing the selling and buying by vanishing the capitalist private/ company/ state properties to end the exploitation to end the parasiticism to end the rule man by man for the emancipation by a new but most modern scientific society, communism- a society of friends and lovers with a single identity of all of the world as a single human being with full sense of humanity by a communist revolution.

Therefore, there is no scope to consider any parasitic interest by the revolutionary working class to defeat the reactionary capitalist class for the new society. Or, working class have no scope to ignore the class division, class interest and conflict of class interest of different classes except losing its own class interest. Or, working class has no need to deny the history capitalist development by the progressive capitalist class. Therefore, the working class has no need to consider any defeated force by the progressive capitalist class to consider as the friend of the revolutionary class though the both force are against the capitalist class.

But, Leninist parties of India, Pakistan, Bangladesh etc are for Invader Babur Dynasty by practicing the politics nationalism, patriotism, development of national economy etc.

How funny!

MARX WAS A COMMUNIST

Communism is a society of equals.

So, a communist is not an extra-ordinary people.

Rather, a communist is working for communism to vanish the discrimination among the human being.

Marx was a communist and thereby he worked for communism.

Sure, as a communist he was a scientist and thereby he has discovered the science of communism by discovering the code of capital and the code of society for change.

Masters and lords were extra-ordinary by their fabricated and ill-motivated politics to justify their political authority to rule, oppress and overpowering the slaves, serfs and subjects by defining all of them as ordinary.

But, scientific fact is everyone from 23 pairs of Chromosome, therefore, all are equal equal by born condition but there is discrimination because there is private property.

Therefore, he who uphold the politics of ordinary and extra-ordinary, introduced by the masters and lords is not free from slavery mentality.

But, Leninist bosses has been marking Marx as an extra-ordinary but communist Marx was against all slavery for the freedom of all of the world.

Even, Leninist bosses has been celebrating the birth day of Marx by following the culture and customs introduced by the masters.

Therefore, Leninist bosses has been not only undermining Marx but also ignoring the science of communism and thereby denying and opposing the communist movement for communism- a society free from all slavery concepts, ideas, ideologies, mythologies, customs, cultures etc

02-05-16.

(2)

The manifesto of the communist party has described that the capitalist class can not exist without constantly revolutionizing the instruments of production, and thereby the relations of production.

Such condition to exist the capitalist class as capitalist is one of the main conditions to disappear the capitalist society by the communist society by the working class alone.

Communist society is a scientific society along with all most modern and sophisticated equipments and instruments to use by every one to try to minimize the hardship of human labor to produce all required things for all of the world by possible shortest time and without risk.

So, modernization of instruments of production by the capitalist class is a historical task for the capitalists to exist.

Thereby, its not a bad thing for the working class, though the immediate of effect of such modernization in capitalism is cause of lose of job by some workers.

In spite of that such modernization is not finally against the interest of the working class.

But, some workers did not allow the modernization process by the bitter experience for jobless life. Therefore, they went against the modernization works of their buyers of labour power. But, they failed to resist the historical process.

The famous John Henry was one of the defeated railway worker.

But, Leninist parties has been upholding the stupid action of John for what he died by challenging a new equipment. Sad.

(1)

An accused have right to defend and thereby no accused is free to defend him-self from the accusation.

But, a criminal have nothing to do except saying so many nonsense to hide the fact to avoid the consequence.

A compliant is not free to prove the complain by the required evidences including sufficient records.

The failure to prove the facts by the required evidences is not only dismissal the complain but also punishable in some cases by the law of the exploiter capitalist class.

But, there are so many Leninist bosses are not ready to prove their complain against the activists of the ICWF, but they are very much interested to accuse the activists of the ICWF, with so many fabricated,manufactured, false and foul allegations.

How funny!

On the other hand there are so many Leninist bosses but none of them are interested to defend Lenin- as a communist and Leninism as an useful things for communist movement where the published findings, views and conclusion of the ICWF, expressed in its various books is that Lenin was never a communist rather, he was a servant of capitalist interest and Leninism is nothing but the corruption of science of communism, discovered by Marx and thereby Leninism- the politics of state capitalism and the so-called right of self-determination of nations is so useful to confuse the working class about even capitalism and to divide the workers of the world by nation and country.

Therefore, are the both types of Leninist bosses free from crime or have any right of them to say Lenin was a communist and Leninism is helpful for the communist movement ?

01-05-16.

(2)

ILO Conventions are not for the interest of working class to fight against capitalist class by fighting against wage slavery to vanish the wage slavery by a communist revolution by working class alone. Rather, ILO Conventions are for peaceful co-existence of capitalist class and working class to increase the production and productivity to increase the volume of capital by exploiting the wage slaves.

Moreover, states are defunct under the rule of the IMF but no state is free from serving the capitalist interest by oppressing and overpowering the wage slaves, but such states has determined as a middle man to conciliate the disputes between the capitalist class and working class.

Therefore, no organization is working to serve the working class interest if it is not against the ILO and its Conventions.

But, not only Leninist parties but also more or less all trade unions of different countries including Bangladesh are for ILO convention. On the other hand May day is a historical day for wage slaves of the world to celebrate it to take required steps to fight against all capitalist organizations including IOL to fight against the capitalist class to fight against wage slavery to vanish it for the emancipation of working class by vanishing the capitalist class.

Therefore, celebration of the historical May day by all such organizations those are not against the all capitalist organizations including ILO is nothing but a heinous and bad effort to chained the wage slaves by rules, conventions etc of capitalist organizations including IMF, ILO etc & etc.

Sure, working class will celebrate the historical May day to fight against all such capitalist organizations including the trade unions for ILO Conventions.

(1)

MAY DAY CELEBRATION AND.....

May day is a historical day is the day of only working class and thereby its the day for the working class to celebrate it to marking the difference and discrimination between the exploiter capitalist class and the exploited working class to fight against the capitalist class to vanish it for the emancipation of the working class by the united forceful action of the workers of the world.

So, celebration of the May day for any worker of the world is a scope to enjoy his own day to give the best effort to try to unite the workers of the world by pointing the weakness of the working class and unmasking the ugly faces of the exploiter capitalists of the world to vanish the capitalist class and capitalism by a communist revolution by the working class alone for the emancipation.

But, capitalist bosses of different countries has been celebrating the May day with a nonsense slogan to unite the owners of the means of production and of exchange and workers of a particular country to develop the economy of the said country by the friendly atmosphere at work place.

Undoubtedly, such politics is not only dangerous but also suicidal for the working class to consider the exploiters of them are friends by ignoring the class interest and denying the class identity of the working class as a exploited class.

In fact, there is no working class party to unite the workers of the world to fight against the capitalist class to vanish the capitalism by a communist revolution. Thereby, working class is suffering from such suicidal

concepts and views. Thus, the workers of the world is divided by the nation, country, color, sex, religion, etc. But, unity of workers of the world is the first condition for the emancipation. Noted, even the working class can not raise the demand for 4 hours working day and 4 working days for a week and totally 20 hours work per week including overtime 1 hour per day if necessary. Because, workers of the world are divided. But, raising the such demand for 4 hours working day is quite natural and logical in the context of the 1886, the year for the glorious creation of the May day event for the 8 hours working day by the struggling workers of the Hay market, USA.

30-04-16.

The declaration of the independence of Vietnam, written by Ho-Chi-Min has acknowledged the independence declaration of America for human rights and other things. But, socialism is a society free from selling and buying, wage, wage slavery, commodity, capital, exploitation, private property by the description of the manifesto of the communist party by Marx and Engels. But, all these capitalist things are existing at Vietnam. Moreover, any investment from any part of the world in any sector including education at Vietnam is protected by the GOV by the guaranty clause of the constitution of the Vietnam.

Therefore, the private property is protected by the constitutional guaranty at Vietnam.

But, the Government of USA has the right to nationalize any property for the national interest.

Sure, selling and buying, wage, wage slavery, commodity, capital, private property etc all are existing at USA.

Therefore, if the Vietnam is a socialist country with the all such mentioned capitalist things then why not USA is more than 1000 times socialist by not guarantying the private property to protect?

Stop repression and released arrested:

France government has tried to stop the movement of workers of various sectors of France supported by the thousands students and young to protect the existing rights and benefits by taking some oppressive measures including arrest.

TV news reported that more than 100 workers were arrested.

Such repressive steps taken by the France Government is not only a condemnable and heinous action but also against the rights of the workers- the producer capital.

Undoubtedly, workers have every right to protect their rights and benefits by the movement.

Strike, protest, assembly etc are the natural rights of the workers.

But, the government of France has denied and ignored such rights of workers those are in movement in different city of France.

Sure, nothing except win is the only option for the workers of France.

I think, workers of various countries will come forward to support the ongoing movement of workers of France to win.

Workers of the world unite.

Was Ishwar Chandra really a sea of knowledge?

Ishwar Chandra Vidyasagar (26 September 1820 – 29 July 1891, West Bengal, India), still is considered as a sea of knowledge (Vidyasagar) even by the Leninist bosses of India and Bangladesh.

As a government officer for education department he did a good job to spread the education.

But, the education system has introduced by the government of East India company to produce human tools for the capitalist system to produce commodity to accumulate capital by exploiting the wage slaves.

Sure, he wrote some books about Bengali Language and Religion.

He has tried to reform the some religion rules, customs and tradition of Hinduism and succeed to introduce the law for marriage of Hindu widow by the government.

Marriage has introduced by the masters to protect the private property by the legitimate inheritances.

Sure, one of the main causes of sufferings of Hindu widows was the marriage system.

When he did such reform activities then capitalist class has been destroying the capitalist ownership along with family relation by the existing conditions of capital. Therefore, capitalist society had become old before the manifesto of the communist party by Marx and Engels, has public, 1848. Therefore, no work which is not effective to vanish the capitalist society is progressive work after the manifesto has published. Thus, such reform work which was not against the capitalist private property rather an effort to protect the private property by the legitimate inheritance by introducing the Hindu widow marriage is not at all a progressive but a reactionary job of Ishwar Chandra.

Socialism is a society free from the private property, therefore, there is no utility of right of inheritance.

Moreover, not family but the individual is the basic unit of the socialist society.

So, the marriage system is an immaterial issue in socialism- a scientific society by the historical consequence of capitalism.

Was Ishwar Chandra fully aware about the consequence of capitalism, though the manifesto of the communist party has published before 43 years of his death by declaring the death sentence to the capitalist class by discovering the code of capital and the code of society for change; and proving that the capital-the unpaid labor

will vanish by the working class by the existing conditions of capital? No.

Therefore, if Mr. Ishwar Chandra was a sea of knowledge without knowing the cause of disappearance of capitalism along with it all weapons and instruments including state, family then what about Marx and Engels? Mr. Ishwar Chandra was totally unknown about the life of plants. Because, Jagadish Chandra Bose, (30 November 1858 – 23 November 1937, Bengal, India) did not discover it within the lifetime of Ishwar Chandra. Therefore, if Mr. Ishwar Chandra was a sea of knowledge then what about Jagadish Chandra Bose?

Ishwar Chandra was totally unknown about the theory of relativity.

Because, Albert Einstein, (14 March 1879 – 18 April 1955) did not formulate it in the life time of Ishwar Chandra. Therefore, If Mr. Ishwar Chandra was a sea of knowledge then what about Albert Einstein?

Ishwar Chandra was totally unknown about the air plan. Because, The Wright brothers, Orville (August 19, 1871 – January 30, 1948) and Wilbur (April 16, 1867 – May 30, 1912) did not invent the air plan before 1903. Therefore, if Mr. Ishwar Chandra was a sea of knowledge then what about the Wright brothers?

Ishwar Chandra was totally unknown about the Television. Because, Constantin Perskyi had coined the word television in a paper read to the International Electricity Congress at the International World Fair in Paris on August 25, 1900. And the first demonstration of the instantaneous transmission of images was by Georges

Rignoux and A. Fournier in Paris in 1909. Therefore, if Mr. Ishwar Chandra was a sea of knowledge then what about them?

Ishwar Chandra was totally unknown about the modern computer.

Because, Konrad Zuse (22 June 1910 – 18 December 1995) has invented it in the year, 1941. Therefore, if Mr. Ishwar Chandra was a sea of knowledge then what about Konrad Zuse?

Ishwar Chandra was totally unknown about the mobile phone.

Because, Martin Cooper brought it at market in the year, 1983.

Therefore, If Mr. Ishwar Chandra was a sea of knowledge then what about Martin Cooper? Undoubtedly , identified anyone as an extra-ordinary is nothing but a slavery mentality.

But, Leninist bosses are not free from the mental slavery thus the Leninist bosses of India and Bangladesh still considering Ishwar Chandra as a sea of knowledge and a progressive man.

Nothing to say.

28-04-16.

The basic difference between capitalism and socialism in one sentence is : Capitalism is a exploitative society, based on private property, but socialism is a society free from exploitation with social/ common ownership of the means of production, transportation and communication.

And reply of SHAH ALAM as below:

Shah Alam: Laboni- @ Laboni. Sure, we (ICWF, @ www.icwfreedom.org) are against Leninism-the corruption of science of communism. Therefore, CPSU - the party of Lenin did not feel to distort the writings of Marx and Engels. We have more than 16 printed books to unmask the ugly face of Lenin and his disciples and one of them is as : Leninists [CPSU- CPI(M) } done fraud in the translation of the manifesto of the communist party too. Its not criticism but a conclusion about the crime of CPSU and CPI(M) against the working class. Sure, such disfiguration or distortion is crime by the capitalist law. Sure, I am ready to accept any punishment, determining by the Leninist bosses and you too Laboni , if our conclusion about the distortion of the manifesto of the communist party is wrong or false. I think, all of you will come forward to confirm my punishment by proving wrong of our statement. But, if no one will come to do the same, then what? Are you all not the supporter of a crime or you all are not mental slave or blind to Lenin – a servant of capitalist interest ? Sure, I have shared a post of me about the Bolshevik party as a reactionary party with a note to you to defend. But, you did not so, rather, you said so many rubbishes even about me by using some abusive terms originated from the feudalism, above. Sure, an accused have right to defend but a criminal? Nothing. Thus, a criminal have no option accept saying so many nonsense to divert the attention to

hide the facts to avoid the consequence of his crime. Mental slaves are also same. Sure, a mental slave cannot live without his masters. But, communism is the end of age of all masters. Undoubtedly, a criminal is a liar too. I do not know how many years you are working for Leninism-the corruption of science of communism-discovered by Marx, but how you said that I am not doing such rubbishes what you the disciples of Lenin has been doing without knowing my past ? Are you aware about the political alliance of 3 fronts, worked against the military regime? Go through to the actions of the central liazon committee of the alliance of the 3 political fronts and 15 party front to find a man who was a central member of the both alliances and thereby he challenged the military dictator face to face for hijacking the state power on behalf of the 15 party alliance, July, 1984 at Bhangobahan . Do you know that who read the last political declaration of the said alliance of the 3 political fronts in the meeting of 5 party front in front of GPO, 19th November, 1919? Are you concern about the Jute, Textile, Sugar etc workers and employees action council, who fought against the privatization policy, determined by the IMF, founded by the winners of the 2nd world war including Leninist boss J.Stalin to serve and protect the capitalist interest globally and thereby followed by all the 3 Governments of Bangladesh including the government of S.Hasina, first time? Do you know how many workers lost their lives in these action programe or how many injured or how many convicted ? Do you know who look after them? Do you know who was the central spokesman

along with covering the field actions including attending in the road blocked, of the said action council ? Do you know the oppression to the jute miles workers at Khulna by the so-called care taker government but not paying their wages for 34 weeks but who has come to face it, at first and happened various actions including a successful shutdown program, calling by a people's commission for jute and jute industries, what was punishable crime by the order of the then government ? Are you aware about the people's commission for jute and jute industries, under the chairmanship of Justice (rtd) G. Rabbani? Who was the sectary of this commission and made a public report on what basis the then government has taken some steps? Are you aware about the council to protect the sugar cane and sugar industries? Who was the man who took the first step to form it to protect the total sugar sector? I think, no. Even, you did not feel to know the facts about a man before saying something against a man. I don't know the age of you. But, I have lost 30 years from my life by doing the said jobs above as a Leninist boss but a stupid even I did not read the constitutions of USSR, or laws or decrees or wage policy when I was Leninist. Even, it was unknown to me that what I read as the manifesto of the communist party is not a manifesto of the communist party, written by Marx and Engels rather it's a fake manifesto. Sure, I was impressed and griped by the Leninist literature. However, Lenin was a liar not only about socialism but also capitalism. So, disciples of Lenin can say so many nonsense except defending. Finally, I am waiting to receive the

punishment letter by all Leninist bosses including you for our wrong statement about the distortion of the manifesto of the communist party by any Leninist. This book is available @ www.icwfreedom.org. Good bye. However, no Leninist version without make sure our punishment is readable. Noted, communists have no need to lie and cheat. But, Lenin Cheat and Betraying Marx So IMF The World Lord And---- is our first book, to try to rebuild the communist movement which is absent since 1896, to form a communist party- a gloab pary of working class to unite the workers of the world to fight against the capitalist class to vanish the capitalism by vanishing the wage slavery, by vanishing the selling and buying by vanishing the production of commodity to accumulate capital by exploiting the wage slaves by vanishing the capital by vanishing the capitalist private property by a communist revolution-the ever biggest event of the world by the working class alone for communism- a society free from masters and slaves.

However, there are some mental slaves or blind to Lenin or beneficiary from the poisonous Leninism has liked your such false and foul but intentional post even some of them has made comment by supporting you, but are aware about me or read our writings or the said post about the Bolshevik party, formed for developing the capitalist mode of production at Russia, by increasing the rate of exploitation to increased the volume of capital by its founding declaration. Nothing to say them.

WOMAN BODY IS NOT SEXUAL OBJECT BUT YET TREATED POLITICALLY:

Not anatomically but the body of a woman is a sexual object politically thereby, bodies of women are the target of men to use them for the sexual pleasure of men. Thus, women has been suffering from the sexual harassment by the men even she is not free from such harassment in the house of her husband, or father or son. Thereby, the body of a woman is the cause of her sexual harassment event at home.

Thus, not anatomically but the body of a woman is her enemy.

So, a woman is living with such a enemy along with anxiety and insecurity.

Sure, not anatomically but the breasts of women are sexual organs politically.

A breast of a lady is nothing but a gland to produce milk for her babies.

Noted, women were human being before the private property has introduced by the masters. But, a virgin girl or a woman with chastity is so

important to produce a legitimate inheritance to protect the private property.

Therefore, the masters has produced so many fabricated stories even about the origin of women from the man to serve the interest of male including sexual desire of men.

Thereafter, the female has become women as a sexual object by the politics of masters.

Therefore, the customary description of a female body along with functions of its different organs and parts are not anatomical but political.

Sure, the masters and lords has introduce so many rules and customs to chained the women body to protect the virginity of girls and chastity of women to produce the legitimate inheritance.

Violations of such rules and customs is punishable even by death sentence.

Therefore, girls and women are always in fear if she is violated by any male. In fact, ladies are living always under threat even by conceptually.

Thus, lives of ladies are in miserable condition by such politics, originated from the private property.

The capitalist class is not against the private property, thus the attitude of capitalist class towards women is not different from the idiot, ignorant and ill motivated but masters and lords of dark age.

So, there is no option except vanish the politics by vanishing the private property to consider and confirm the females as human being with a single identity of human being.

Sure, socialism - a society free from politics thus its a society of equals so, there is no discrimination among the human being even by sex in socialism, where everyone is a human being with full sense of humanity.

SOCIALIST REVOLUTION AND LENIN

The culmination of contradiction of 2 developed classes of the capitalist society is the socialist revolution to end the contradiction among human being by ending the capitalist private property to end the commodity production to end the accumulation of capital to end the wage slavery to end the exploitation.

The capitalist society is a global society.

Thus, the range of the socialist revolution is global.

So, socialist revolution is not possible in one country alone.

And, the socialist revolution is the job of working class alone, but imposed by the capitalist class.

Such formulation about the socialist revolution by the existing conditions of capital has drawn by Marx and Engels.

(The principle of communism; The Manifesto of the communist party; Socialism: Utopian and Scientific, and others writings of them)

But, some army personals, loyal to the Bolshevik party - a multi-class party has captured the state power of

Russia, 25th October, 1917, under the leadership of Lenin.

Therefore, there is no reason to mark it as socialist revolution if there is no bad intention to confuse the wage slaves to serve the capitalist interest.

But, Lenin did so.

So, Lenin was a liar about the socialist revolution.

But, disciples of Lenin still believe Lenin as a great leader of the October socialist revolution at Russia.

Really, are they stupid or criminal?

22-04-16.

(7)

He who is a buyer of labor power to produce commodity to accumulate capital by paying wage to the seller of the labor power is an exploiter.

Lenin was the chief executive of his state therefore, Lenin was the buyer of labor power of his state to produce commodity to accumulate capital, thus, Lenin was the gang leader of exploiters.

He who knows at least ABCD about the capital can not say that a buyer of labor power to produce commodity to accumulate capital is not an exploiter.

As a boss of exploiters Lenin was a criminal though the capitalist exploitation is not a crime by the law of the capitalist class. But, the cause of all crimes is the capitalist exploitative system.

A beneficiary from the Leninist politics is not free from such crime against the wage slaves.

Criminals are criminal. No criminal is welcomed.

(6)

A boss of the capitalist exploiters is not the friend of wage slaves.

Because, a boss of capitalist exploiters can do anything against the wage slaves including killing to serve the interest of the capitalist exploiters to accumulate capital by exploiting the wage slaves.

Sure, Lenin did everything against the wage slaves including killing to accumulate capital by exploiting the wage slaves as the chief executive of his state. Therefore, the rate of exploitation in his state was much higher than USA.

So, Lenin was never a friend of working class.

Sure, Marx and Engels both were the friends of wage slaves.

Marx has wrote various books including Das Capital to unmask the ugly faces of the capitalist exploiters to fight against the capitalist class to vanish the exploitative capitalist system by the working class alone.

The cunning but fraud Lenin has used the name of Marx to impressed the working class to consider Lenin as the friend of wage slaves. In fact, Lenin has done everything against the writings of Marx. Thereby, CPSU- the party of Lenin has distorted the writings of Marx including Das Capital.

Sure, no one except a fraud or supporter of a fraud or stupid can say that Lenin -the boss of capitalist exploiters is the friend of wage slaves.

(5)

LENIN WAS A REACTIONARY BOSS

Leninist parties has been claiming that Lenin was a communist revolutionary.

But the manifesto of the communist party has described so rightly that " Of all the classes that stand face to face with the bourgeoisie today, the proletariat alone is a genuinely revolutionary class. The other classes decay and finally disappear in the face of Modern Industry, the proletariat is its special and essential product. The lower middle class, the small manufacturer, the shopkeeper, the artisan, the peasant, all these fight against the bourgeoisie to save from extinction their existence as fraction of the middle class. They are therefore not revolutionary, but conservative. Nay, more they are reactionary, for they try to roll back the wheel of history. "

But, the Bolshevik was a party of reactionary peasants too thus, the Bolshevik party was a reactionary party.

Therefore, Lenin as a key founder of the Bolshevik party was a communist revolutionary by the founding declaration of the reactionary Bolshevik party.

Thus, any party, originated from the reactionary Bolshevik party is nothing but a reactionary party.

So, Lenin was a reactionary boss by the description of the manifesto of the communist party.

(4)

Capital is not a matter of imagination, rather its the fruit of hard labor by the wage slaves.

The capitalist society is not a matter of imagination, rather its a hard reality and thereby existed along with so many parasitic people with a huge cost to maintain them including 2% of the total production of the world only in the military sector to serve and protect the capitalist interest.

So, the change of the capitalist society is not a matter of imagination but a hard reality by the working class by a communist revolution-the ever biggest event of the world.

But, Leninist parties has been thinking that its a matter of one mid night by some army personals by killing 2 guards, what did Lenin to captured the state power of the Russia.

Really, are they stupid or criminal?

(3)

Is socialist revolution a mid night show by some army personal?

Undoubtedly, the culmination of the contradictions of 2 developed 2 classes of the capitalist society is socialist revolution.

Such formulation about socialist revolution has drawn by both Marx and Engels. No doubt, they are right on it.

Thereby, the socialist revolution is the ever biggest event of the world to vanish the all rubbishes originated from the private property by vanishing the private property for socialization of means of production, transportation and communication.

But, Lenin has captured the state power of Russia by a planed military coup in mid night but claimed it a socialist revolution by ignoring and denying the formulation of Marx and Engels what was not unknown to Lenin. But, Lenin has claimed him-self a Marxist.

Therefore, was Lenin only a liar and cheater or a betrayer?

Undoubtedly, Lenin was a liar, cheater and betrayer.

(2)

Once upon a time in a good morning a cunning but ill motivated man has said that he is the grand son of some one who is the creator of the earth and the earthly lives thereby he is a king by the appointment of the creator to rule the creatures.

Therefore, the said king has introduced some rules to follow and care by the slaves and subjects of him. Sure, violation of his rules was punishable crime. Thereby, the human being has divided into classes by the said king - a liar but politician.

The place of such introduction of class, rule, slave, private property etc nonsense is Egypt.

The capitalist class has proved that no one has created the earth and the earthly lives rather, all these are natural product.

Therefore, the secular capitalist class has abolished the rule of the Church and King of France at France by the historical France revolution-1789.

In spite of that there are so many people are yet believed the false and fabricated stories about the creation of the earth and the earthly lives, produced by the so many liars but ill motivated kings, masters, lords etc. Though, they do not hesitate to use the mobile phone, net etc scientific instruments, produced by the capitalist class to contact and communicate.

Noted, one big liar Mr.Lenin has said that he has founded a socialist state at Russia, in the year 1917.

Therefore, so many people has believed it. Thousands of people of the world has lost their lives for establishing the same state as considering it socialism. Countless people has suffered.

But, USSR-the state of Lenin was a state of state capitalism, and state capitalism is capitalism. Thereby, by the consequence of state capitalism- the USSR has dissolved in the year-1991.

In spite of that there are some people has been claiming that Lenin was a great communist leader and the USSR is the first socialist state in the world. How funny! Really, are they stupid or criminal?

More details: Fall of USSR Self-Term, a book, published by the ICWF, @ www.icwfreedom.org .

(1)

LENIN WAS NEVER A COMMUNIST-

Lenin was never a communist to unite the workers of the world to fight against the capitalist class to vanish the capitalism by a communist revolution by the working class alone for communism- a society free from exploitation.

Rather, he has founded a state of state capitalism, where the rate of exploitation was much higher than USA. But, he claimed that it was a socialist country, which was totally false even by his own writings about his state as a state of state capitalism. But, no doubt, state capitalism is capitalism, and it was not unknown to Lenin. So, Lenin was a liar not only about socialism but also capitalism. Thereby, he has created a false and wrong conception and impression among the wage slaves of the world about the capitalism and socialism to serve the capitalist interest to protect the decayed capitalism.

A socialist revolution is nothing but the culmination of contradiction of 2 developed classes of the capitalist society to end the selling and buying to end the wage slavery to end the production of commodity to accumulate capital by vanishing the capitalist private property to end the exploitation to end the rule, man by man for the liberty and freedom of all of the world.

Thereby, socialist revolution is the job of working class alone.

But, Lenin has captured the state power of Russia by planned military coup by killing 2 guards in the mid-night. Records shows that the government of Lenin by the military coup has rejected by the voters of the Russia by the election of the constituent assembly, held under the government of Lenin.

Lenin has introduced a constitution to constitute his state and he was the chief executive of his state till his death but the very post what he holds was not narrated in his own constitution-1918.

So, Lenin was not only a gang leader of the exploiters but also a extreme and absolute but more dangerous dictator than Tsar, because, the post of Tsar with its source of power, scope, power and function was mentioned in his constitution-1906.

Therefore, Lenin has betrayed not only with the people of Russia but also the workers of the Bolshevik party on its founding program on democracy and the sovereignty of people.

Sure, there was judicial killing under the rule of the Tsar, but killing without trial was restricted by the constitution of Tsar-1906.

But, Lenin did not care any court or trail to kill his enemy or opponents thus, there was extra-judicial killing under the government of Lenin and he killed so many So, Lenin was a infamous killer of the world.

As a dictator Lenin did not care even his constitution to introduced the new economic policy (NEP) by violating his own constitution on restriction of selling and buying of labor power in private sector.

Lenin was a atheist personally, but he was not against religion and religious practice in his state, by his own constitution-1918.

Unity of workers of the world is the first condition for the emancipation of the working class, but Lenin has divided the workers of the world by nation and country by practicing the politics of so-called right of self-determination of nations. Thereby, Lenin has committed crimes against the working class to serve the capitalist interest.

So, Lenin was a heinous criminal.

Bolshevik party- the party Lenin was a multi-class party to developed the capitalist mode of production at Russia to increased the rate of accumulation of capital by exploiting the wage slaves by its founding declaration.

Thereby, Bolshevik party was not a party of working class to unite the workers of the world for a communist revolution for communism. Thus, the Bolshevik party was never a communist party. But, Lenin has changed the name of his party as communist party to create confusion and misunderstanding among the wage slaves even about the communist party- a global party of working class alone.

So, Lenin was not only a liar but also cheat and fraud about the communist party.

Capital it-self is the cause of disappearance of capital and capitalism.

Therefore, capitalism has been creating all necessary conditions for the disappearance of capitalism by the existing conditions of capital: (1) Reproduction; And (2) Circulation.

Thus, capitalism is the foundation of socialism.

So, socialism is unavoidable and inevitable.

The ownership of means of production, transportation and communication by the society is socialism.

The ownership of means of production, transportation and communication by the commune is communism.

So, there is no difference between the terms socialism and communism.

Sure, there is difference between socialism, originated from the capitalism and socialism developed from the socialism by the conditions of living standard but not in principle.

But, Lenin has created an artificial difference between both the terms to confuse the wage slaves to accept his state of state capitalism as socialist to serve the capitalist interest.

18-04-16.

POVERTY IS UNTHINKABLE IN SOCIALISM

No country of the world is free from poverty- an artificial creation of capitalist class.

Total labor force was 3.1 billions out of 7.17 billions population of the world, in spite of that per head average income of the world population was not less than \$ 12,800 in the last year and its enough & enough for any individual to live a life with a good style. But, 14.5 % of the total population was bellow extreme poverty line that means they had no ability to spend \$1.2 per day per head by the report of the World Bank.

But, World Bank is working for a poverty free world since its birth,1945.

There were so many politicians in this world those who committed to make their respective country free from poverty. But, failed.

The rate of poverty in USA- 15% (2012); Japan-16.1% (2012); Germany-19.9% (2011); France - 13.5% (2010) and UK-5.5% (2010).

These are the 5 big members of the World Bank by their share.

In spite of that there are so many politicians and economists those are yet committing to free their respective countries from the poverty!

How funny.

Noted, there are sellers and buyers of labor power to produce commodity to accumulate capital by paying the

wage to the wage slaves-the sellers of labour power but the producer of capital in the capitalist system. Therefore, capital is nothing but the unpaid part of commodity or unpaid labour by paying wage to the sellers of labour power. Thus, wage slaves are unavoidable and essential factors to maintain the capitalist system.

So, if there is no seller of labour power then who will produce capital, if there is no poverty? Or if all are rich then who will produce the capital to run the capitalist society ?

Sure, all poor are not sellers of labour power but the sellers of labour power are poor, because they have no means of production, transportation and communication to live. Thus, they are sellers of labour power to produce commodity to accumulate capital.

Really, if any one have the ownership of any means of production, transportation and communication, he is at least rich, then why he will go for sale his labour power?

On the other hand capital can not exist without reproduction and circulation.

So, if there is capital, there is wage slavery and if there is wage slavery there is poor. Thus, there is no scope to be free from poverty in capitalism.

Thereby, Capitalist bosses, politicians, economist etc are not only liar but also fraud and cheat even about poverty.

But, the term poverty is unthinkable in socialism, win by working class alone by defeating the cheater and liar capitalist class.

Because, there are no parasitic to exploit, thereby, there is no weapons including state to serve the parasitic interest rather all able bodied are worker but no one is wage slave thus, everyone will work for the best well fair of the human being by using their best effort in socialism.

Girls are not commodity to sale , but yet treated, because there is private property -the cause of all evils.

Girls are not sex objects to use, but yet treated, because there is private property-the cause of sexism.

Women are not property to belong or owned by males , but yet treated, because there is private property- the cause of all nonsense.

Women are not sex slaves of males but yet treated, because there is private property- the cause of all slavery including wage.

Women are not reproductive machines to produce the inheritances for husbands, but yet treated, because there is private property to protect it by the legitimate inheritances- the cause of all violence even against women including rape.

Women are not lower caste but yet treated, because, there is private property- the cause of all disparity and discrimination among the human being.

Women are not weakened but yet treated, because there is private property- the cause of all nonsense political concepts, ideas etc but unscientific about the human body and functions of human body.

Women are not the cause of crime, but yet treated, because, there is private property - the cause of all crimes including killing, rape.

Therefore, if there is no private property, there is no reason to consider the girls and women as commodity, or sex object, or sex slave, or reproductive machine etc nonsense.

Thus, there is no reason to commit crime and violence even against women including rape, in society where there is no private property.

So, there is no reason to exist any such disparity and discrimination among the human being even by sex, in a society where there is no private property.

Rather, all are members of a human being with full sense of humanity in a society where there is no private property.

Therefore, all are free to do anything including love and union, in a society where there is no private property.

Thus, there is no option except abolition the private property to be free from all nonsense concepts, ideas about girls and women as they are sex object or sex slave or property of males etc.

So, the abolition of private property is unavoidable condition to free the whole human being from such crimes including rape, violence.

Undoubtedly, the working class- the producer of capital, will vanish the private property for the emancipation.

Not year or month or day but the existing conditions of the society has been determining the good or bad condition of anyone.

Therefore, not year or month or day but the existing conditions of the society is the matter of consideration to know the practical situation and real condition of anyone to determine the future course of action to improve or change the situation.

But, the exploiters of the dark age has introduced some days including new year's day to observe and celebrate for the well being of the observers.

How funny and how mockery!

But, such politics of masters and lords to introduce to observe and celebrate some days for the well being of the observers was a bad and heinous effort to confuse the slaves and subjects about their real conditions of life by hiding the dangerous role of the exploiters for the miseries and hardship of exploited but ruled class. Capitalist class is also exploiter.

So, capitalists are not free from such politics to confuse the wage slaves by spreading so many false stories about the better condition of them and the miseries and hardship of wage slaves.

Thereby, capitalists are not only insisting and encouraging but also provacating to observe such foul events including new year's day for the well being of the observers.

There are huge expenditure to celebrate such events including new year's day, therefore, there are heavy marketing, thus, there is a good scope to increase the volume of capital of the concern capitalist.

Sure, such celebration is so useful and helpful for the capitalist exploiters in various ways including the

spreading the false, but ill-motivated, fabricated and bogus concepts of dark age about the good and bad condition of life.

But, what about wage slaves?

Not only cause of lose but also suicidal and dangerous for the wage slaves, because, they has been ignoring and denying their class identity and class interest by celebrating such events, introduced by the exploiters for their parasitic interest.

No one call him Mr. Aids, he who is suffering from the aids.

But, every one call him Mad, he who is suffering from the mental disease.

But, why? Is it not an injustice to the mental patients ?

Sure, suicide is a curable mental disease.

Thereby, its need to provide the required treatment to the patient of suicidal attempted or suicidal tendency cases for the recovery of them.

But, there are some laws against the attempt to suicide, by marking it as punishable crime.

Is it not funny or mockery with them?

Not punishment but receiving the all possible but best treatment facilitates and opportunities are not only right but due for a patient of suicidal case.

So, its need to null and void the all concern laws against the patient of the suicidal case.

Sure, they are patients those are suffering from the mental disease.

So, no one is mad.

Noted, the cause of the mental diseases is nothing but the private property.

Because, no one is safe and secure in this capitalist society, based on private property. Because, capitalism is a society of certainty of uncertainty.

So, no one is free from the fear and anxiety in this capitalist society.

Finally, its so important to stop the use of the very nonsense word - 'MAD'.

Year is not an element of commodity.

So, year have no role to create value or surplus-value that is capital.

Thereby, year can not play any role to earn or lose the money.

Thus, year have no role to change the financial condition of anyone.

Sure, year have no role to improve the health condition of anyone.

Undoubtedly, year can not play any role to change the political situation of any country.

Year have no role to change a society.

So, year have no role to play for good or bad of anyone.

In fact, a year is nothing but a definite period by counting the moving time of the Earth around the Sun, which is called a calendar year.

Calendar has introduced by the Roman King to collect the tax and rent for every year to earn his revenue to expend and lead a luxurious life.

Roman calendar was with 10 months.

Some kings or emperors has followed it and some others has introduced their own calendars for the same reason.

Emperor Akbor, India, has introduced the Bengali calendar by relating it with the harvesting season to maximized his revenue.

Collectors of rent and tax were the beneficiary from the calendar year too.

The said beneficiaries has introduced the new year celebration to expend their money by arranging so many events including fair.

But, so many tenants have left their habitats by the failure to pay the tax and rent.

(2)

Capitalism is a society based on private property.

But, the capitalist class has been negating the private ownership by the existing conditions of capital.

The working class- a product of capitalist class will finally negating the private property by a communist revolution, imposed by the capitalist class by the existing conditions of capital.

Therefore, the historical consequence of capitalism is socialization of means of production, transportation and communication that is communism by the existing conditions of capital.

Thus, capital is the cause of totally negation of private property.

Thereby, capital is the cause of disappearance of capital.

So, communism is inevitable by the existing conditions of capital.

Noted, reproduction and circulation are the existing conditions of capital. But, the effect of reproduction is over production and the result of overproduction and thereby the outcome of over production is recession, and the consequence of recession is so many including lose of private property by some property holders.

So, the consequence of repeated recession is socialism.

(1)

Was Lenin against the rule man by man ? No.

But, communism is a society free from rule many by man.

Was Lenin for ending the rule man by man by working class? No.

But, socialism is a society win by working class alone, where there is no rule man by man.

Was Lenin against political power, politics and political party to disappear all these class weapons to vanish these by a communist revolution by the working class alone? No.

But, communism as a classless society is free from all such class weapons to rule and oppressed.

Noted, politics is nothing but an organized power to oppress and overpowering the others, introduced by the masters for their parasitic interest and inherited by the capitalist class- the last and final parasitic people of the history, based on private property.

The age of human being is not less than 2,00,000 years but the age of private property, class, class rule, class oppression, class weapons - ideology that is religion-the politics of masters, kingdom, king -the supreme politician in his kingdom etc are not more than 5,600 years.

But, capitalism has been creating all conditions to destroy the private property by the existing conditions of capital, thereby, working class- the product of the exploiter capitalist class will vanish the private property along with all nonsense, originated from the private property.

Was Lenin against the capitalist mode of production to vanish it by a communist revolution- a global event, imposed by the reactionary capitalist class for the commune/ social/ common ownership of the means of production, transportation and communication? No.

But, socialism/communism is a society with commune/social/ common ownership of the means of production, transportation and communication to produce, transport and communicate all required social

necessities by the all able bodied with an association of all of the world to coordinate, transport and communicate all required things to the all of the world.

Was Lenin against all nonsense and rubbishes including ideologies, originated from the private property for a scientific society, win by only the working class by disappearing the capitalist class- currently suffered by serious and dangerous insanity ? No.

But, socialism/communism is a scientific society thus, its free from all nonsense unscientific things including Leninism-the corruption of science of communism, discovered by Marx by discovering the code of capital and the code of society for change. Was Lenin for a communist revolution- the culmination of contradiction of sellers and buyers of labour power of the world to end the exploitation -the cause contradiction between the capitalist class and working class as sellers and buyers of labour power to produce commodity to accumulate capital? No.

Rather, he founded a state of state capitalism by a planed military coup, where the rate of exploitation was much higher than USA.

But, a communist society is the outcome of the contradiction of sellers and buyers of labour power of the world by the condition of commodity production to accumulate the capital.

Was Lenin interested to serve the working class? No.

Rather, he served the capitalist interest by his politics of state capitalism and so-called right of self-determination of nations to protect the decayed capitalism by confusing

and dividing the workers of the world by nation, country and a false & bogus political but motivated propaganda about socialism, capitalism, communist party, communist revolution, communism etc.

Therefore, Lenin was a historical cheater, fraud and criminal by practicing the Leninist politics by committing huge crimes against working class.

But, communism is society free from all such crimes-originated from the private property.

So, Lenin was never a communist.

There are not less than 210 states in this world but society is one and that is capitalism- a global system.

Sure, all states are the so strong weapons of the capitalist class to manage the capitalist system to serve and protect the capitalist interest by oppressing and overpowering the wage slaves to exploit the wage slaves to accumulate the capital.

Therefore, all executives of the all states are nothing but the managers of the capitalist class.

Thus, there is no difference between the managers of the capitalist class to accumulate capital by exploiting the wage slaves.

But, Leninist parties has been claiming that Lenin, Mao, Ho-Chi etc Leninist bosses were different than the others. How funny!

Records shows that the rate of exploitation @ USSR was much higher than USA.

The condition of such higher rate of exploitation were same in the all Leninist states than USA.

So, its the difference between Lenin and the chief executive of USA.

Sure, As chief executive of his state Lenin was a gang leader of the exploiters.

Noted, cost and expenditure of the states are nothing but a part of surplus-value, produce by the exploited wage slaves.

So, no executive of any state is the friend of wage slaves.

07-04-16.

Parasitic people are not free from competition and contradiction among themselves, because of conflict of interest.

So, parasitic people can do every nonsense including lie, cheat, forgery, violence, killing, rape.

Sure, parasitic people has introduced the politics and political power that is kingdom or state to exploit, rule, oppress and overpowering.

Noted, politics is nothing but an organized power to oppress, and political power that is kingdom or state is nothing but a strongest weapon of ruling class to rule,

oppress and overpowering to serve and protect the parasitic interest.

Certainly sure, parasitism has originated from the private property.

Therefore, the private property is the originator of parasiticism.

Thus. the private property is the producer of conflict of interest among the parasitic people- the owner of private property or the servant of private property holders.

On the other hand, there is another conflict of interest between parasitic people and exploited people of the society.

So, parasitic people are always involved in contradiction, conflict etc nonsense.

Thereby, politicians -the bosses of parasitic people are not free from contradiction, conflict, quarrel, war, killing, lie, betray etc all nonsense to serve and protect the parasitic interest.

Therefore, there are war, killing, rape, arson , destruction, torture, violence etc all nonsense, because there is parasitic people because there is private property.

But, if there is no private property, there is no parasitic people, thereby, there is no conflict of interest, thus, there is no lie, cheating, betraying, quarrel, violence, war, killing, rape, torture etc all nonsense and evil things, originated from the private property.

Thereby, a society without parasitic people is a society free from masters, lords, leaders, guides, heroes, rather, all are human being with full sense of humanity thus, its society of equals.

So, a society without parasitic people is a not only a humanitarian society but also a society of uninterrupted peace.

Its so important to know the nature by knowing the code of nature to win the nature for the well being of the human being.

Capitalist class is not interested to know the nature to win the nature for the well being of the human being.

Rather, they are very much interested to increase the volume of capital by exploiting the wage slaves but using the natural resource.

Therefore, capitalist class is not eligible and fit to know and win the nature for required development of the society for the well being of the whole human being.

In fact, capitalists are slave of capital.

Thus, capitalists have nothing to do except following, caring and practicing the orders of capital to exist as capitalist.

So, capitalists are not only self-centred and one eyed but also blind.

But, capitalist class as a whole is so ferocious thus, capitalists can do any heinous job up to killing to protect the capitalist property.

Really, not human being but the capitalist property is so important to the capitalists.

So, there is no alternate except vanishing the capitalist class by vanishing the capitalist private property for the

expected development of the society by knowing the nature to win the nature for the best use of the natural resources for the best well being of the whole human being.

Noted, natural resource is the one of 2 elements of commodity, and another is labor.

Natural resource has use value but not exchange.

Therefore, the price of a commodity is nothing but labor.

But, capitalist has pay wage to the wage slaves -the producer commodity.

Therefore, the unpaid part of a commodity is capital, or the unpaid labor is capital or dead labor is capital.

Thus, capitalist class as a whole is exploiter.

Sure, exploiters knows to exploit and they are very much interested to exploit but not well being of the human being.

But, exploited working class will do everything for the well being of the whole human being by vanishing the exploitation by vanishing the selling and buying by vanishing the capitalist private property.

So, working class is only the hope of human being for the best future of the whole human being.

A state with a chief executive Mr. Obama along with commodity, capital, wage, selling and buying, exploitation, exploiters, exploited etc is a capitalist state and its right.

A state with a chief executive Mr. Fidel along with commodity, capital, wage, selling and buying, exploitation, exploiters, exploited etc is a socialist state and how funny!

But, Leninist parties has been saying such thing that the USA is a capitalist state and CUBA is a socialist state.

Are they free from ill motive and bad intention to hide the fact to serve the capitalist interest to protect the moribund capitalism? No.

Noted, CUBA is a state of state capitalism and state capitalism is capitalism, where the sufferings, miseries, hardship etc of wage slaves is much more than a traditional capitalist state.

USSR, founded by Lenin was a state of state capitalism along with all capitalist nonsense but the rate of exploitation at USSR was much higher than USA.

Because, there is private property.

No one can exploit anyone, but yet there is exploitation.

Because, there is private property.

Noted, everyone is from the 23 pairs of Chromosomes.

So, everyone is equal by born condition.

Sure, everyone will be treated equally equal if there is no private property.

So, no one will kill or rape or undermine or exploit in the society of equally equal and that is SOCIALISM.

H₂O is water.

Its the code of water.

Thus, its science.

And the discoverer of the code of water was a scientist.

Undoubtedly, the discoverer of the code of water was not identified as a producer of any ideology.

In fact, science and ideology is not same.

Ideology is nothing but a fabricated political view or opinion or creed to serve the parasitic interest.

But, science is the code of any creation or transformation of any thing.

Thus, science is a factual statement of anything for creation or transformation.

Thereby, science is fact.

Thus, science is reality.

So, science is true.

Sure, no discover of any code of any creation or transformation of anything is called a ideologist rather, all discoverers of the code of anything are called scientist.

Marx has discovered the science of communism by discovering the code of capital and the code of society for change.

Therefore, Marx was a scientist.

But, Leninist parties has been identifying him as a producer of a ideology as like as Marxism. Such, identification of Marx is not only undermining Marx him-self but its an heinous effort to ignore and deny the science of communism to serve the capitalist interest to protect the decayed capitalism- a waste and unscientific society thereby, its the cause of all evil jobs of the world.

The age of law, judiciary to delivery justice, crime and punishment is same.

The code of Hammurabi is the first written law of the world

The said code was full with so many section for death sentence even for providing the shelter to a fugitive slave.

Policy of the said code was as : ear for ear, nose for nose, neck for neck.

In fact, retaliation was the judicial policy to maintain the law for the sectarian interest of the private property holders.

The code of Manu was for the retaliation policy to maintain the so waste cast system to serve and protect the interest of private property holders.

Roman law was not different from the same policy of retaliation.

There were at least 220 laws for death penalty in England.

Not only theft of 6 penny but also begging was not out of death penalty.

Laws of the other countries of the world were introduced on the same policy of retaliation to protect the law to serve and protect the parasitic interest of the private property holders.

Therefore, not end or reduce the crime but justice is to make sure the proper retaliation.

In fact, if there is no crime, there is no utility of judiciary

to delivery justice and thereby there is no necessity of law.

Noted, crime is nothing but the violation of law.

Thus, if there is no law, there is no crime.

Undoubtedly, socialism is a society free from law, crime and punishment.

Because, there is no private property in socialism.

Finally, man ruled by man is the highest form of crime by the standard of the natural justice.

25-03-16.

Law, introduced by the masters to protect their sectarian interest by serving and protecting the interest of private property holders.

Therefore, know the law, care the law, follow the law, obey the law is the legal obligation of the concern people to serve and protect the interest of the private property holders.

Thereby, violation of law is crime by the description of law to protect the law to protect the legal authorities to serve and protect the interest of the private property holders.

Thus, law it-self is the reason of crime.

In fact, private property is the cause of all crimes. Because, law has originated from the private property, to

serve and protect the interest of the private property holders.

But, if there is no private property, there is no utility of law to serve and protect the interest of the private property holders, thereby, there is no law, thus, there is no scope to violate the law so, there is no crime ,if there is no law.

Sure, working class will vanish the private property by winning the new society- socialism which is free from private property, thus, its free from law.

So socialism- a society free from crime.

Noted, the age of private property, law and crime is same.

Undoubtedly, he who is not against the private property to vanish it by the working class alone is not against crime to end all crimes including killing, rape, etc nonsense.

23-03-16.

Chastity of a woman is so important to protect the private property by the legitimate inheritances, but what about man?

Virginity of a girl is so important to marry a man to produce his legitimate inheritances to protect the private property.

But, if there is no private property, there is no utility of both virginity or chastity to protect the private property by the legitimate inheritances.

There was no private property before 5,500 years therefore, the question of chastity and virginity did not arise at all.

Even, the word rape was not known to the people when there was no private property.

Noted, the age of human being is not less than 2 lacs years.

Its very much clear that the private property has chained the bodies specially women body by so many rules, laws, customs, etc to protect the virginity and chastity of girls and women to protect the private property by the legitimate inheritances.

Thereby, women has marked as reproductive machine of their husbands.

Thus, wives has considered as the property of husbands, thereby wives has been considering as sex slaves, therefore, in general, husbands do not care to take consent of their wives for sexual intercourse thus, in general, wives are not free from rape by their husbands.

No doubt, girls are not sex commodity or sex objects but yet treated. Thereby, girls are not free from kidnapping, sexual harassment even rape by the males.

Undoubtedly, working class will win a new society, which is free from private property. Therefore, there is no utility of right of inheritance in socialism- a society free from all rules, laws, customs etc, originated from the private property to serve and protect the interest of private property holders, thus, there is no discrimination among the human being even by sex in socialism- a society free from all evil nonsense including rape, rather, everyone is free to do anything including love and union.

If there is private property, there is exploitation.
If there is private property, there is exploiters.
If there is private property, there is exploited.

If there is private property, there is state to rule and oppress.

If there is private property, there is arms forces to kill.

If there is private property, there is division among the human being.

If there is private property, there is discrimination among the human being even by sex.

If there is private property, there is hostility.

If there is private property, there is antagonism.

If there is private property, there is inhumanity.

If there is private property, there is slavery.

If there is capitalist private property, there is wage slavery.

If there is capitalist private property, there is selling and buying.

If there is capitalist private property, there is commodity.

If there is capitalist private property, there is capital.

If there is private property, there is hardship, miseries, sufferings, anxieties, etc.

If there is private property, there is suicide.

But, if there is no private property, there is no such nonsense what mentioned above.

Sure, working class will win the new society free from private property.

18-03-16.

Worship to anyone or any thing is nothing but a heinous custom to considering that some are extra-ordinary and some are ordinary among the human being. Therefore, such custom of worship is so helpful to divide

the human being by master- the extra-ordinary but divine right holder to rule and oppress the slaves- the ordinary people to serve the masters.

Thus, such custom of worship is so useful to exploit and overpowering the slaves by the masters.

Sure, worship has introduced by the masters to justify their political authority to protect the interest of private property holders.

In fact, worship has originated from the private property. Capitalism is based on private property and the capitalist class as a whole is exploiter.

Thereby, such custom of worship is helpful for the exploiter capitalist class too.

Thus, the capitalist class has been nourishing the custom of worship to serve and protect the capitalist interest by exploiting the wage slaves by marking them as ordinary people, but born to serve the capitalist class- the extra-ordinary people.

But, every human being is equal because every one is from 23 pairs of Chromosomes.

So, no one is extra-ordinary or no one is ordinary.

But, there are so many extra-ordinary people because, there is private property.

Leninist parties has been acknowledging that Lenin, Trotsky, Stalin, Mao, Kim, Ho-Chi etc were extra-ordinary people.

Thereby, Leninist parties are not free from worshiping their masters by celebrating their birth and death anniversaries.

But, communism is a society free from private property thus its free from exploitation, thereby, there is no discrimination among the human being, thus there is no ordinary or extra-ordinary people in communism so, communism is free from worship.

17-03-16.

Existing conditions of capital is the cause of disappearance of capital, capitalist class and capitalism by the working class.

Therefore, socialism is inevitable by the historical consequence of capitalism by the existing conditions of capital by the working class alone.

So, a communist revolution by the working class alone is unavoidable to replace the capitalism by the socialism- a society free from exploitation by the existing conditions of capital.

Noted, existing conditions of capital are : (1) Reproduction; And (2) Circulation.

The outcome of reproduction is over production, and the result of over production is stock and that is recession.

The effect of recession is disturbance of circulation thereby, capitalism is not working to accumulate capital rather, there are so many destructive actions including war by the capitalist class, but losing of private property by some capitalists is natural and thereby, starting the process of social ownership of means of production is quite natural thus, the historical consequence of repeated

recession is socialization of means of production, transportation and communication and that is socialism- a society free from capital.

09-03-16.

Observing the International woman day, 10th March is so helpful to ignore and deny the class interest and class identity of working class in this class divided capitalist society.

Therefore, exploiter and corrupt capitalist class is beneficiary from such celebration of so-called international woman day.

On the other hand its so useful to dive the wage slaves by sex.

But, unity of workers of the world is the first condition for the emancipation.

So, not woman wage slaves but the capitalist class as a whole is beneficiary from such event, introduced by the UN, a global political and social club of the capitalists of the world.

The very much slogan to unite all women of the world for equal right and that is for freedom of women is nothing but a conspiracy and heinous effort of capitalist class to confuse the woman wage slaves by ignoring the antagonism and discrimination among the women of the world, because of private property.

Sure, there are so many buyers of labor power of the world are women to produce commodity to accumulate capital by exploiting the wage slaves but all sellers of

labor power that is all wage slaves of the world are not only male rather, there are so many women too.

But, are there any women capitalist care the women wage slaves to exploit? No.

Noted, the interest of exploiter and exploited is not same. So, the interest of women capitalists and women wage slaves is not same but quite opposite and antagonistic by the condition of selling and buying of labour power to produce commodity to accumulate capital.

. Thereby, there is no scope to celebrate such event jointly by the exploited woman wage slaves with exploiter woman capitalists except losing the interest of woman wage slaves.

In fact, such celebration by woman wage slaves is nothing but a suicidal act for not only women wage slaves but also total wage slaves of the world.

But, Leninist parties has been celebrating such international woman day for the claimed freedom of women.

Therefore, Leninist parties has been serving the capitalist interest by celebrating such International woman day too.

07-03-16.

Not sex but the private property is the cause of disparity and discrimination among the human being.

Therefore, discrimination between male and female is nothing but the private property.

Thus, if there is no private property, there is no disparity and discrimination among the human being.

So, there is no disparity and discrimination between male and female, if there is no private property.

In fact, wage slavery, based on private property is the cause of all existing miseries and nonsense including violence against women.

But, politicians including Leninist bosses are not against wage slavery, but they has been crying & shouting for so-called women freedom by observing an international day for women freedom -8th March, every year.

Really, its not only fun but also a heinous conspiracy and rubbish tactics to confuse and divide the wage slaves even by sex.

Sorry, not sex but the human labour has produce value, and wage slaves has produce not only value but also surplus-value, that is capital -the unpaid labour. Noted, buyers of labour power of the world is the exploiter of the sellers of labor power of the world.

Thus, there is an antagonism between buyers and sellers of the labor power of the world.

So, not sex but the selling and buying system to produce commodity to accumulate capital is the cause of all sufferings, miseries and disgradation of the workers of the world.

Sure, there are so many buyers of labour power are women in this capitalist world and they are exploiter. Are they care to exploit by sex? No.

Rather, they are also trying to pay low wage to the female wage slaves as considering them as stupid to unite

and bargaining for same wage for same job for every one, to maximize the volume of capital.

No doubt, unity of wage slaves of the world is the first condition for the emancipation of wage slaves.

Undoubtedly, every one of the world will be free from all nonsense evil things in socialism- a society free from private property, wage slavery, selling and buying, exploitation, violence, torture, killing, rape etc.

Thereby, there is no discrimination and disparity among the human being even by sex in socialism.

Therefore, the identity of everyone of the world is only human being but all are with full sense of humanity in socialism, win by the working class alone. But, politicians including Leninist bosses has been trying to unite the all women of the world to exercise the so-called freedom of women without vanishing the wage slavery, private property, selling and buying, commodity, capital etc nonsense.

Even, Leninist parties are for the unified family code for equal right of inheritance even in the private property.

But, the abolition of private property with all rights of inheritance is socialism.

Certainly sure,win the socialism is not the job of anyone except working class. Because, the outcome of contradiction of sellers and buyers of labour power of the world to produce commodity to accumulate capital is **SOCIALISM**.

Therefore, politicians including Leninist bosses has been trying to role back the wheel of history by practicing such vile policy for so-called women freedom.which is so

effective not only divide but also creating a hateful atmosphere among the wage slaves by sex to serve and protect the so heinous and poisonous capitalism.

Noted, UN is nothing but a global political and social club of the exploiters of the world. But, UN is the main body to observe the 8th March as an International day for women freedom.

In details: Lenin Cheat & Betraying Marx So IMF The World Lord And..... , a book, published by the ICWF, @ www.icwfreedom.org .

Workers have no nation and country but, they have a world to win by losing their chain by defeating the capitalist class by the existing conditions of capital: (1) Reproduction; And (2) Circulation.

The result of reproduction is over production.

The effect of over production is recession, that is stock.

The effect of stock is disturbance of circulation.

The impact of recession is so many including lose of private property, thereby the negation of private property is the condition for socialization of means of production.

In fact, capitalism will vanish by the existing condition of capital.

Therefore, the historical consequence of capitalism is socialization of means of production, transportation and communication and that is SOCIALISM.

So, socialism is inevitable by the working class alone.

5th March, 2016

J.Stalin was a Leninist boss.

Leninism is nothing but the corruption of science of communism, discovered by Marx.

At least 12 members of the first cabinet of Lenin has lost their lives by Stalin.

Finally, Stalin was killed by his best collaborator Beria to kill so many people including the leaders of the so-called 3rd International.

Stalin has killed his party man and opponents and the number such killing is not less 1.5 millions till 1938.

Stalin has dissolved the so-called 3rd International by his own decision by ignoring the manifesto of the said organization.

Stalin has reintroduced the Egyptians cultism in USSR.

Stalin was the party chief but he control the USSR without holding post of it before the 2nd world war.

Stalin has introduced the constitution of USSR, 1936 without constitutional power even without considering and caring the constitution of USSR, 1924.

Stalin was the collaborator of Hitler to attack the Poland to start the dangerous and heinous 2nd world war.

Stalin has introduced the death penalty for homosexuality by denying the penal code of Lenin but by following Hitler.

Stalin was one of the 3 key founders of the IMF- the controller of the world economy to serve the capitalist interest globally by concluding the colonial policy.

Noted, working class will win socialism- a society free from wage slavery, capital, exploitation, oppression, torture, killing, cultism, war. rape, etc nonsense.

Not new year but the existing conditions of society is the determining factor of life of everyone of the world.

New year day is not less or more than a day to start the counting of a year.

Calendar has introduced by the Masters to collect the revenue to earn to expend by the masters and their beneficiaries.

Masters has introduced the new year celebration for their parasitic interest.

But, working class will vanish parasiticism by wining the socialist society by vanishing the capitalist society.

Thus, working class have no need to celebrate such new year day.

(2)

CPI(M) is not against the wage slavery to vanish it for the emancipation by the working class alone.

But, a communist party is against the wage slavery to vanish it for the emancipation by the working class alone.

So, CPI(M) is not a communist party.

(1)

Birth of any one is not a special but quite normal and natural event. In fact, birth of any one is nothing but an out come of the union of 23 pairs of Chromosome. Thus, there is nothing to celebrate it. But, the Masters and

Lords has introduced the such function of celebration of their birth day's by claiming that they were not ordinary people but extra-ordinary man by the right of divine right holders, thus, born of them are not normal but a special event.

So, celebration of such special event is the task of their slaves and subjects to live with peace and prosperity by the kindness and kind care of the said but so-called great men.

Such concepts and views has originated by the parasitic people to serve and protect their parasitic interest by confusing and misleading the oppressed classes by such worship to the masters and lords-the rulers of class divided societies.

The capitalist class is not free from parasiticism. Thus, they are for such nonsense celebration. But, working class will win their world by vanishing the parasiticism by vanishing the disabled ruling capitalist class by vanishing the private property- the basis and source of all nonsense things including parasiticism by a communist revolution.

30-12-15.

Communist party of India (Marxist) is a registered party.

Therefore, CPI(M) is a supporter, defender and protector of the constitution of India by the condition of registration.

The constitution of India is not against the interest of capitalism.

Thus, CPI(M) has been serving the capitalist interest.

But, a communist party is a party of working class to unite the workers of the world to fight against the capitalist class to vanish it to vanish the capitalism by socialism- a society of social ownership of means of production, transportation and communication by vanishing the private property by a communist revolution by working class alone.

Noted, the first International was formed to unite the workers of the world to replace the capitalism by socialism.

So, CPI(M) is not a communist party.

29-12-15.

A better world is inevitable by the working class by the consequence of capitalism- a society based on private property but capitalism it-self has been reducing the private ownership by the existing conditions of capital:

(1) Reproduction; And (2) Circulation.

Therefore, a communist party- a party of working class is for better world by replacing the capitalism by socialism by a communist revolution- the ever biggest event of the world.

But, CPI(M) is for better India by occupying the state power of India by the election under the constitution of India - a constitution of capitalist interest though its a communist party by name.

Sure, so many politicians and executives of USA or Japan, or UK were for better USA or Japan or UK by increasing the volume of capital of their respected country by increasing the rate of exploitation by exploiting the wage slaves.

Therefore, if CPI(M) is a communist party by claiming to make a better India by increasing the volume of capital by exploiting the wage slaves then why not the said politicians or executives of USA or Japan or UK were communist?

Noted, communism is a society free from exploitation, thus, communists are against exploitation thereby, communists are against accumulation of capital by exploiting the wage slaves.

So, CPI(M) is not a communist party.

26-12-15.

Cause of poverty is private property.

Cause of miseries is private property.

Cause of exploitation is private property.

Cause of slavery is private property.

Cause of conflict is private property.

Cause of contradiction is private property.

Cause of antagonism is private property.

Cause of riot is private property.

Cause of war is private property.

Cause of torture is private property.

Cause of violence is private property.

Cause of killing is private property.

Cause of rape is private property.

Cause of crime is private property.
Cause of punishment is private property.
Cause of insecurity is private property.
Cause of uncertainty is private property.
Cause of selfishness is private property.
Cause of inferiority complex is private property.
Cause of mean minded is private property.
Cause of greediness is private property.
Cause of lie is private property.
Cause of cheating is private property.
Cause of betray is private property.
Cause of mistrust is private property.
Cause of suspicion is private property.
Cause of quarrel is private property.
Cause of discrimination among the human being is private property.
Cause of disparity among the human being is private property.
Cause of sexism is private property.
Cause of rule man by man is private property.
Cause of oppression is private property.
Cause of overpowering is private property.
Cause of brutality is private property.
Cause of evil job is private property.
Cause of want of peace is private property.
But, if there is no private property, there is no such nonsense.

24-12-15.

A communist party have no interest separate and apart from those of the proletariat as a whole.

The disappearance of wage slavery by disappearing the private property is the interest of working class.

Therefore, unite the workers of the world to fight against wage slavery to vanish it by vanishing the private property by a communist revolution by the working class alone for the emancipation is the interest of a communist party.

But, there is no communist party to do the same.

Thus, the moribund capitalism is yet exist with a reactionary capitalist class by increasing the maintenance cost of such nonsense capitalism.

So, a communist party is a historical necessity to replace the moribund capitalism by communism- a most modern society but free from exploitation thereby, poverty- an artificial creation of capitalist class is unthinkable in communism.

23-12-15.

(2)

If a supporter of a movement of peasants to protect their land by resisting a proposed industrial zone is a communist, then:

(1) Mamata Benerji, Chief Minister, West Bengal, India is the best communist. Because, she has played an important role to resist an industrial project approved by the then Left Front Government to protect the land of peasants at Singore, West Bengal, India; And

(2) Marx was not a communist. Because, Marx was not against the historical process of capitalist development by disappearing the peasants. rather, he was against the reactionary role of the peasants against the industrialization.

But, facts remain, Mamata Benerji is a capitalist boss and Marx was a communist by acknowledging the historical disappearance of capitalist private property by the consequence of capitalism- based on private property but the capitalist class has been reducing the private ownership by the existing conditions of capital.

(1)

The manifesto of the communist party has described as is: " Of all the classes that stand face to face with the bourgeoisie today, the proletariat alone is a genuinely revolutionary class. The other classes decay and finally disappear in the face of Modern Industry, the proletariat is its special and essential product.

The lower middle class, the small manufacturer, the shopkeeper, the artisan, the peasant, all these fight against the bourgeoisie to save from extinction their existence as fraction of the middle class. They are therefore not revolutionary, but conservative. Nay, more they are reactionary, for they try to roll back the wheel of history. "

Undoubtedly, such analysis is not wrong.

Noted, no one can establish any industry without land, therefore, peasants has been losing their land as their

private property by the natural course of industrialization. Wage slaves are the integral party of industry to run it. Therefore, capitalist class is the producer of the wage slaves by creating the landless by the natural course of industrialization. Thus, any effort to protect the land to resist the industrialization in capitalist system is nothing but a reactionary job by the above mentioned statement of the manifesto of the communist party.

Sure, capitalism has been reducing the private ownership and thereby, the historical consequence of such reducing of the private property is socialization of means of production.

Undoubtedly, he who know at least ABC about capitalist development can not say that the peasants are not reactionary by trying to resist the industrialization. Moreover, he who know the capital- the unpaid labour can say that there is no difference between reactionary peasants and revolutionary working class. Certainly sure, land holders are peasants and sellers of labour power to produce commodity are worker.

Code of creation is science.

So, science is the factual statement of reality by repeated experiment by inventing and discovering the cause and effect of a matter or change of a matter therefore, science is the fact sheet of a matter and material actions.

Thus, science is a proved fact.

Therefore, science is reality.

So, science is true.

He who is for science thereby trying to know science, thus, caring science to understand and realize the science, so, he who is working by practicing the science is a scientist.

Marx did so and he has discovered the code of capital, and the code of society for change.

Ideology is nothing but a fabricated statement on creation by the masters, lords and their beneficiaries for their parasitic interest.

So, ideology is an ill motivated manufactured story therefore, its not factual or actual factual fact sheet of a matter or material action.

So, its lie and false.

But, yet its an effective weapons to confuse and divide the exploited. Sure, ideologies are nothing but the politics of exploiters.

Undoubtedly, as a communist Marx was against exploitation.

Sure, exploiters are for the private property along with right of inheritance.

But, Marx was against private property with right of inheritance.

Certainly sure, exploitative societies are unscientific but communism-the historical culmination of capitalism is a scientific society.

Marx was for communism.

So, not ideologist but Marx was a Scientist.

Sure, Marx was not a producer of the so-called Marxism but he has discovered, formulated and explained the SCIENCE OF COMMUNISM along with Engels.

But, Leninist parties are working on the basis of " Marxism-Leninism, but not the science of communism.

So, no Leninist party is working for the communism.

18-12-15.

J.Stalin was a Leninist boss.

As a chief executive of USSR- a state of state capitalism, where the rate of exploitation was much higher than USA, he served the capitalist interest till his killing by his nearest man.

His party was never a communist party to unite the workers of the world to fight against the capitalist class to vanish it by a communist revolution for communism- a society free from exploitation. But, Stalin has claimed that his party was a communist party what also claimed by Lenin too. Therefore, both Stalin and Lenin were not only liar but also cheater about communist party.

Stalin was the collaborator of Hitler to attack the Poland to start the 2nd world war by a secret contact.

At least 11 out of 17 cabinet members of Lenin's first cabinet were killed by Stalin.

Stalin has killed at least 1.5 million people of his state including his party men to run his state between 1936-38.

He killed many leaders of the so-called 3rd International, founded by Lenin and Trotsky to get support from aboard

to survive their state by contesting the traditional capitalist states.

Not less than 25 million people of USSR has lost their lives in the 2nd world war and Stalin was not free from such killing.

So, Stalin was a infamous killer of the world. But, communism is free from killing.

Stalin has reintroduced the heinous Pyramid culture of Egypt by protecting the dead body of Lenin.

Stalin has introduced a national anthem by declaring him as leader of people of the USSR. But, there is no room for any leader in communism.

Stalin was one of the three key founders of the IMF-the controller of the world economy to serve the capitalist interest globally by concluding the colonial policy. Therefore, Stalin was not only gang leader of exploiters of USSR but also a boss of exploiters of the world.

Sure, working class will left him in the dustbin of the history.

17-12-15.

Lenin was the chief executive of his state till his death. But, the post, what he hold was not described in his own constitution to form his state. Therefore, he was not responsible or answerable to anyone of his state. Thereby, he did not hesitate to violate his constitution-1918. Noted, buying of labour power was restricted by any individual by his constitution. But, he has introduced

the NEP (New Economic Policy) to privatize the state property thus, he reintroduced the private property along with selling and buying of labour power by individuals by ignoring his constitution.

The President of the USA is a constitutional post and the president of USA is the chief executive of USA, but the president of USA is under the constitution, thereby he is under impeachment.

Even, the post of Tsar of Russia was elaborated in his constitution 1906 with his power and function.

Therefore, Lenin was more powerful but extreme and absolute dictator than Tsar- a constitutional supreme autocrat of Russia.

16-12-15.

If there is wage slavery, there is exploitation.

If there is selling and buying , there is exploitation.

If there is commodity production , there is exploitation.

If there is capital, there is exploitation.

If there is private property, there is exploitation.

If there is state property, there is exploitation.

If there is right of inheritance, there is exploitation.

If there is class, there is exploitation.

If there is class rule , there is exploitation.

If there is class weapon, there is exploitation.

If there is state , there is exploitation.

If there is politics, there is exploitation.

If there is nationalism, there is exploitation.

If there is ideology , there is exploitation.
If there is mythology, there is exploitation.
If there is sexism, there is exploitation.
If there is colorism , there is exploitation.
If there is discrimination, there is exploitation.
If there is disparity, there is exploitation.
If there is killing, there is exploitation.
If there is torture , there is exploitation.
If there is rape, there is exploitation.
But, a socialist society is free from the exploitation.
So, there is no such things which is responsible or helpful
for exploitation in socialism.

Therefore, there was no socialism in this world.

15-12-15.

He who is not against wage slavery is not against
exploitation.
He who is not against selling and buying is not against
exploitation.
He who is not against commodity production is not
against exploitation.
He who is not against capital is not against exploitation.
He who is not against private property is not against
exploitation.
He who is not against state property is not against
exploitation.
He who is not against right of inheritance is not against
exploitation.

He who is not against state is not against exploitation.

He who is not against ideologies is not against exploitation.

He who is not against mythologies is not against exploitation.

14-12-15.

Capitalism is a world wide system, currently ruled by some global syndicates including IMF- the controller of the world economy, founded by the winners of the 2nd world war including Leninist boss J.Stalin to serve and protect the moribund capitalism.

Therefore, the replacement of capitalism by socialism - a society with social/common ownership of means of production, transportation and communication is not possible in one country alone.

Thereby, socialism is neither local nor national but a global system.

Thus, the communist revolution-the ever biggest event of the world to replace the capitalism by socialism by the working class is not possible in one country alone.

So, a communist party to unite the workers of the world for a communist revolution to replace the capitalism by socialism is neither local nor national but a global party.

13-12-15.

A communist party is a party of working class to unite the workers of the world to fight against against the capitalist class to vanish it by fighting against wage

slavery to vanish it to end the exploitation by vanishing the selling and buying system by vanishing the private property with all rights of inheritance by a communist revolution-the ever biggest global event for the emancipation of the workers of the world by socialism- a scientific society, where there is no discrimination among the human being, thus, there is uninterrupted peace so, all are happy with a lovely and friendly relation in socialism, working to win the nature for the best well fair of the whole human being.

Therefore, there is no communist party.

Thus. a communist party is a historical necessity to do the same.

12-12-15.

CAPITAL is nothing but the fruit of exploitation.

CAPITAL is nothing but the unpaid labor.

CAPITAL is nothing but the unpaid part of a commodity.

CAPITAL is nothing but the dead labor.

CAPITAL is nothing but the product of wage slaves.

CAPITAL is nothing but the surplus-value, produce by wage slaves.

10-12-15.

Private property is nothing but a chain to confined its owner to control the activities of the private property holders for the interest of the private property. Therefore, a private property holder have no freedom to do anything as he like to do or not. Rather, private property holders

are bound to do anything including killing for the interest of the private property by the existing terms and conditions of it. Thus, there were so many wars and there are wars in this world. Thereby, every one of the world is effected by the wars since the private property has originated by the masters to enjoy the parasitic interest by dividing the human being by classes.

Private property is nothing but a strong weapon to separated its owners from others thereby isolation of the private property holders is the fruit of the private property.

Private property is nothing but an illusion for a happy life. But, the hard reality is that if there is private property, there is contest, competition, contradiction, conflict etc nonsense among the human being thereby, there is no one is safe and secure in capitalism- a society based on private property.

But, if there is no private property, there is no chain to confined anyone thus everyone is free to do anything including love and union and that is SOCIALISM- a society with social ownership of means of production, transportation and communication.

Face book suspend.

17-11-15.

(2)

WAR IS NOTHING BUT A PLANNED and ORGANIZED MURDER, RAPE, ARSON, DESTRUCTION etc nonsense to win or regain or protect the political power to oppress and overpowering the others mainly slaves currently wage slaves by exercising the political power by capturing the state power.

Capitalist society, based on private property is a war prone society.

Therefore, if there is capitalism, there is war or war war situation.

But, if there is no capitalist private property, there is no war or war war situation at socialism- a society with common ownership of means of production, transportation and communication along with an association of all by all adults for all to coordinate and communicate the required information and production for all of the world by all able bodied.

Thus, there is no option except socialism win by working class alone to end the war by ending the politics.

(1)

Bolshevik party was never a working class party to unite the workers of the world to fight against the capitalist class to vanish it by fighting against the wage slavery to vanish the wage system by vanishing the private property by a communist revolution-the ever biggest event of the world by the revolutionary working class alone for communism- a society free from exploitation. Rather, the Bolshevik party was for capitalist development at Russia, thus, it was for wage slavery, so, Bolshevik party was not

against exploitation. Undoubtedly, peasants are not only conservative but also reactionary by the description of the manifesto of the communist party by Marx and Engels. But, Bolshevik party was a party of reactionary peasants too. So, Bolshevik party was a reactionary party. Bolshevik party was never against the commodity production to accumulate capital by exploiting the wage slaves thus, Bolshevik party was a capitalist party. Bolshevik Party was for so-called right of self-determination of nations- a policy to divide the workers of the world but unity of workers of the world is the first conditions for the emancipation. Bolshevik party was for a constituent assembly election to introduce a capitalist constitution of Russia. So, Bolshevik party was a party of capitalist interest. Bolshevik party was never a party to unite the workers of the world to vanish the class and class weapons including state by its founding declaration. But, a communist party is a party of working class to vanish the classes and class weapons including state to free the whole human being from the class rule. Noted, Lenin was one of key founders of the Bolshevik party. So, Lenin was never a communist. Thereby, no Leninist is communist or any party originated from the Bolshevik party or any party inherited the Bolshevik party is not a communist party.

If there is state, there is class.

If there is class, there is class interest.

If there is class interest, there is class rule.

If there is class rule, there is violence,brutality, cruelty etc nonsense.

If there is violence, brutality, cruelty etc nonsense, there is killing, rape, arson, destruction etc and etc.

If there is killing, rape, arson, destruction etc & etc, there is riot, terrorism, war etc.

If there is riot, terrorism, war etc, there is want of peace.

If there is want of peace, there is no safety and security.

If there is no safety and security, there is anxiety and tension.

If there is anxiety and tension, there is inferiority,

If there is inferiority, there is enmity.

If there is enmity, there is no friendly and lovely atmosphere.

If there is no friendly and lovely atmosphere, there is unhealthy life.

If there is unhealthy life, there is sorrow and pain.

But, all these are exist because, there is private property.

So, cause of all sorrow and pain or miseries and hardship is nothing but the private property.

But, if there is no private property, there are no such things what mentioned above, rather, there is peace and love for love for a lovely life.

(3)

Capitalism is in moribund condition. Thereby, capitalism has been suffering from so many old-age illness and weakness. Therefore, there is unrest, riot, terrorism, extremism etc nonsense by the failure of the IMF-the mightiest organization of the world to control the world economy by avoiding the recession founded by the winners of the 2nd world war including Leninist boss J.Stalin to serve the capitalist interest globally by hampering and injuring the independent power of the state to decide the economic policies. Sure, there is no scope to solve such dangerous and harmful condition and situation of the moribund capitalism in its structure. Peace! Unthinkable in capitalism, because, capitalism is a society of certainty of uncertainty currently with a so disabled ruling class by their historical limitation. Private property is the cause of all such nonsense events and discrimination among the human being. But, if there is no private property, there is no want of peace rather, there is uninterrupted peace by the disappearance of all oppressive and overpowering machines and instruments including state along with its all elements including arms forces. Sure, working class will vanish the private property for their emancipation by a new society, where there is no discrimination among the human being rather, all are equally dignified and free to do anything including love and union, thus, socialism - a society without wage slavery, private property, selling and buying, exploitation etc nonsense is a lovely and friendly society.

(2)

Play ball but not player is a fair policy.

But, no criminal care any fair policy.

Thereby, criminals play player but not ball, which is punishable.

Sure, Leninist bosses are so expert to play player but not ball to win by any how along with quarreling but not discussing with logical argument on the basis of science of communism-discovered by Marx.

But, communists are for sharing and discussing their findings and views by considering and caring the science of communism but not quarreling with anyone.

A quarrel lover have no need to care any discipline except win.

But, a communist is for scientific discipline thereby a communist is for self-imposed discipline thus, a communist have no scope to quarrel.

A quarrel lover can say any rubbish to win without caring the issue but he is so expert to accuse and attack the person even by insulting and undermining the that person by denying and ignoring his dignity as he is a human being.

But, a communist can not do such nonsense , rather, a communist is always for concentrating his discussion on definite issue by considering and protecting the dignity of human being.

Sure, Leninist bosses are so expert to say any nonsense including agent of CIA to their opponents. Though, both CIA and Leninist bosses has been serving the capitalist interest.

(1)

"Imperialism is, at the same time, the most prostitute and the ultimate form of the state power which nascent middle class society had commenced to elaborate as a means of its own emancipation from feudalism, and which full-grown bourgeois society had finally transformed into a means for the enslavement of labor by capital." K. Marx, Civil War in France.

"Imperialism, the Highest Stage of Capitalism"- V.I. Lenin.

So, not Lenin but Marx is right on Imperialism.

(2)

He who is against wage slavery to vanish it by vanishing the selling and buying system by vanishing the private property by a communist revolution-the ever biggest event of the world by the revolutionary working class alone, is a communist.

He who is working for a communist revolution by the working class alone for communism- a society free from exploitation, thereby, its free from class and class rule

thereby, communism is a society free from discrimination among the human being thus, communist society is a society of equals is a communist.

He who is against capitalism, currently ruled by some global syndicates including IMF- the controller of the world economy to vanish it by grounding the capitalist class by a communist revolution by the working class alone for communism is a communist.

He who is working against the all ideologies including Leninism, originated from the private property to end such ideologies by a communist revolution by the working class alone for communism is a communist.

He who is for science of communism, discovered by Marx by discovering the code of capital and the code of society for change to work to rebuild the communist movement to form a communist party to unite the workers of the world to fight against the capitalist class to vanish it by a communist revolution by the working class alone, for communism- a scientific society to win the nature is a communist in this epoch.

(1)

Capitalism has become old before the manifesto of the communist party has published. Thereby, the disabled capitalist class has taken shelter to the religion -the politics of masters and lords but defeated by the revolutionary capitalist class, to protect the decayed

capitalism. But, after the communist manifesto has become so popular among the workers of the world but the failure of Peri-Commune and the First International, the reactionary capitalist class has introduced Leninism by Lenin and other Leninist bosses to serve the capitalist interest by using the name of communist Marx but undermining Marx as a producer of an ideology as Marxism and by wearing the mask of socialism by founding a state of state capitalism at Russia and other parts of the world to protect the decayed capitalism. But, failed. The, reactionary capitalist class has founded some global syndicates including IMF to control the world economy globally to avoid the recession- the unavoidable disease of capitalism by the existing conditions of capital- (1) Reproduction; And (2) Circulation to protect the moribund capitalism. But, failed, there was recession , in 1980's and there is recession since 2008. Therefore, the reactionary capitalist class has been suffering from the insanity by the huge pressure of huge load of huge stocks thus, the reactionary capitalist class has been taking shelter to the politics of fanaticism and militarism So, there is riot, terrorism, war or war war situation. Sure, only solution of such dangerous and harmful condition of the moribund capitalism is a communist revolution by the working class alone. But, sorry, there is no communist movement since 1896 by betraying by the betrayer leaders of the 2nd International by accepting the politics of so-called right of self determination of nations, which is so useful to divide the workers by nation and country. But, unity of workers of the world is the first condition

for the emancipation. So, a working class party to unite the workers of the world to fight against the capitalist class to vanish it by vanishing the selling and buying system by vanishing the private property by a communist revolution-the ever biggest event of the world for communism- a society free from all such politics including fanaticism and militarism is a historical necessity.

If there is private property, there are so many ideologies. If there are ideologies, there is contest, contradiction, conflict, riot, killing, arson, rape, war etc nonsense among the ideologists.

If there is politics, there are so many politicians .

If there is politicians , there is contest, contradiction, conflict, riot, killing, arson, rape, war etc nonsense.

If there is political party, there is not only oppression and overpowering but also contest, contradiction, conflict, riot, arson, rape, war etc nonsense.

If there is state, there is not only oppression and overpowering but also contest, contradiction, conflict, riot, arson, rape, war etc nonsense.

But, if there is no private property, there is no ideology, no politics, no political party, no state, therefore, there is no contest, no contradiction, no conflict, no riot, no killing, no arson, no rape, no war among the human being.

Rather, there is cooperation and lovely & friendly relation among the human being where there is common ownership of means of production, transportation and communication and that is SOCIALISM.

13-11-15.

Punishment is not the remedy of crime rather retaliation. If there is law, there is crime because, violation of law is crime. If there is judiciary, there is crime and punishment other wise judiciary have no utility. However, judiciary is for protecting the law by confirming the punishment and penalty. But, there is no chance to reduce the crime even by issuing the random death sentence every day even for smoking, if there is private property, law etc. Law, introduced by the masters to serve and protect the interest of the private property holders, therefore, the age of private property, law, crime, judiciary, punishment is same. The age of written law is not more than 3800 years but the age of human being is not less than 200 thousands years; And the age of the private property is not more than 5600 years. Capitalist society is based on private property, thereby, capitalist society is the producer of crime, store of crime, spreader of crime and the patronizer of crime. Eye for eye, nose for nose or life for life was the principle of masters to confirm the punishment as they were divine right holders by their claim. But, some revolutionary capitalists has denied the divine right to practice the secularism -the integral policy of democracy to develop the capitalist society thus, they were against the death sentence and currently more than

100 states are free from the capital punishment. But, China - founded by the Leninist boss Mao and Iran - a state of religious fanatics are the champion to execute the death sentence in the world. Noted, Lenin was for death sentence even without trial. Certainly sure. the historical consequence of capitalism is abolition of private property by the working class by the new society along with common/social ownership of means of production, transportation and communication and that is socialism. Therefore, there is no utility of law in socialism, because, there is not private property thereby, there is no judiciary in communism, thus, socialism is free from the crime. so, the very term ' punishment' is an unknown thing in socialism.

12-11-15.

He who is not against wage slavery to vanish it by the working class is not a communist.

Lenin was never against the wage slavery to vanish it by the working class, rather he was for wage slavery by born program of his party- Bolshevik party.

So, Lenin was never a communist.

He who is not against the production of commodity to vanish it by the working class is not a communist.

As a Leninist boss and next man to Lenin to occupy the state power of Russia Trotsky was never against the production of commodity.

So, Leninist boss Trotsky was never a communist.

He who is not against capital- the unpaid labour to vanish it by the working class is not a communist.

As a Leninist boss and the co-founder of the IMF-the controller of the world economy to serve the capitalist interest globally, J.Stalin was never against the capital. So, Leninist boss J.Stalin was never a communist.

He who is not against the selling and buying system to vanish it by the working class is not a communist.

Leninist boss and the founder of the KIM dynasty by founding the DPRK was never against the selling and buying system.

So, Leninist boss KIM was never a communist.

He who is not against the nationalism to vanish it by the working class is not a communist.

As a Leninist boss and the 'great teacher' of the nations of China Mao was never against nationalism.

So, Mao was never a communist.

He who is not against patriotism to vanish it by the working class is not a communist.

As a Leninist boss and the president of Vietnam 'uncle' Ho-Chi-Min was never against the patriotism.

So. Ho-Chi-Min was never a communist.

He who is not against ideologies including Leninism to vanish these nonsense by the working class is not a communist.

As a Leninist boss A. Hoxa was never against the ideologies including Leninism.

So, A. Hoxa was never a communist.

He who is not against the creeds to vanish such things by the working class is not a communist.

As a Leninist boss Fidel -the founder of the CUBA, as a state of state capitalism, was for the religious constitution of CUBA-1940.

So, Fidel is not a communist.

He who is not against all weapons of classes including state to vanish all such oppressive things by the working class is not a communist.

As a Leninist boss Pol pot was not only for state but also was a infamous killer.

So, Pol pot was never a communist.

In details: No Leninist Party is Communist Party, a book, published by the ICWF, @ www.icwfreedom.org .

There is no difference between a disciple of King Ram of India and a disciple of dictator Lenin of Russia in practice to lead their lives by following the teaching of their respected masters.

Both are habitual to celebrate the marking days of their masters including birth and death for their success.

Both are agreed that they have need master to live.

Both are agreed that their respected masters are extraordinary thereby as disciples both are ordinary.

But, there is no room for any extra-ordinary at communism.

Because, all are equally dignified in communism thus, a communist society is a society of equal.

Therefore, no disciple of any extra-ordinary is communist.

Noted, all are from 23 pair of Chromosomes thus, every one is equal by born condition by the same number of Chromosomes but there is discrimination among the human being because, there is private property- the cause of all disparity and evils.

09-11-15.

He who is not against wage slavery to vanish it by the working class but claiming as a socialist is nothing but a fraud or stupid.

He who is not against commodity production to vanish it by a communist revolution by the revolutionary working class but claiming socialist is nothing but a cheat or stupid.

He who is not against capital to disappear it by the united forceful action of the workers of the world but claiming socialist is nothing but a servant of capitalist interest or stupid.

He who is not against the selling and buying system to abolish it by the working class but claiming socialist is nothing but a criminal or stupid.

He who is not against the private property to vanish it by the working class but claiming socialist is nothing but a liar or stupid.

He who is not against exploitation to vanish it by the working class but claiming socialist is nothing but a tout or stupid.

He who is not against the discrimination among the human being but claiming socialist is nothing but a foul or stupid.

He who is not against class rule to vanish it by the working class but claiming socialist is nothing but a criminal or stupid.

He who is not against class weapons including state, political party etc to vanish all these by the working class but claiming socialist is nothing but a fraud or stupid.

He who is not against nationalism, ethnicity, creeds etc to vanish all nonsense but claiming socialist is nothing but a cheat or stupid.

He who is not against all ideologies including Leninism to vanish all such rubbishes by the working class but claiming socialist is nothing but a fraud or stupid.

7TH NOVEMBER IS A HISTORICAL BLACK DAY.

7th November is a historical black day for the working class.

Lenin, Trotsky, Stalin & company but leaders of the so reactionary party-the Bolshevik party has grabbed the state power of Russia by a planed military coup, by killing 2 guards and arresting 25 guards and founded a state of state capitalism by the constitution of it, 1918.

But, Lenin has claimed that he had found a socialist state at Russia, which is totally false and lie but a planed and

well organized but ill motivated political propaganda to confuse the working class even about capitalism to serve the capitalist interest.

Noted, socialism-the replacement of capitalism is not possible in one country alone because, capitalism is a global system currently ruled by some global syndicates including IMF- the controller of the world economy to serve the capitalist interest globally, founded by the winners of the 2nd world war including Leninist boss J.Stalin.

Sure, the outcome of contradiction of sellers and buyers of the world is socialism- a society free from, selling and buying, wage, wage slavery, exploitation, commodity, capital, class and class rule etc nonsense. But, all such mentioned things were exist at USSR even the rate of exploitation at USSR was much higher than USA- a leading capitalist country of the world.

Certainly sure, the culmination of contradiction of sellers and buyers of labour power of the world is communist revolution.

So, communist revolution is the job of only working class.

Therefore, the unity of workers of the world is the first condition for the emancipation, and "untied action of the leading civilized countries at least is one of the first conditions for the emancipation of the proletariat." -The Manifesto of the communist party.

But, the Bolshevik party was never a working class party to unite the workers of the world to fight against the capitalist class by fighting against the wage slavery to

vanish it by disappearing the capitalist class by abolishing the selling and buying system by abolishing the private property-the cause of all evils by a communist revolution -the ever biggest event of the world for communism- a classless and thereby stateless society but with an association of all for all and by all. Rather, the Bolshevik party was a party for capitalist development at Russia by a democratic state and it was for so-called right of self-determination of nations- the so useful policy to divide the workers of the world by nation and country by denying and ignoring the working class identity and interest of working class.

But, workers have no nation and country but they have a world to by losing their chain by defeating the capitalist class.

Bolshevik party was a party of peasants too. But, the manifesto of the communist party so rightly has described that the peasants is not only conservative but also reactionary.

No doubt, all stories about socialism at USSR and the so-called November socialist revolution are nothing but the fabricated and intentional political propaganda to confuse and divide the workers of the world to serve the capitalist interest thus, such stories are not only lie but also myth.

05-11-15.

Politics is the supreme policy of all nonsense by born condition of it. In fact, politics is nothing but an organized power to oppress and overpowering the others including wage slaves.

Therefore, if there is politics, there is disparity and discrimination among the human being.

Sure, there was no politics before, 5,600 years ago, therefore, there was no disparity and discrimination among the human being before politics though the age of human being is not less than 200 thousands years.

Noted, Egypt is the place where the founder of the Faroah Dynasty has introduce the politics by founding his kingdom to rule, oppress and overpowering the slaves and others to protect the interest of private property holders by exploiting the wage slaves. The age of exploitation, class and class division, class rule, discrimination, politics etc is same.

Modern state and political party has introduced by the revolutionary capitalist class to rule, oppress and overpowering the wage slaves and others to serve and protect the capitalist interest by exploiting the wage slaves. Capitalist society is also based on private property.

No doubt, working class will vanish the capitalism along with capitalist class with its all weapons including state, political party etc for their emancipation.

So, the end of politics is the condition for a discrimination free society, where there is no private property- the cause of all nonsense including killing, thereby, there is no exploitation, no killing, no rape, no

torture etc nonsense thus, there is no class and class instruments to serve the class interest so, every one is equally equal in socialism, that is socialism is a society of equals.

A seller of a commodity have no choice except selling his commodity, thereby, a seller of a commodity have no need to look the nationality, religion, color, sex etc of a buyer of his commodity. A wage slave- the product of the capitalist class have a commodity to sale and that is his labour power to produce commodity to accumulate capital for the capitalists. Therefore, a wage slave have no identity except a wage slave. Thus, no worker have need any identity by nationality, or religion, or color or sex rather such identity of a wage slave is the cause of division among the wage slaves of the world which is so harmful and dangerous for the working class. But, Lenin was for national identity of a worker by practicing the politics of so-called national liberation. Certainly sure, working class will conquer their world - a world free from identity of any one by nationality or religion, or color or sex rather there is a single human being along with full sense of humanity by defeating the capitalist class by a communist revolution.

(1)

Capitalism will vanish by the existing conditions of capital by the revolutionary working class.

But, the capitalist class has been trying to protect the decaying capitalism by using so many ideologies including Leninism to divide the workers of the world and by founding so many authorities including IMF-the controller of the world economy to avoid the recession that is the revolt of scientific instruments against the capitalist relation.

But, failed by the failure of the Leninism and IMF.

Because, Leninism-the politics of national liberation and state capitalism has failed by the self-term of state capitalism and the politics of globalization by the winners of 2nd world war including Leninist boss Stalin; And IMF failed to avoid the recession by the existing conditions of capital: (1) Reproduction; And (2) Circulation.

Noted, the result of reproduction is conquered the whole world by the revolutionary capitalist class to develop a global capitalist society by practicing the colonial policy; And after then the effect of reproduction is over production, and the outcome of the over production is stock that is recession-anarchy of capitalist economy and thereby the cause of labour unrest, political unrest, bankruptcy and so many .

Recession is the cause of reducing the private ownership, and the historical consequence of repeated recession is socialization of means of production, transportation and communication and that is socialism- a society free from capital.

03-11-15.

The reactionary capitalist class has taken shelter to the religion-the politics of masters and lords thereby the capitalist class has been nourishing not only simple religion but also fanaticism. Thus, not only religious schools but the most modern engineering universities has been producing fanatic forces in this epoch. Therefore, the working class is not out of the such condition of the capitalist society. Thus, working class is under the grip and influence of the politics of masters and lords too. There are some people has been claiming that they are against religion but they are not against wage slavery to vanish it by the working class for a scientific society-socialism by abolishing the selling and buying system by vanishing the private property. Because, they are lover of private property, and no doubt fanatic or religious forces are not against the private property rather, they are lover of private property. So, both the mentioned parties are lover of private property. Sure, private property is the cause of contest, competition, conflict, war, killing, rape, etc nonsense. Therefore, there were 2 world wars has killed not less than 70 millions people, but all were not wage slaves rather there were so many private property holders and lover of private property. However, socialism is free from not only war but also free from any kind of violence including killing, rape, torture etc. No doubt, the historical consequence of capitalism is socialism by the

working class by the existing conditions of capital. We (ICWF) are working to help and cooperate to rebuild the communist movement to form a communist party, a party of working class to unite the workers of the world to fight against the capitalist class to vanish it by a communist revolution. So, we ([ICWF-www.icwfreedom.org](http://www.icwfreedom.org)) are working against capitalism- a society of certainty of uncertainty. Science, science and science for freedom is the main slogan of ICWF. Noted, the code of creation, transformation or change of anything is science. Again, he who is not against the private property is not scientist, though there are some claimed scientists but they are scientist by profession or by claim but not in real life. However, know science, understand science, care science and practice science is the practicing line of the ICWF.

02-11-15.

Capitalist class has played a progressive role to develop the capitalist society by defeating the self-dependent but so poor economy along with its beneficiaries including rulers with the politics of defeated rulers - the religion by practicing the secular politics the integral part of democracy. But, the capitalist society has become old before the manifesto of the communist party has published, 1848, by the repeated recession by the existing conditions of capital. Capitalist class has tried to protect the decayed capitalism by taking shelter to the religion-the politics of masters and lords and by practicing the

Leninism- the corruption of science of communism, discovered by Marx. But, failed. Capitalist class has founded some global syndicates including IMF-the controller of the world to protect the moribund capitalism by avoiding the recession. But, failed. Recession is on going and its an unavoidable and non-curable disease of capitalism. Therefore, the capitalist class of this epoch is so reactionary. Thereby, the reactionary capitalist class has been suffering form the insanity by the huge pressure of recession by the huge load of stock by the effect of over production by the existing conditions of capital: (1) Reproduction; And (2) Circulation. Thus, militarization of politics by the so reactionary capitalist class is due. So, capitalist class of this epoch have nothing to do except violence including war.

01-11-15.

(3)

Any policy which is effective to divide the workers of the world is so helpful for the capitalist interest.

Because, unity of workers of the world is the first condition for the emancipation.

Certainly sure, the so-called right of self-determination is so useful to divide the workers of the world by nation and country. Its also so useful policy to ignore and deny the class identity and class interest of working class as working class.

But, such dangerous policy was the policy of Bolshevik party, founded by Lenin and others. This policy was adopted by the betrayer leaders of the 2nd International, at its London congress-1896. And interestingly its the agenda of UN.

So, Lenin was a dangerous enemy of working class by practicing the such dangerous policy to divide the workers of the world.

(2)

Justice system has introduced by masters -the rulers of slavery society to protect their parasitic interest by penalize and punishment to the violators of their rule. Rule man by man is not only unfair but also against the dignity of human being.

Therefore, rulers of the slavery society - the masters were not only for unfairness but also against the dignity of human being. Thus, they were not only unfair but also unjust. So, masters were in fact criminal. Because, they were exploiter.

Therefore, not for remedy of crime but justice is for retaliation.

Moreover, capitalist class as a whole is criminal because, capitalists are exploiter though exploitation is legal by law of capitalist class.

Thereby, capitalist society- based on private property is the producer of crime, source of crime, store of crime, and spreader of crime therefore, there is law.

Noted, crime is nothing but the violation of law-introduced by the exploiters. But, if there is no exploiter there is no crime, because, there is no law to serve and protect the parasitic interest of the exploiters- the private property holders.

Noted, the age of the written law is not more than 3700 years.

(1)

Cause of all violence including war, killing, rape etc is private property and all such nonsense has introduced by the private property holders. Capitalist society is based on private property, thus capitalism is not free from violence. He who is not against the private property to replace it by the common property of all of the world by the working class is not against violence. He who is not against wage slavery to vanish it by the wage slaves is not scientist, though there are so many claimed scientists those are in fact professionals or technicians.

31-10-15.

(2) CPI(M) is for secular and democratic alternate by rejecting the National Congress and defeating the BJP but under a undemocratic and non-secular constitution of India. How funny!

However, a communist party is for communism by uniting the workers of the world to fight against the capitalist class by fighting wage slavery to vanish wage system by vanishing the selling and buying system by grounding the capitalist class by disappearing the private

property- the cause all hardship and miseries of the working class by a communist revolution-the ever biggest event of the world by the revolutionary working class alone.

So, CPI(M) is not a communist party.

Therefore, CPI(M) has manufactured a fake manifesto of the communist party to justify its Leninist misdeeds to confuse the workers to serve the capitalist interest

(1)

Marx has discovered the science of communism by discovering the code of capital and the code of society for change. Marx has discovered that the existing conditions of capital are : (1) Reproduction; And (2) Circulation. But, the effect of reproduction in capitalist world is over production, and the result of over production is stock that is the disturbance of circulation. Stock means recession, and the outcome of recession is lose of jobs, increased the rate unemployment, lanour unrest, political unrest, lose of private property of some capitalist, and war and so many. But, capitalists has bound to come on an understanding to control the whole production by various way including merger the companies by contact to avoid the recession. Here is the end of development of private ownership and starting point to open up the collective ownership by the recession. On the other hand Marx and Engels both has formulated that the capitalist class can not exist without

revolutionizing the scientific instruments. But, the outcome of such revolutionizing of scientific instruments is increasing the productivity of workers, therefore, the effect of such increasing the productivity is over production that is recession. Thereby, the recession is unavoidable and non- curable disease of capitalism, which is the cause of disturbance of circulation. But, what is the place of recession in this capitalist world? Undoubtedly, leading countries of the world currently G-7. Because, capital has been concentrating in these countries. Cause of 2 world wars is recession. Therefore, Marx and Engels, both has formulated the historical things as is : " United action of the leading civilized countries at least is one of the first conditions for the emancipation of the proletariat. " -The Manifesto of the communist party. And thereby, unity of workers of the world is the first condition for the emancipation, formulated by Marx and Engels. Undoubtedly, both formulas are not only right also valid and effective. Furthermore, socialism -the replacement of capitalism is a global society, currently ruled by the IMF and others global syndicates thus, the replacement of capitalism is not possible in one country alone. Moreover, win the communist society by a communist revolution is the job of working class alone. But, what did Lenin? Just making miss-interpretation not only about socialism but also, capitalism, capital, wage slavery, exploitation, communist revolution, role of revolutionary working class and reactionary peasants etc and etc to serve the capitalist interest by confusing the workers by such ill

motivated political propaganda and divide the workers of the world by nation and country. Even, his party was not a working class party, rather the Bolshevik party was a most reactionary party with the reactionary peasants. So, Lenin was not only liar but also a fraud and betrayer. Noted, the historical consequence of repeated recession is SOCIALISM.

28-10-15.

Not myth, but the earth is a real thing.

But, yet the myths, manufactured by the masters and lords to serve their parasitic interest by such false but politically motivated stories about the earth are exist.

Not myth, but the earthly lives are real things.

But, yet the myths about the origin of lives are exist.

Not myth, but the capital- produce by the wage slaves is a real thing. And Marx has already discovered the secrecy of capital-the unpaid labour.

But, yet the myths about capital and capitalist are exist.

Because, there is a exploitative capitalist society is exist.

Even, there is no working class party- based on science of communism, to unite the workers of the world to fight against the capitalist class along with all nonsense myths, ideologies, etc for a scientific society- SOCIALISM.

27-10-15.

Capitalism is neither local nor national but a global system, currently ruled by some global syndicates including IMF-the controller of the world economy, founded by the winners of the 2nd world war, by ending the colonial policy.

Thereby, states are defunct under the rule of the global syndicates including IMF-the mightiest organization of the world.

So, the replacement of capitalism by the working class by socialism is not possible in one country alone.

Thereby, Lenin was a liar and cheater by claiming that he has founded a socialist country by replacing the capitalism at Russia to create confusion among the working class about not only socialism but also capitalism, communist revolution, the historical role of working class to replace the capitalism, communist party etc : And his such lie was so useful to dive the workers of the world by nation and country to serve the capitalist interest to protect the decayed capitalism. But, unity of workers of the world is the first condition for the emancipation of the workers.

26-10-15.

Communist revolution is the job of working class alone , but imposed by the capitalist class by the existing conditions of capital.

In fact, the culmination of contradiction of sellers and buyers of labour power of the world is communist revolution.

Therefore, communist revolution is not the job of so-called mass or some heroes by their good wish to provide food, cloth, shelters etc primary needs. Sure, communist society is a scientific society thereby so-many every day necessities those are important in capitalist society including diet from agriculture will reduce.

Communism is the historical consequence of capitalism thus, its not the effect of desire of some good people to provide food, cloth, shelter etc everyday necessities. Sure, history made by man but not wishfully or intentionally rather, history have a code to follow and care by the maker of history.

Not Lenin but Marx has discovered the science of capitalism by discovering the code of capital and the code of society for change.

Therefore, no one can work for communism without considering and accepting the science of communism or he who consider Lenin -the founder of a state of state capitalism as communist.

He who think, that there was a socialist revolution at Russia or China and the so-called cultural revolution of China was a ' great' event is not at all communist. Because, win the socialism -the replacement of capitalism is the job of working class alone and its not possible in one country alone. Moreover, socialism is a society free from exploitation, thereby its free from selling and buying, therefore, there is no wage slavery to produce commodity to accumulate capital thus, there is no commodity and capital in socialism, therefore, there is

no class and class interest in socialism thus, its a free society from politics, political party, state etc class weapons, thereby there is no discrimination among the human being, thus, every one is equally treated and every one have liberty and freedom to do anything including love and union in socialism so, there is uninterrupted peace in SOCIALISM.

25-101-5.

Its so important to raise the question about all authorities to know there activities, what they did and do exactly for a scientist or to be a scientist.

Its so important to raise the question about all things to know the exact condition and action of these things for a scientist or to be a scientist.

Its so important to raise the question about capital, commodity, labour and wage labour, value and surplus-value etc all those are still so important to live, to know exactly what these are for a scientist or to be a scientist.

Its so important to raise the question about the past of human being to know the facts to determine the future course of action for the betterment by rejecting the manufactured stories of past by the ruling class as history for a scientist or to be a scientist.

A communist is a scientist.

So, a communist is not free from raising the question about all authorities including Lenin, Trotsky, Stalin. Mao. Ho-Chi, etc claimed and known socialist but Leninist boss to know their brutality and nonsense action against the working class to rebuild the communist

movement to form a communist party to unite the workers of the world to fight against the capitalist class to grounded it for the emancipation by ending the exploitation by vanishing the selling and buying system by disappearing the private property by a communist revolution-the ever biggest event of the world by the working class alone.

24-10-15.

No one is out of class in this class divided society. Thereby, no one is out of class interest. Therefore, the term people or people's interest is nothing but a big lie. But, capitalist class is so interested to use such words to gain and protect the capitalist interest by hiding the fact. People is nothing but an artificial unity of all classes by denying the class division. In fact, people's interest means the interest of ruling capitalist class. No worker can agree the people's interest without losing his own interest. Not the so-called people is power but only the working class is power because, workers are the produce of value, therefore, surplus-value, that is capital.

23-10-15.

Everyday life of any one has been determining by the existing conditions of the society.

But, the parasitic section of the different societies, mainly slavery and feudal society has created so many unseen but imaginary bosses to determine the every day life of every one by manufacturing and spreading some false but intentional, ill motivated and fabricated stories to confuse

slaves. about every day lives, including financial condition, political power, born and death etc & etc to serve and protect their heinous parasitic that is exploitative interest.

Capitalist class as a whole is exploiter.

Thus, the capitalist class have been nourishing such false and foul concepts, ideas etc to hide the fact of capital- the unpaid labour.

Therefore, wage slaves - the producer of all values, thereby surplus-value, that is capital are still neglected but the parasitic people- the exploiters are still enjoying honor and respect.

Its not only unfair and unjust but also tragic and pathetic.

Sure, such nonsense condition of the society is contradictory.

Therefore, the existing unfair condition of the capitalist society will change by the consequence of its own contradiction.

Thereby, all such false and lies about life will vanish along with parasitic section- the exploiters of the society.

Thus, no artificial boss will exist in a scientific society- socialism, win by the wage slaves alone.

So, every one will be equally honored and dignified in the new but so lovely society- SOCIALISM.

22-10-15.

(3)

Not gender but labour has produce value, therefore surplus-value that is capital- the unpaid labour.

Not nation but labour has produce value, therefore surplus-value that is capital- the unpaid labour.

Not religion but labour has produce value, therefore surplus-value that is capital- the unpaid labour.

Not creed but labour has produce value, therefore surplus-value that is capital- the unpaid labour.

Not ideology but labour has produce value, therefore surplus-value that is capital- the unpaid labour.

Therefore, wage slaves - the sellers of labour power to produce commodity to accumulate capital for the capitalist class, are exploited and the capitalist class as a whole is exploiter.

Thereby, the end of exploitation by ending the buying the labour power by ending the buying and selling system by ending the private property- the cause of exploitation and all nonsense including killing, rape, etc is the condition for the emancipation of all of the world.

But, Leninist parties are for national liberation, women freedom etc to divide the workers of the world by nation, gender etc to serve the capitalist interest.

(2)

Identity of a worker- who sale his labour power to produce commodity to accumulate capital for the capitalist class -currently disabled to rule the moribund capitalist society- a global society, is worker.

Therefore, workers have no nation and country but they have a world to win by losing their chain by defeating the exploiter capitalist class.

Thus, workers have no any responsibility to do any thing for the so-called national interest except responsibility to work for their emancipation by vanishing the capitalist system.

But, Lenin was for so-called national interest by practicing the politics of so-called right of self-determination of nations.

Therefore, Leninist parties has been working to develop the so-called national economy by occupying the state power to accumulate capital by exploiting the workers. Thus, Leninist parties are not only for exploitation but also divide the workers of the world by nation and country.

But, unity of workers of the world is the first condition for the emancipation.

So, Leninist parties are working against the working class to serve the capitalist interest to protect the moribund capitalism.

(1)

Known communists are Leninist, But, Lenin was never a communist to unite the workers of the world to fight against the capitalist class to vanish it by a communist revolution - the ever biggest event of the world for communism- a exploitation free society. Rather, Lenin

has founded a state of state capitalism, where the rate of exploitation was much higher than USA to serve the capitalist interest to protect decayed capitalism. But, he claimed that he was a communist and he had found a socialist state which is totally false but intentional and ill motivated political propaganda. So, Lenin was not only a liar but also cheater. Thereby, Leninist bosses can do anything even about celebrating the religious festivals by marking these events as social festival but intentionally to serve the capitalist interest by confusing the wage slaves.

21-10-15.

Worship to any one is nothing but a tradition, introduced by the masters and lords to serve their parasitic interest by creating the false concept about the earth and earthly life to live by the kind grace of the said masters and lords or ready to suffer the miseries by denying their political power as they are divine right holders.

But, sorry, sufferings and miseries of working class is nothing but creating by the capitalist class- the exploiter of workers and miseries of capitalists are nothing but the creation of so waste capitalist society - a society of certainty of uncertainty.

Therefore, no one is safe and secure in capitalism.

But, all sufferings and miseries of all of the world will be vanish if the capitalist system will vanish.

Sure, working class will vanish the moribund capitalism by the existing conditions of capital.

Such conclusion about the capitalism is science of communism, discovered by Marx.

So, not worship but practicing the science of communism is only the option for the emancipation.

20-10-15.

Peasants are against industrialization, to protect their existence as a fraction of middle class from extinction by the industrial development.

Thus, they are trying to role back the wheel of history by creating obstacle in various way for hindering the industrial growth.

So, peasants are not only conservative but also reactionary.

But, claimed socialist Lenin was with peasants by founding program of the Bolshevik Party.

Therefore, Lenin and his Bolshevik party were not only conservative but also reactionary.

Thereby, Leninist parties are not only conservative but also reactionary.

But, socialists are revolutionary thus, they are against capitalism to vanish it for the free development of the society by a socialist society- a society with social ownership of means of production, transportation and communication.

19-10-15.

He who is a buyer of labour power to produce commodity is a capitalist.

May be a buyer of labour power is an individual person, or collective persons by a company or state that does not mater, but a buyer of labour power to produce commodity is not only capitalist but also exploiter.

He who is beneficiary from the selling and buying of labour power to produce commodity is a capitalist exploiter.

He who is for selling and buying of labour power to produce commodity is a capitalist.

Lenin was a buyer of labour power to produce commodity as he was the chief executive of his state - a state of state capitalism, where the rate of exploitation was much higher than USA.

Lenin as a chief executive of his state was a beneficiary from the buying of labour power to produce commodity to accumulate capital thereby Lenin was not only a capitalist but also a gang leader of capitalist exploiters of his state what he founded by a military coup to serve the capitalist interest to protect the decayed capitalism. Lenin was for selling and buying of labour power to produce commodity to accumulate capital thereby Lenin was a capitalist.

18-10-15.

Its so important to know science, to understand science, to care science, to practice science to work scientifically to unite the workers of the world to win their world to

win the nature by a scientific society - socialism, to lead a scientific life thereby a best life by all of the world.

Noted, science is nothing but a code of nature, or science is a code of creation of anything or transformation of anything.

16-10-15.

Communist movement is absent since 1896 by taking the decision by the 2nd International to implement the policy for so-called right of self-determination of nations, which is so effective to divide the workers of the world by nation and country by ignoring the class identity of working class and by denying the interest of working class.

Though, workers have no nation and country but they have a world to win by losing their chain by defeating the capitalist class by a communist revolution by the working class alone for communism- a society free from all existing identities of human being as capitalist, wage slaves, English, American, Indian, Hindu, Christian, black, white, male, female etc & etc thereby there is only one and single identity of whole human being is as human being with full sense of humanity. Therefore, such political line - right of self-determination of nations is so helpful for the capitalist class and currently the UN is working for the same political line. Lenin was for the same politics of the so-called right of self-determination of nations - the founding programme of the Bolshevik party and Leninist parties has been practicing the same line inherited from the Bolshevik

party.

Moreover, Lenin, Trotsky and their company has founded a state of state capitalism at Russia where the rate of exploitation was much higher than USA, and state capitalism is capitalism.

Therefore, there was no socialism at Russia, or China, or Vietnam or DPRK or CUBA or East Germany or Poland , or Romania, or Albania thus there was no socialism in this world.

So, all literature including novels, poems, dramas, films etc on the basis of right of self-determination of nations are nothing but so helpful to create confusion about socialism, capitalism by spreading false inter petitions about the role of working class-the only communist revolutionary class to help capitalist interest.

14-10-15.

Secularism is not only the product of capitalism but an integral part of capitalist democracy to develop the capitalist society. But, the reactionary capitalist class has taken shelter to the religion -the politics of masters and lords to protect the old capitalist society by confusing the wage slaves about the capital- the unpaid labour and to try to hide the fact of capitalist exploitation. Because, working class-the product of capitalist class is the grave digger of the capitalist class for their emancipation by vanishing the capital by vanishing the private property along with it all nonsense including ideology, politics,

political party, state, global syndicates including IMF, UN etc.

Sure, France revolution (1789) has introduced the secularism as policy of state by defeating the religion but the revolutionary government of the France has promulgated the law against any such assembly, procession etc of workers of France to protect the capitalist exploitative interest by betraying the commitment of the revolution about equality, unity etc. In fact, capitalists are not only exploiter but also liar, cheater, betrayer etc and all nonsense.

Noted, the capitalist society has become old before the manifesto of the communist party had public by the effect of recession by the effect of over production by the one of the 2 existing conditions of capital- reproduction and currently in moribund condition by the failure of the IMF to overcome or avoid the recession by the effect of same condition. Therefore, the reactionary capitalist class has been nourishing the religion along with fanaticism to confuse and divide the workers of the world by religion to back the wheel of the history for its sectarian interest. In fact, capitalists of the current world are staying in the hole of the past by practicing such defeated politics of past.

13-10-15.

State is nothing but a strongest class weapons to rule and oppress by the ruling class, originated from the private property by the masters to protect their parasitic interest,

currently defunct under the rule of the IMF- the controller of the world economy.

Cost and expenditure of a state is nothing but a part of surplus-value, produce by the wage slaves in capitalism.

But, if there is no class, there is no utility of state to rule.

Certainly sure, socialism- the historical consequence of capitalism is a exploitation free society, thereby there is no parasitic people, thus, there is no class among the human being.

So, socialism is free from all types of class weapons including state, political party, etc.

12-10-15.

(2) Buyer of labour power to produce commodity is exploiter.

Beneficiaries from the selling and buying system of labour power are also exploiters.

Sellers of labour power to produce commodity are exploited.

- (1)Ownership of means of production, transportation and communication by society is socialism. Ownership of these things by commune is communism. Therefore, there is no China wall between socialism and communism. However, there is some difference between socialism

originated from the capitalism and socialism developed from the socialism but not in principle

11-10-15.

Human being is one but, its divided by class, by race, by nation, by religion, by sex and many more.

Therefore, there is discrimination among the human.

Thus, there is a hateful atmosphere which is dangerously unhealthy to live. Even, killing, rape, arson, destruction etc are the regular events of the world.

But, who is responsible for such nonsense? Parasitic section of the human being.

What is the reason for such nonsense? Private property.

How many years its exist? Not more than 5,600 years.

But, the age of human being is not less than 200 thousands years.

Sure, there was no private property and parasitic people before 5,600 years ago,

Thus, there was no discrimination among the human being when there was no private property.

Present capitalist society is based on private property, but no one can produce capital privately or personally. Because, capital is a product of wage slaves and collectively.

Therefore, private ownership of capital is not only unfair and unjustified but also contradictory though its legal by the law of capitalists -the parasitic section of capitalist society.

Undoubtedly, the effect of such contradiction of capitalist society is socialization of means of production, transportation and communication and that is socialism- a society free from parasitic people, thus, its free from exploitation, thereby, its free from the discrimination and therefore, its free from killing, rape, hate, revenge etc all nonsense thus, its lovely society with a single human being with full sense of humanity so, its a society with uninterrupted peace.

10-10-15.

(2)He who read at Least the Manifesto of the Communist Party, along with introductions, can not say that Marx was for a national society.

He who read the rules of the Communist League, can not say that Marx was for a national society.

He who read the rules of the first international can not say that Marx was for a national society.

He who read the Das Capital by Marx can not say that Marx was for a national society.

He who read - Socialism: Utopian and Scientific, by Engels can not say that Marx was for a national society.

He who read - The Principles of Communism by Engels can not say that Marx for a national society.

(1)

LENIN:

It is known fact that Lenin was the chief executive of his state till his death. But, his post was not mentioned at his own constitution-1918.

Therefore, he was above all.

Noted, the post of Tsar was written in his constitution-1906.

Lenin did not care his own constitution to introduce the New Economic Policy by violating the constitution-1918.

There was judicial ministry along with minister in his state but there was no supreme court till his death.

Arms forces were highest beneficiaries in his state.

His state security force did anything including killing without trial.

Wage slaves were not only low paid or unpaid thereby dangerously exploited but also neglected and oppressed. .

09-10-15.

Che was never a communist revolutionary to unite the workers of the world to fight against the capitalist class to vanish it by a communist revolution-the ever biggest global event by the revolutionary working class alone for communism- a society free from the exploitation.

Rather, he was a co-founder of a state of state capitalism where the rate of exploitation is much higher than USA.

As a minister of CUBA he has chained free man by the chain of land to chained them by the private property.

But, the abolition of private property is communism. Che was for the interest of peasants but peasants are not only conservative but also reactionary by the description of the manifesto of the communist party by Marx and Engels.

08-10-15.

State has originated from the private property to protect the interest of private property holders as their strongest and powerful class instrument and weapon to oppress and overpowering the slaves.

Capitalist class has inherited the state to oppress and overpowering the wage slaves to accumulate capital by exploiting the wage slaves by producing commodity by paying wage.

Noted, capitalist society is also based on private property. However, if there is no private property, there is no utility of state.

Record shows that the age of both the private property and state are not more than 5,600 years but the age of human being is not less than 200 thousands years.

Sure, working class will vanish both the private property and state for their emancipation by its united action.

07-10-15.

If there is state, there is a ruling class.

If there is a ruling class, there are some bosses to rule.

If there are some bosses to rule, there is oppression.
If there is oppression, there is exploitation.
If there is exploitation, there is exploiter.
If there is exploiter, there is exploited.
If there is exploited, there is miseries.
If there is miseries, there is discrimination among the human being.
If there is discrimination, there is private property..
If there there is private property. there is conflict.
If there is conflict , there is arms force to win.
If there is arms force , there is want of peace.
If there is want of peace, there is war.
Sure, exploitative capitalist society is based on private property.
Therefore, capitalist society is a war prone society.
Was the USSR of Lenin a state? Sure.
Therefore, there were all mentioned nonsense at USSR.
Thus, USSR was not out of capitalist mode of production.
So, USSR was never a socialist rather a state of state capitalist.

05-10-15.

Is it number one developed or under develop country that does not matter to the working class.
Because, the whole world is under the capitalist system, currently ruled by some global syndicates including IMF- the controller of the world economy to serve the capitalist

interest globally; And as a seller of labour power -the wage slaves are exploited in every where of the world. Sure, workers have no option except abolition of the capitalist system for their emancipation from the exploitation.

So, number one concern of the working class is fight against the capitalist class by fighting against wage slavery to dump the capitalist system by ending the selling and buying system by vanishing the private property -the cause of all evils including exploitation, killing, rape etc nonsense for their emancipation without considering the condition of a country where they sale their labour power to produce commodity to accumulate capital- the unpaid labour.

But, there is no working class party to do the same, therefore, miseries and sufferings of wage slaves has been increasing.

So, a working class party is a historical necessity to unite the workers of the world to vanish the capitalist system.

04-10-15.

(2)

He who sale his labour power to produce a commodity is worker or wage slave. Workers are poor, but all poor are not wage slave. Workers are the producer of value, therefore surplus-value, that is capital- the unpaid labour. Therefore, as a buyer of labour capitalists are exploiter and wage slaves are exploited. He who have means of production and of exchange is capitalist. Thus, there is

contradiction among the sellers and buyers of labour power. So, the outcome of contradiction of sellers and buyers of labour power is the socialization of means of production, transportation and communication and that is socialism, where there is no selling and buying, thus, there is no commodity, thereby, there is no capital, therefore, there is no exploitation, thus, there is no class and class rule, so there is no state, and all other class weapons including political party, but there is an association of all by the all for the all.

(1)

Unity of workers of the world is the first condition for the emancipation of the workers.

But, there is no party to implement this condition by uniting the workers of the world to fight against the capitalist class to grounded the capitalist system by a communist revolution -the ever biggest global event.

Though, the miseries and sufferings of working class by the capitalist class and capitalist system is intolerable.

Sure, no one of the world is safe and secure, because capitalist society is a society of certainly of uncertainty.

Moreover, no one of the world is free from the life threatening by the current moribund condition of the so waste capitalism.

So, there is no option except grounding the such nonsense capitalist system to live a normal but peaceful life with best hope for the best and prosperity.

Therefore, a working class party to unite the workers of the world to fight and vanish the capitalist system by a communist revolution is a historical necessity.

03-10-15.

Political borders of the world is not only meaningless but also so dangerous for the development of human being as a whole with full sense of humanity. Political borders are so effective not only divide but also so useful to create a hateful atmosphere among the human being.

There was no political border before 5600 years ago, currently states are defunct under the rule of the IMF-the controller of the world economy to serve the capitalist interest globally.

The age of private property, politics and political border is same.

Therefore, if there is no private property, there is no utility of politics and political border.

So, there is no option except abolition of private property to free the whole human being from the all nonsense from which they are suffering.

02-10-15.

Capitalist bosses are still able to divide the workers by nation, race, religion, ideology, sex etc nonsense to avoid the united action of the workers of the world to defend and protect the existence of capitalists as capital.

Lenin was one of them.

Leninist bosses are not free from committing the such crime against the working class.

But, unity of workers of the world is the first condition for the emancipation of the working class as a whole.

So, there is no option except denial and neglect all concern bosses including Lenin to unite the workers of the world to fight against the capitalist class to vanish it for the emancipation.

01-10-15.

Capitalist society is a society of numerous commodities on the basis of the private property. Production of commodity is essential to accumulate capital by exploiting the wage slaves. Though, the exploitation is not illegal but its unfair and unjustified. Therefore, capitalist society is a unjustified and unfair society. Thus, there is self-contradiction in capitalism. So, the out come of such self-contradiction of capitalist society is socialism, win by the working class -the producer of value, therefore, surplus-value that is capital- the unpaid labour. IMF, WB, ILO, UN, states, political parties, NGO's, different ideological organizations etc are the class weapons of capitalist class. The executives of capitalist states are nothing but the managers of capitalist system. So, there is no option except vanish the capitalist society by vanishing the wage slavery by vanishing the private property for the emancipation. Sure, unity of workers of the world is the first condition for the

emancipation. But, sorry there is no party to unite the workers of the world to vanish the capitalism by a communist revolution by the revolutionary working class. So, a working class party is a historical necessity to do the same.

No Leninist Party is communist party has posted.

01-09-15.

An accused have the right to defend by proper information and logical argument. But, a criminal have nothing to defend, because, he committed the crime. Therefore, a criminal have nothing to defend thus, he can say so many fouls to divert the attention to hide the facts to avoid the consequence. But, finally, a criminal is criminal.

I am against Leninism-the corruption of science of communism. Therefore, i am trying to unmask the ugly face of Lenin and other Leninist bosses by proving their crime against the working class.

Sure, a Leninist have right to differ with my proving wrong of my statement by providing the real records against my information to prove it false. But, no Leninist yet done so but they are very much expert to say so many nonsense against me and has been branding me as a agent of CIA without any record.

Certainly sure, Lenin was a servant of capitalist interest by founding a reactionary party and a state of state capitalism where the rate of exploitation was much higher than USA.

If there is private or state property, there is law to serve the private interest by protecting the private or state property.

If there is law there is crime and punishment.

Because, violation of law is crime by the law.

But, if there is no law, there is no violation of law, so, there is no crime and punishment.

Therefore, if there is no private property or state property to serve the private interest, there is no law thus, there is no crime and punishment.

So, there is no necessity of judicial authority.

Undoubtedly, if there is no judicial authority to judge any one, there is liberty and freedom of all.

Sure, communism is a society free from the all such things including private or state property.

So, communism is a society for liberty and freedom of all.

Noted, there was no law before the private property has introduced by the masters,

and the code of Humbburaby is the first written law.

Certainly sure, the age of written law is not more than 3,800 years but the age of human being is not less than 2,00,000 years.

Lenin was more brutal dictator than Tsar Nicholas.

Because, Tsar has determined his position as a supreme autocrat along with power and function of him in his constitution-1906.

But, Lenin? No.

Rather, Lenin has hold the post of chief executive of his state till his death but the that post was not described in his own constitution-1918.

Not only killing, even no punishment was allowed without proper trial by the constitution of Tsar-1906.

But Lenin was for extra -judicial killing.

However, working class will end not only killing but also punishment by winning their world by defeating the reactionary capitalist class.

28-08-15.

Not nation but the working class is the producer of capital.

But, the so-called nationalists including Leninist bosses has been trying to crying to build the nation by unite the nation to construct the national economy to protect the nation and national interest by ignoring and denying the role of working class to produce capital with a ill motive to confuse and divide the workers of the world to serve

the capitalist interest and thereby to protect the capitalist society - a global society.

Sure, unity of workers of the world is the first condition for the emancipation.

Noted, capitalists are not nationalist because, national boundary was not enough to develop the capitalist society.

23-08-15.

Only judicial authority have the power to judge by the help of police lawfully by the law of ruling capitalist class.

But, if police or executive has taken the decision to kill anyone without trail, then what is the task of the judicial department of a state?

Therefore, if there is such killing by police there is nothing but the failure of a state as state.

Sure, states are defunct under the rule of the IMF and other global syndicates.

So, not reform but the abolition of state is the historical consequence of such defunct states by the revolutionary working class.

Noted, capitalism is in moribund condition and thereby the reactionary capitalist class has lost its ability to lead the society.

So, there is anarchy.

Thus, the end of such anarchy is the condition of a new society- free from class and class weapons including state.

18.08.15.

No state have independent capacity to determine and fix the tax and tariff policies to earn and expend under the rule of the IMF- the controller of the world economy, founded by the winners of the 2nd world war including Leninist boss Stalin to serve the capitalist interest globally, by concluding the colonial policy -the integral part of capitalist development.

Therefore, there are so many new state has emerged after the 2nd world war by the effect of ending the colonial policy by the politics of globalization by the winners of the 2nd world war to make sure the free movement of capital and commodity all over the world.

Thus, states are defunct under the rule of the IMF.

So, democracy is dead under the rule of the IMF.

India is the founding member of the IMF.

In spite of that the politicians of India has been claiming that the India is largest democratic independent state of the world.

How funny!

A seller of a commodity have no need to see the nationality, ethnicity, colour, sex or religion of the buyer, rather he have need to sale his commodity to get price of the said commodity to accumulate capital.

Therefore, capitalist class -the owner of the commodities have no need to choice the nationality, ethnicity, colour, sex or religion of the buyer rather, capitalists have need to sale the commodity to survive and exist as capitalist.

Thus, no capitalist is nationalist or patriot. But, the political bosses of the capitalist class has been pretending that they are working for patriotism and nationalism to confuse the working class about capitalist relation and divide the workers by nation and country.

Lenin, Mao, Ho-Chi etc Leninist bosses were not free from such nonsense politics of nationalism and patriotism.

Noted. wage slaves have a commodity to sale to live to produce commodity and that is labour power.

Therefore, working class have nothing to choice any nation or country to sale the labour power to live.

Thus, workers have no nation or country, but they have a

world to win by losing the chain by defeating and vanishing the capitalist class.

So, unity of workers of the world is the first condition for the emancipation.

13-08-15.

No nationalist have scope to be a communist except abandoning the nationalism. Because, communism is a global society.

Lenin was for the 'right of self-determination of nations' therefore. Lenin was not a communist.

Mao was not only for the same right of nations but he was a declared patriot. But, workers have no country to love rather, they have a world to win by losing their chin by defeating the capitalist class. Therefore, Mao was never a communist.

Ho-Chi was not only for the said right of nations rather, he was for the declaration of separation of America. Therefore, Ho-Chi was never a communist.

In fact, no Leninist is communist to unite the workers of the world for communism, win by the working class alone.

No fight except fight against wage slavery to vanish it by the revolutionary working class is revolutionary fight in this epoch.

Fight against the colonial rulers was nothing but an effort to form a capitalist state to gain the political control by

the native capitalist bosses to maximize the rate of exploitation to accumulate the capital by exploiting the wage slaves.

Noted, colonial policy was the integral part of the capitalist development.

Therefore, revolutionary capitalist class has played a progressive role by conquering the whole world by practicing the colonial policy by defeating the beneficiaries and rulers of the local, self-dependent but so poor economy.

But, capitalist class as a whole is exploiter therefore, working class -the product of capitalist class have no option except fight against capitalist class to vanish the exploitative capitalist system for the emancipation.

Bolivar, Mao, Su Kormu, Ghandi, Ho-Chi, Che, Khodiram, Bogobath Sing, Surju Sen etc none of them was against wage slavery to vanish capitalist system for the emancipation.

The October event of Russia is nothing but a planned military coup by the key leaders of the reactionary Bolshevik Party. But, the government of Lenin has not recognized by the constituent assembly election, and in fact, Bolshevik party has got a few votes. Certainly sure, Lenin has founded a state of state capitalism, where the rate of exploitation was much higher than USA. But, socialism -the replacement of capitalism is free from the

exploitation. Workers have no nation and country but they have a world to win by losing their chain by defeating and vanishing the capitalist class. Sure, nationalism will be reduce by the united action of the workers of the world. Moreover, nations are inter-dependent under the global net of capitalism, and currently , nation is dead under the rule of the IMF and others global syndicates. Unity of workers of the world is the first condition for the emancipation of workers; and "united action of the leading civilized countries at least is one of the first conditions for the emancipation of the proletariat." In fact, the outcome of the contradiction of the sellers and buyers of labour power of the world is socialism. Thereby, win the socialism is the job of only working class. But, Bolshevik party was never a working class party to unite the workers of the world to fight against the capitalist class by fighting against wage slavery to vanish wage system by a communist revolution by the revolutionary working class for communism. Rather, Bolshevik party was a party of reactionary capitalists including reactionary peasants to develop the capitalist economy at Russia. Noted, state capitalism and so-called right of self-determination, both polices are useful to confuse and divide the workers of the world. The Manifesto of the communist party has described that " United action of the leading civilized countries at least is one of the first conditions for the emancipation."

So, communist revolution-the culmination of contradiction of sellers and buyers of labour power of the world , is not possible in one country alone.

Therefore, a communist party to unite the workers of the world for a communist revolution is neither local nor national but a global party.

Sure, communist revolution for communism is the job of only working class.

So,communist party for a communist revolution is a party of only working class.

The end of politics- an organized power to oppress is the condition for communism- a society free from class.

So, communist party will be abolish in communism.

But, no Leninist party is only working class party, or a global party for a communist revolution.

Therefore, no Leninist party is communist party.

25.07.15.

(2) Capitalist society is a society of numerous commodities, produce by the wage slaves. But, the buyers (capitalists) has pay wage to the wage slaves for producing the commodity to accumulate the capital.

Wage is nothing but the price of the labour power (the commodity of wage slaves).

But, the price of a commodity is not only wage.

A commodity have 2 elements, one is natural resource. and another one is labour of wage slaves.

Natural resource have use value but no exchange, therefore, the value of commodity is nothing but the labour of wage slaves.

Therefore, the price of a commodity is nothing but the labour of wage slaves. Thus, difference between the price of a commodity and wage is the capital- the unpaid part of a commodity or the unpaid labour.

So, capitalist class is exploiter and wage slaves are exploited.

Thereby, there is a contradiction between capitalist class and working class by the condition of commodity production.

The outcome of contradiction of the sellers and buyers of the labour power of the world is SOCIALISM-the end of commodity production.

The culmination of contradiction of the capitalist class and working class is communist revolution-the ever biggest global event, but imposed by the reactionary capitalist class but done by the workers of the world. Therefore, only the working class is the communist revolutionary class.

If there is no contradiction, conflict, quarrel etc nonsense then, there is no case or court case. If there is no case or court case, then judiciary along with advocates have no utility thus, conflict, quarrel etc nonsense is required to file a case to the court by an advocate to earn money to live a parasitic life of the concern people along with advocate. However, if there is no disposal of any case in favor of anyone then why the victims will go for filing a

case? Sure, medical science has introduced by the capitalist class but its not out of capitalist limitation. Therefore, the medical professionals are not free from the limitation of capitalist interest. Therefore, there is no alternate except vanishing the capitalist system to live with uninterrupted peace without judiciary system and to free & develop the modern medical science to confirm and ensure the proper medical service for all of the world.

(2) Prostitution is legal and government has been earning form the prostitute. A so-called prostitute sale her body to use for sex for a fixed time, and after the said working time she is free to choice another client. But, a wife? No. Even wives are not for sex with the wish of their husband anytime but they are common servant of their husband's family for round the clock till death.

(1) Girls are not commodity but yet treated, because there is marriage. There is marriage, because there is private property, to protect the private property by the legitimate inheritance. Therefore, wives are nothing but the reproductive machine , owned by husbands. So, wives are sex slave of husbands.

Not beggar but a seller of labour power is fighter.
Working class will fight and win their world, where there is no beggar or donor, no servant or master, but everyone is equally dignified, and that is SOCIALISM.

Leninism is an ideology, but ideology is not science. Science is the code of any thing thus its from reality. but ideology is from the brain of some body to control somebody by the said ideology. Leninism is nothing but the politics of state capitalism and so-called right of self-determination of nations. But, state capitalism is capitalism and workers have no nation or country but they have a world to win by losing their chain. Therefore, Leninism is so effective to confuse the workers about socialism and its so useful to divide the workers of the world by nation and country. But, unity of workers of the world is the first condition for the emancipation. Leninism is nothing but the policy of democratic centralization, which is against the freedom and liberty of any one, in fact its the policy of masters and dictators.

Leninism is nothing but the politics for the development of national economy, but capitalism is a global system, currently ruled by some global syndicates including IMF- the controller of the world economy and nations are inter-dependent. Leninism is nothing but serving the interest of reactionary peasants- a fraction of capitalist class. Leninism is nothing but the politics of military coup what Lenin and his company did to grabbed the state power of Russia. Leninism is nothing but the politics of killing what did Lenin, Trotsky, Stalin, Mao, Pol-Pat, Kim, Ho-Chi, Hoxa etc Leninist boss. Leninism is nothing but the politics of cultism. But socialism is free from any such cultism. Leninism is nothing but the politics of exploitation, but socialism is free from exploitation. Leninism is nothing but the distortion of writings of Marx. The IMF is not a bank but a syndicate of states to control the world economy, therefore, no state have power to go against the IMF, though the IMF has failed to save the

capitalist economy from its non-curable disease -the recession, the effect of over production by the existing conditions of the Capital: (1) Reproduction; And (2) Circulation. Noted, there output of reproduction is over production, and the result of over production is disturbance of circulation, and that is recession. The effect of recession is : (1) Lose of private property of some affected capitalists; (2) Social anarchy; (3) Political and labour unrest; (4) War or war war situation; (5) Social agreement by capitalist to limit the production; And (6) open up the way of socialization by forming the different syndicates including IMF. In fact, the effect of recession is negation of the private ownership. Therefore, the historical consequence of repeated recession is socialization of means of production, transportation and communication, and that is SOCIALISM - a society free from capital by the revolutionary working class.

(1)

No Government can do any meaningful thing against the IMF- the mightiest syndicate of the world and the controller of the world economy, founded by the winners of the 2nd world war, including Leninist boss J.Stalin to serve the capitalist interest globally to protect the moribund capitalism.

Last example is the Government of Betrayer Tsriper of the GREECE.

Noted, the Prime Minister of GREECE has accepted the conditions of the IMF after committing so many drama and mockery with the voters of the GREECE. Even, he betrayed with his party on this question. His boss V.I.Lenin also has done the same betrayal job even with his party by dissolving the elected constituent assembly, even without lawful authority, 5th January, 1918.

But, undoubtedly, working class will vanish the IMF and all other class weapons including state, political party, NGO etc for their emancipation.

Marriage is nothing but a system to buy a right for having sex with a girl by a male by using her as a reproductive machine to produce the legitimate inheritance to protect the private property but introduced by the masters to protect the interest of the private property holders.

Capitalism is based on private property, therefore, capitalism is not against marriage, but, capitalism has been destroying the family relation, based on marriage. Even, some people in capitalism has been thinking that the marriage is not necessary for having sex; and some are living together but not interested in marriage.

LGBT right is accepted by some states, and so many organizations, even by UN.

However, if there is no private property, there is no right of inheritance and thereby, there is no utility of marriage. Sure, socialism is free from the private property, and not

family but the individual is the basic unit of the new society-SOCIALISM.

15.07.15.

He who sale his labour power to produce a commodity is a worker or wage slaves.

Wage labour produce not only value but also surplus-value that is capital -the unpaid labour by getting wage-the cost of labour power.

Therefore, wage slaves are exploited and capitalists are exploiter, thus there is antagonism between the sellers and buyers of labour power by the condition of the production of commodity.

The solution of such antagonistic relation between the sellers and buyers of labour power of the world is vanishing the selling and buying system by vanishing the commodity production, by vanishing the capitalist private property by a communist revolution, imposed by the buyers of labour power but by sellers of labour power of the world.

Therefore, communist revolution is only job of working class alone and its not possible in one country alone. Because, selling and buying system is neither local nor national but a global system. Therefore, the communist revolution to change a global system is neither local nor national but a global event.

Thus, there was no communist revolution in this world and thereby, there was no socialism-a selling and buying free society.

So, stories about socialism is nothing but a false but ill motivated political propaganda by Liar Lenin and his disciples.

Killing for killing is not the solution of killing. Eye for eye, or nose for nose, or killing for killing etc nonsense and heinous concepts has introduced by the brutal kings to protect the interest of the private property holders.

In fact, private property is the cause of all evils including killing. Therefore, if there is no private property, there is no evil even killing.

Sure, the capitalism has been destroying the private ownership by the existing conditions of capital, though the capitalism is based on the private property. Therefore, the effect of such self contradiction of the capitalism , there are so many capitalists are against the death sentence and thereby there is no capital punishment at

least at 100 countries, that means there is no judicial killing.

Records shows that the rate of killing is much higher where there is law for capital punishment that is judicial killing than the countries where there is no capital punishment that is judicial killing.

Noted, killing for killing is nothing but the retaliation. Sure, retaliation is retaliation thereby retaliation is not the remedy of killing rather, its help to increase the heinous concept of killing and brutality.

Finally, the revolutionary working class will vanish the private ownership thereby, killing will be an unknown term in socialist society.

No capitalist is honest, because, capital it-self is the fruit of dishonesty. In fact, capital is nothing but the unpaid labour. But, no one touch them rather they are honored by the said people those who killed not only a thief but also an innocent one accusing as a thief. There are hundreds and hundreds people has become millionaires from the ZERO.

But, no one touch them rather, they are acknowledged as successful person in this waste society.

But, so many innocent people has lost their lives by the so-called honest men. Are the said killers human being?

There are so many powerful but corrupt persons in power and they are not even under trial, rather they have been getting respect from the said killer those who think that they are real fighters against theft, robbery, corruption etc by killing alleged and suspected persons. Have any right of any one to kill or beat any one without legal authority even in Bangladesh? No.

So, stop such killing and beating.

12-07-15.

Labour, produce value; Wage labour produce surplus-value, that is capital.

Therefore, wage labour produce capital.

In spite of that, not wage labour but the capitalists are the owner of the capital. Therefore, capitalists are capitalist by the wage labour.

Thus, the capitalist private property is not only unjustified but also self-contradictory.

Thereby, the solution of such self-contradiction of capitalist society is the social ownership of the means of production, transportation and communication that is SOCIALISM.

So, SOCIALISM is unavoidable and inevitable by the fruit of the self-contradiction of capitalist ownership.

Is the government of Greece against the IMF? No.

Is the government of Greece against the some conditions of the IMF? Yes.

Is the Greece as a state is the member of the IMF? Sure, Greece is the member of the IMF. Thereby, the government of the Greece is the part of the IMF.

So, have there any fundamental difference or principle stand against the IMF by the government of the Greece? No.

Is the government of Greece seeking loan from the IMF? Sure, the government of Greece has been seeking loan from the IMF.

Therefore, is the referendum by the government of the Greece is not a tactics to bargaining with the IMF?

Exactly, but not following and caring the rules of the IMF.

Thereby, is it not the failure and defeat of both the IMF and the government of the Greece by holding the referendum with a result - ' NO' ?

Certainly sure, its the failure and defeat of both the parties.

In fact, its the failure of the IMF- founded by the winners of the 2nd world war including Leninist boss J.Stalin to serve the capitalist interest globally to protect the moribund capitalism by controlling the world economy. So, capitalist class as a whole have no option except fail

and defeat to rule the society.

And finally, capitalist class will face its final defeat by the working class.

Have there killer? Sure.

In spite of that politicians of different under develop countries has been propagating to make their respective country as developed one by eradicate the poverty as if there is no such nonsense and rubbishes including

poverty at developed country like USA. Shame.

Noted, if there is rich, there is poor because, there is private property to be rich and richest by exploiting the wage slaves.

Therefore, there is no way except vanishing the exploitation by vanishing the private property to vanish the poverty by vanishing the rich.

Will it be possible for this revolution to take place in one country alone?

No. By creating the world market, big industry has already brought all the peoples of the Earth, and especially the civilized peoples, into such close relation with one another that none is independent of what happens to the others.

Further, it has co-ordinated the social development of the civilized countries to such an extent that, in all of them, bourgeoisie and proletariat have become the decisive classes, and the struggle between them the great struggle of the day. It follows that the communist revolution will not merely be a national phenomenon but must take place simultaneously in all civilized countries – that is to say, at least in England, America, France, and Germany.

It will develop in each of these countries more or less rapidly, according as one country or the other has a more developed industry, greater wealth, a more significant mass of productive forces. Hence, it will go slowest and will meet most obstacles in Germany, most rapidly and with the fewest difficulties in England.

It will have a powerful impact on the other countries of the world, and will radically alter the course of development which they have followed up to now, while greatly stepping up its pace.

It is a universal revolution and will, accordingly, have a universal range. " - The Principles of Communism. F.Engels.

Did Lenin prove it wrong? No.

Have there any Leninist party who proved it wrong? No.

Therefore, have there any reason to consider any Leninist Party as communist party to work for a communist revolution by uniting the workers of the world? No.

So, No Leninist Party is communist Party.

Capitalist class is not free from contest, competition, contradiction, conflict etc nonsense among the capitalists for their survival.

But, all capitalists are unified to exploit and oppress the wage slaves to accumulate capital by buying the labour power of the wage slaves of the world.

Therefore, have there any benefit for the wage slaves by taking part with any side of the capitalist those are involved in conflict? No.

Rather, taking any part with any contenders of capitalist conflict by wage slaves is not only cause of loss but it also suicidal for them.

There were so many arms conflicts including 2nd world war among the capitalist contenders for the capitalist interest.

Some, conflicts of capitalist interest among the capitalist has been branding as revolt, or revolution, or war of national liberation etc and the contenders of such incidents has been celebrating such events to glorify or memories these as like as all are beneficiary or loser by such events to confuse the wage slaves to ignore and deny the class identity and class interest of the working class.

Leninist parties are expert to do the same to serve the capitalist interest by ignoring and denial the class interest and class identity of working class.

But, working class is a class and will unite globally to fight against the capitalist class by rejecting all such nonsense emotional blackmail in

30-06-15.

Any policy to divide the workers of the world is harmful for the interest of the working class.

Any such policy which is useful and effective to divide the workers of the world is helpful for the interest of the capitalist class.

Because, unity of workers of the world is the first condition for the emancipation of the working class. And, workers have no nation and country, rather they have a world to win by defeating the capitalist class.

But, Leninism is an effective policy to divide the workers of the world by nation, country, sex etc by practicing the

politics of so-called 'right of self-determination of nations' and so-called 'women emancipation'. Therefore, Leninist parties has been serving the capitalist interest by dividing the workers of the world. Undoubtedly, practicing any such nonsense policy to divide the workers of the world by any worker is not only harmful but also a suicidal job. Noted, the capitalism is in moribund condition and thereby the reactionary capitalist class is disabled to rule the capitalist society, but yet exist. Because, workers of the world is not united to vanish both the capitalism and capitalist class for the emancipation.

Law has introduced by the masters to protect their private property.

Brutal King Humburabby was the first written law giver in this world.

Therefore, the history of written is not more than 4,000 years. But the age of human being is not less than 2 hundreds thousands years.

The basis of the capitalist society is the private property. Therefore, capitalist class is not against the private property.

So, capitalist class is not against law.

Rather, the law makers of the capitalist class has been

making so many laws to protect the capitalist interest, even by ignoring and denying the respective constitutions of their concern states.

Therefore, there are so many black laws too.

Violation of law is crime, punishable, and so many things.

Therefore, it is acknowledged by the law it-self that is the laws are not out of violation.

Thus, there is court to punish by the law and lawfully and there is force to maintain law and order.

But, if there is no violation of law there is no utility and function of court and concern forces.

Thus. laws, courts, and forces are meaningful and effective if there is violation of law.

So, the rule of law does not mean that there is no violation of law.

Rather, rule of law means there is violation of law thus, court and enforcement agencies are active and effective to confirm retaliation lawfully.

But, Leninist parties are working to ensure the rule of law to maintain the peace in this waste and moribund capitalist society.

But, the capitalist society is the producer, store and cause of crime, penalty, want of peace etc nonsense.

In spite of that, Leninist parties has been claiming that they are working for communism!

Noted, abolition of the private property is communism. And certainly sure, if there is no private property, there is no law to rule and oppress any one by anybody.

In fact, the end of rule, man by man is communism.

27-06-15.

A constitution with a section of Oath in the name of God to support, defend and protect it by the oath takers is not a secular constitution though there is a term as secularism as one of the principles of the said constitution is not at all a secular constitution.

If any one is not secular he is not at all democrat.

Therefore. any constitution to constitute a state with any section of it with acknowledging any god or goddess or any religious sense, concepts, customs etc to practice is not a secular constitution to form a democratic state.

Such concept was the concepts of revolutionary capitalist class -the founder of the politics of the secularism as an integral part of democracy.

Noted, the religion that is the politics of masters and lords for the political power by the divine right has defeated by the politics of secularism by wining the capitalist democracy that is political power by the people for their earthly lives by the revolutionary capitalist class for the interest of capitalist development.

But, the reactionary capitalist class has taken shelter to the religion to protect the decayed capitalism, therefore,

the reactionary capitalist class has been using both the terms -secularism and religion as their principle to create confusion even about secularism by proving the disability of the reactionary capitalist class to rule the society.

Thereby, President of USA, or PM of UK or India is not free from such nonsense practice by misinterpreting the term secularism.

Sure, Lenin was not free from such nonsense practice on secularism.

Thereby, no Leninist party -the servant of capitalist interest to protect the moribund capitalism is free from such nonsense practice on secularism.

If you are a claimed nationalist, you have a nation.

But, workers have no nation, rather they are production of the capitalist class to produce commodity to accumulate capital by exploiting the workers by paying wage.

If you are a so-called patriot, you have a country.

But, workers have no country rather, they have a world to win by defeating the capitalist class for their emancipation.

If you are a capitalist, you have private property to exploit.

But, the working class -the producer of capital have no capital or capitalist private property, thereby, workers are

exploited.

Therefore, exploiters are capitalist and they are for claimed nationalism, patriotism etc but all these are false and bogus.

Because, capitalism is a global system, currently ruled by some global syndicates including IMF. Thus, capitalists are working for the globalization to free the whole world for the free movement of commodity and capital by denying and in-effecting the political boundaries by nation, nationality or nationalism or patriotism.

So, there is no reason to be consider a capitalist as a nationalist or patriot.

17-06-15.

CHINA, founded by the ' great teacher of nation' and the 'great' Leninist leader Mao is the best modern industry in the world to produce rich by maximizing the rate of exploitation.

Noted, rich is nothing but an exploiter, cheater, fraud, liar, etc nonsense. Because, no one except a capitalist is rich by exploiting wage slaves. Because, capital is nothing but the unpaid labour or unpaid part of commodity.

News paper has published a report that the CHINA has produce 4 million millionaires and among them 1 millions has produce only in the last year-2014.

Japan have only 1 million millionaires and the USA did

not produce the same number of millionaires in year 2014.

Therefore, is it not fact that the USA has defeated by the CHINA to exploit the wage slaves?

Thus, the so-called socialist CHINA is the number one capitalist country by the rate of the increased number of rich by the increased rate of exploitation.

15-06-15.

Was Che a Communist to fight against capitalist class to vanish it for communism by the working class alone? No.

Was Che a collaborator of the Fidel & company who was for a religious constitution of the CUBA-1940? Sure.

Was Che a minister of a state of state capitalism, where the rate of exploitation still is much more than USA, founded by the founder of Fidel Dynasty? Sure.

Was Che for the land reform to chained some people by the chain of land to increase the capitalist ideas to be a rich among the that chained people when he was the concern minister of Fidel's Government? Sure.

But, the abolition of the private property with all rights of inheritance is socialism by the description of the manifesto of the communist party. Certainly sure, communist society the historical consequence of capitalism, win by working class is free from the selling and buying, commodity production, capital, exploitation etc and thereby communist society is free from the class,

class rule, class weapons etc nonsense.

Was Che for a selling and buying free society? No.

Was Che for a society free from the production of commodity? No.

Was Che for a society free from the private property? No.

Was Che for a society free from the exploitation? No.

Was Che for a society free from the capital? No.

Was Che for a society free from the rule man by man?
No.

Was Che for a society free from the class rule? No.

Was Che for a new society by vanishing the so old capitalist society -the foundation of the communist society? No.

Was Che for the extra-ordinary people by acknowledging others as ordinary ? Sure.

But, there is no discrimination among the human being in communism.

Was Che for the heroism by considering others as coward? Sure.

But. there is no room for any such nonsense in communism rather. all are equally dignified in communism.

Noted, celebration of the death and birth day events has introduced by the masters to justify their divine rights to rule the society to serve and protect the parasitic interest of the exploitative class by exploiting the slaves to create

a nonsense impression among the exploitative slaves that the masters are great, and extra-ordinary thereby others are ordinary.

But, capitalism has proved that all are from 23 pairs of chromosomes.

Sure, there is disparity and discrimination among the human being in capitalism because there is private property.

WAS LENIN A COMMUNIST?

No.

But yet the beneficiaries of Leninism and blinds to Lenin are claiming and considering him as a communist leader as such as a history builder by founding a socialist state.

But the USSR was a state of state capitalism. In fact he tried to create confusion on socialism and destroying the socialist movement to serve and protect the decayed capitalism by founding such state of state capitalism.

Remarkable, if there is commodity, there is capitalist mode of production. Sure, there was commodity at USSR ;

If there is capital, there is capitalist mode of production.

Sure, there was capital at USSR ;

If there is selling and buying , there is capitalist mode of

production. Sure, there was selling and buying at USSR;
If there is wage labour, there is capitalist mode of
production. Sure, there was wage labour at USSR ;
If there is wage labour there is exploitation, thus, there is
capitalist mode of production. Sure, there was
exploitation at USSR;
If there is buyer of labour power , there is capitalist mode
of production. Sure, there was buyers of labour power at
USSR; And
If there is buyer of labour power there is exploiter,
thereby there is seller of labour power there is exploited,
so, there is class and class rule thereby, there is politics
and state for class interest. Sure, USSR was a state.
So, the USSR was a state with capitalist mode of
production, thus, it was a state of state capitalism with
state owned means of production to control the labour
market with extreme dictatorship.
No doubt, the USSR was a state capitalist state by its
constitutions of 1918, 1924, 1936 and 1977.
But, the rate of exploitation was much higher at USSR
than USA. Benefits and opportunities of workers were
lesser than USA. Thus, within 30 years of the USSR it
has become the 3rd richest country of the world in the
founding year of the World Bank, though there were
huge loss of lives and destruction properties by the seven
years civil war and 3 years for second world war. But, the

Russia under the rule Tsar was a reactionary and poorest state of Europe. Its known fact that where the rate of exploitation as much as high there is the rate of accumulation of capital is the same too and that is happening in China of the great Leninist leader Mao. Therefore, the story of USSR on SOCIALISM is an ill motivated and intentional fabrication and manufactured political propaganda thus all these stories are bogus, false and lie so, myth.

Lenin, the key founder of the Bolshevik party was never a communist to replace the capitalist society by communist society by the wage slaves of the world. His party – the Bolshevik party was never a working class party to unite the workers of the world for a communist revolution to end the wage slavery by common ownership of means of production for all and by all of the world.

Rather, Bolshevik party was a party for the interest of reactionary capitalist including peasants for the capitalist interest by developing the capitalist mode of production at Russia to increase the volume of capital by exploiting the wage slaves by born declaration of it. Therefore, it was not possible to establish socialism by the action of such reactionary -Bolshevik Party.

Certainly, communism is nothing but the end of wage slavery. Sure, communist revolution is nothing but the

culmination of contradiction of sellers and buyers of labour power of the world. Therefore, unity of wage slaves of the world is the first condition to end the contradiction of sellers and buyers of labour power of the world by the communist revolution for the emancipation by ending the wage slavery. Thus, communist revolution is not national but a universal event, so, communist revolution is not possible in one country alone.

No doubt, replacement of capitalism by a communist revolution is communism, but capitalism is not national but a global system, thus, replacement of capitalism is not possible in one country. So, Communism is not possible in one country alone. Therefore, it was not possible to establish socialism alone at Russia.

Furthermore, “ united action of the leading civilized countries at least is one of the first condition for the emancipation of the proletariat.” Has described so rightly in the Manifesto of the Communist Party. But, Lenin did not care it though he claimed that he was a “communist”, but in fact he had wear a fake dress symbolized with communism and used the name of Marx to cheat the workers of the world. Because, Marx was the discoverer of science of communism, and the term ‘socialism’ was known to the workers-the conquer of communism. Lenin, Trotsky, Stalin etc has founded their state by a planed military coup by killing 2 persons and arrested 25

guards of Kernasky government.

Noted, military is not wage slaves to produce value, therefore, surplus-value that is capital which is unpaid labour, thus, the relation between buyers and sellers of labour power is antagonistic, so, solution of such antagonistic relation is communism rather, military force is the tools of exploitative classes by born condition and origin of it, to serve the interest of rulers. Sure, there is conflict among the capitalist class it-self as well as its arms forces too thus, there is so many records of military coup in history.

In fact, State of Lenin was a dumping land for the stock of Germany-the waste and dangerous sufferer by huge stock since 1903 by the so-called peace fact of both countries-March,1918.

Noted, capitalist recession that is stock was the cause of 1st world war. Germany was the attacker to start the First World War to face and solve the problem of its huge stock.

Buyer of labour power is exploiter, therefore, as the chief executive of his state Mr. Lenin was the gang leader of buyers of labour power of the wage slaves of his state. So, Lenin was nothing but a head of the managers of exploiters of his state. Therefore, Lenin has introduced the new economic policy (NEP) without caring his own constitution-1918 to accumulate and accommodate the

fruit of exploitation - capital in private level by private sector. In fact, he him-self was a violator of his own constitution, and it's quite natural by a dictator.

Therefore, Lenin was a hypocrite, fraud, cheat and betrayer even with Marx too.

He has used to fire and killed so many wage slaves to control the labour market in his life time, mainly in the period of labour movements.

Records proved that the rate of exploitation at his state was much higher than the USA. Even, he did not pay wage to the workers for Saturday by declaring the day as “ great communist Saturday”, moreover, he used to appropriation the overtime of workers for his state without pay. No doubt, the rate of such type of exploitation by Lenin was not comparable with any executive of traditional capitalist state where there is law against exploitation without lawful payment of wage.

Sure, consequence of repeated recession is communism therefore, the decayed capitalism has taken shelter even, to the Leninism-the politics of state capitalism for its survival from non-curable sufferings and bad effects of repeated recession since 1815 to solve the dangerous crisis and problem of the shocking recession overflowed by 1902 and ended by 1st world war.

Lenin was the chief executive of his state till his death but the post, what he hold was not narrated in his own

constitution-1918. Therefore, Lenin was a more vile & extreme dictator than the self-declared supreme dictator – Tsar of Russia by mentioning his source of power and function by his own constitution-1906.

It was Lenin who blamed the wage slaves of his state as a bad element. Except a brute and cruel exploiter no one can use such nonsense thing against the workers.

Even, Lenin has betrayed with his Bolshevik party by dissolving the Constituent Assembly, without any lawful authority, though the election of Constituent Assembly was held under his government and it was by born commitment of the Bolshevik party. No doubt, his government was rejected by the voters of Russia, by the Constitutional Assembly election thereby, he punished the voters by dissolving the Constitutional Assembly therefore, not the people's sovereignty but the absolute and extreme dictatorship of Lenin has established, though, sovereignty of people of Russia was the by born commitment of the Bolshevik Party.

Lenin has used to rename his own party as "Communist Party" after grabbing the state power to protect the state power to serve the decayed capitalism by cheating and confusing the wage slaves.

The Communist party is not for reformation of state, rather to vanish the state and politics. Because, the communist party is a working class party to unite the

workers of the world to fight and vanish the capitalist society by a communist revolution by ending the commodity production to end the wage slavery there-by to end the class rule and class, by ending the politics therefore, by disappearing the state. But, Bolshevik party was for reformation of state by born declaration of it. Thus, Bolshevik party was not at all a communist party for the same aim. So, no Leninist party is communist party. Moreover, Communist party is not a transformation of any party, so, party like Bolshevik party have no scope to transform into communist party thus, renaming the Bolshevik party is nothing but an evil job to confuse the workers of the world to serve the decayed capitalism. Therefore, it's nothing less than fraud and cheating.

Lenin has founded the so-called 3rd International with politics of so-called 'right of self-determination of nations' and state capitalism to get support from the outside of Russia and on the other hand to divide workers of the world by nation and country. Though, workers have no nationality and country, but they have a world to win by losing their chain. However, Lenin and his disciples were succeeded to divide the workers of the world by using such politics of Leninism as such as these rubbishes are policies of communism.

Any such policy which is useful or effective to divide the

workers of the world is so harmful and dangerous for the interest of the workers. Therefore, Leninism-the corruption of science of communism is an effective and useful political weapons to create illusion to confuse and divide the workers of the world by nation and country thus, the poisonous Leninism is so harmful and dangerous for the workers of the world; And USSR and the so-called 3rd International was against the interest of workers of the world, thus, Lenin was a proved but clever and masked enemy of workers of the world.

Lenin and his disciples has used to use not only the name of Marx but creating a wrong concept and false view that Lenin was the developer of so-called “Marxism” as Leninism among the workers of the world, thereby Lenin was a great ‘Marxist’ by the ill motive propaganda and falsification of Leninist criminals including Trotsky, Stalin, Mao etc.

Not ‘Marxism’ but Marx has discovered the science of communism. Not master or lord or boss or ideologist or Marxist but Marx was a scientist. Not universal reformer or cult but Marx was a communist. Communist society is a society with a human being where all equally dignified and free, thus there is no lord, or master or boss or cult in communism. Or not cultism or ideology but vanishing the all kinds of ideologies, views, customs and traditions, culture etc rubbishes is the condition for the communism

for a scientific human being of a scientific society.
It is well known that the abolition of the private property is
communism. Therefore, as a communist Marx was
against the private property with all rights of inheritance.
So, not Marx but all of the world is the owner of the
science of communism-discovered by Marx.
Therefore, the very word " Marxism" is not only
unscientific but also effective to undermine
"COMMUNIST" Marx.

No doubt, communist society is a scientific society win
by wage slaves of the world will vanish all such nonsense
concepts and ideologies, including Leninism along with
all masters, bosses, reformers, clerics, lords, heroes,
leaders etc & etc rubbishes.

Therefore, the said claim on Leninism of Leninist bosses
and blinds to Lenin is not only bogus, false and lie but
also a dangerous and heinous effort to cheat the workers
of the world. Thus, Leninism is suicidal for workers. So,
as a founder of Leninism –Lenin was a liar, cheater,
fraud and betrayer.

Abolition of private property with all rights of
inheritance is socialism. But, Lenin has re-chained the
people of country side by the chain of private property by
his decree of land-1917. Sure, he followed the policy of
discrimination to distribute the land among man and
woman by his said decree. But, the end of discrimination

among the human being even by gender is socialism. Noted, ownership of means of production by society is socialism.

Therefore, to justify the heinous acts and misdeeds of Bolshevik Party and Lenin as communist work they did not hesitate to distort the science of communism- discovered, formulated and explained by Marx and Engels. Thus, Lenin did it. Even his party -the CPSU did not care to distort the communist manifesto, or Capital by Marx by the Progressive publisher, Moscow, USSR. Thus, Lenin was never against capitalism rather, a servant to serve and protect the interest of capitalist class and decayed capitalism; there-by his disciple Stalin was one of the three key founders of the IMF- to serve and protect the moribund capitalism by controlling the world economy from a single but mightiest syndicate of the world.

No doubt, states are defunct under the rule of the IMF, thereby, nation state is dead. Though, the capitalists of the world has been claiming the such condition of state is as globalization, in fact, it's the capitalist globalization. Thus, the utility of Leninism of state capitalism has reduced by the globalization with its global authorities. On the other hand consequence of state capitalism is nothing but a failed attempt to protect the decayed capitalism by creating the required conditions for the

capital by the private ownership. So, dissolution of the USSR was inevitable and done so by the self-term. Certainly, history it-self unmasked the ugly face of Lenin and Leninist bosses by the dissolution of the USSR.

So, Lenin was not a communist.

Noted, I have a writings in Bengali with the same title.

Therefore, its in English but its not the translation of the that writings as it is.

Capitalist class have nothing to do except exploiting the working class and conflicting among themselves to maximize volume of capital.

Thus, capitalist class can not live without working class- the producer of capital.

But, working class have no need any capitalist to live, rather, it would be so good to live without capitalist class by reducing the exploitation along with all nonsenses including conflict, quarrel, war, killing etc & etc.

Therefore, the capitalist class is not only an unnecessary elements of the society rather, it is a disturbing and hindering therefore a reactionary force against the development of the society.

Thus, there is no option except vanishing the capitalist class for the development of the society by transforming the capitalist society by communist society for the best of all of the world.

So, nothing except fighting against the capitalist class by the working class is work for the development of the society.

(1)

Not sex but the private property is the cause of disparity and discrimination among the human being. Still there are some untouched community where there is no discrimination among themselves because there is no

private property. On the other hand there are some tribal people where not male but females are the dominating section because, not male but the females are owner of the property. The age of discrimination among the human is not more than 5600 years but the age of human being is not less than 2 lakh years. Therefore, if there is no private property, there is no discrimination among the human being. Sure, working class will vanish the private property with all rights of inheritance by the united action of workers of the world by a new society where there is common ownership of means of production, transportation and communication, thereby, there is no discrimination among the human being even by sex, so all are equally dignified thereby all are free to do any thing including love and union and that is socialism.

The unpaid labour is capital.

Therefore, capitalists are exploiter and working class is exploited.

Thus, the relation between the capitalist class and working class is antagonism by the condition of capital. Solution of such antagonism is the disappearance of capital.

A society without capital is socialism.

So, socialism is nothing but the outcome of the antagonism of capitalist class and working class by the

condition of capital.

Therefore, socialism is unavoidable and inevitable by the condition of capital.

If Lenin was a communist by founding a state of state capitalism, where the rate of exploitation was much higher than USA, then who is capitalist?

If the Leninist boss Stalin was a communist by managing a state of state capitalism and thereby he was one of the 3 key founders of the IMF-the controller of the world economy to serve the capitalist interest globally to protect the moribund capitalism, then who is capitalist?

If the Leninist Boss Mao was a communist by founding a state of state capitalism and thereby he was a key founders of the so-called non-alliance movement along with so many capitalist fascists including African BOKASHA -a brutal dictator to bargain with the 2 leading forces of the then world to get more share in the world market, then who is capitalist?

If Fidel is a communist by demanding to restore the religious constitution of the CUBA-1940 and later on he has founded a state of state capitalism where the rate of exploitation still is much higher than USA , then who is Capitalist?

Noted, socialism is a new society by vanishing the exploitation by vanishing the selling and buying system by vanishing the capitalist class

by vanishing the capitalist society- a global society by a communist revolution , which is neither local nor national but a global but ever biggest event by the working class alone.

07-06-15.

If there is a 'great' leader, there are so many ordinary people to lead them by the leader.

Therefore, there is disparity and discrimination among the human being by leader and ordinary.

But, communism is a discrimination free society, therefore, there is no room from any leader because, all are equally dignified.

Thus, a party of communists to unite the workers of the world to fight against capitalist class to replace the capitalist society by the communist society by a communist revolution by the working class alone is free from any leader.

Rather, all are friends to work for communism by uniting the workers of the world in a communist party.

But, the Leninist parties are not only for the leadership of some 'great' leaders like as Lenin, Trotsky, Stalin, Mao etc rather, they are for worship to their late leaders to help and guide them to do their work properly. How funny!

However, have there any difference between the cultism and Leninism or Mosses and Mao ? No.

06-06-15.

A government is nothing but a manager of the global capitalist system for a particular area of it to manage the capitalist system to serve the capitalist interest by oppressing and overpowering the wage slaves to accumulate capital by exploiting the wage slaves by the capitalist class.

Therefore, executives of the state are nothing but the managers of the capitalist class to manage the capitalist system to serve the capitalist interest to protect the capitalist society by overpowering the revolutionary working class by the state power.

The expenditure of the government to run and maintain the state to serve the interest of the capitalist class is nothing but a part of surplus-value, produce by the wage slaves.

But, the capitalist class has been claiming that they are the capitalists are the supplier of the expenditure of the government by paying tax, tariff etc. Not only lie but a false propaganda. So sad.

Not the liar capitalist class but the working class is the producer of value, therefore, surplus-value that is capital. Therefore, the capitalist class as a whole is the capitalist by the power of the unfair and unjust private property but not by their own labour rather by labour of the working class by exploiting them by paying wage for their labour power to produce commodity to accumulate capital-the

unpaid part of commodity or the unpaid labour by creating so many miseries for the working class.

Note, the expenditure to run and maintain the states of the world is not less than 29% of the GDP of the world.

How funny!

So, no capitalist, no capitalist boss is the friend of working class rather they are not only exploiter but also the cause of all miseries of the working class, and thereby, no capitalist class weapon even state is useful for the working class.

IS INDIA INDEPENDENT ?

Capitalism in India has introduced by the East India Company, and still the India is under the capitalist system, ruled by the IMF, WB, UN etc.

Modern communication system including Railway in India has introduced by the East India Company for easy and quick circulation of capital and still the most modern communication system of India is working for the same interest. Supreme court of the India has founded by the East India company, 1760, to protect the capitalist interest by protecting the private property and still the judiciary of India is working for the capitalist interest by protecting the capitalist private property.

Bureaucracy in India has established by the East India Company Government for the best functionary of the government to manage the capitalist system , and still the bureaucracy of India is doing the same job for the capitalist interest by serving the capitalist system. Modern education system of India has introduced by the British India Government to produce human tools for the capitalist system,

and still the modern education system of India is working for the same purpose. Legal system including penal code, civil code, law of evidence, law of contract, law of registration, etc has introduced by the colonial government of India to protect the capitalist interest by protecting the private property lawfully, and still the legal system of India is working for the same aim.

Police regulation along with police force of India has introduced by the colonial government to help and enforce the rule of law to maintain the capitalist discipline to serve the capitalist interest by protecting the private property, and still the policing of India with the same police regulation is working for the same purpose. Even still the same practice of the Indian police force to treat the arrested person as an animal is existing.

Medical school and college in India has established by the both France East India Company and colonial Indian Government to serve the capitalist interest by providing the medical service, and still the developed medical service of India is working to serve the capitalist interest, even some private medical service centre of India is working as most modern factory to produce money and maximize the profit to increase the volume of capital.

The effect of ever biggest capitalist crisis of capitalist system is the 2nd world and thereby the result of 2nd world war foundation of some global syndicates including UN, WB, IMF etc to rule the capitalist system globally by ending the colonial policy -the integral part of capitalist development globally by creating so many state new states to protect the moribund capitalism by confusing, and dividing the workers of the world to control and overpowering them so strongly and so easily by the the executives of the new states but by the same oppressive and repressive weapons and instruments of capitalist class including state, political party etc.

India was the founding member of the IMF, 1945, and still the India is the member of the IMF- the controller of the world economy, founded by the winners of the 2nd world war including Leninist boss J.Stalin to serve the capitalist interest globally.

Currently, India have a constitution with elected government to serve the capitalist interest by managing the capitalist system to protect the moribund capitalism by different political parties by claiming that the India is a sovereign and independent state. How funny!

In spite of that is the India an independent state along with so many things introduced by the both colonial British East India company and France East India companies and the colonial Governments of India along with colonial rules, regulations, traditions, customs, even ' yes sir' culture ?

Moreover, no state have independent capacity even to earn to expand by fixing and determining the tax and tariff policies independently under the rule of the IMF. Therefore, states are defunct under the rule of the IMF-the mightiest economical syndicate of the world thereby democracy is dead.

But, the politicians of India has been claiming that the India is world biggest democratic country. Is it funny or mockery or well organized political propaganda but totally lie and false?

Communism is not by the design of any ' great man' from his so-called great and talented brain.

Rather, communism is the historical consequence of capital by the existing conditions of capital: (1) reproduction; and (2) Circulation. The effect of reproduction is over production , thereby the result of overproduction is stock and the effect of stock is the disturbance of circulation and the outcome of the

disturbance of the circulation are so many including war, labour unrest, losing the existence of the private ownership of capital by some capitalists thereby there is a social contact among the contenders capitalism to control the reproduction by the some collective or cooperative organizations. UN, IMF, WB etc are the fruit of the great recession of the 1929 followed by the 2nd world war to avoid the recession by controlling the world economy, but failed.

In fact, maximum production and exchange of the world are under the ownership of the some multinational companies under the rule of the IMF. This is the negation of negation of the capitalist private property. But, final negation of the capitalist private property would be socialization of the means of production, and exchange by the working class. Thus, the consequence of repeated recession is socialization of the means of production and exchange.

Therefore, communism will win by the working class alone.

Capitalist class as a buyer of labour power of the wage slaves of the world is the producer of the working class to produce the commodity to accumulate capital by exploiting wage slaves by paying wage.

Therefore, capitalist class is exploiter and the working class is exploited.

Thus, there is contradiction between the capitalist class and the working class by the condition of commodity production to accumulate capital.

Thereby, the outcome of the contradiction of sellers and buyers of labour power of the world is socialism.

And, the culmination of the contradiction of the capitalist class and working class is communist revolution to solve the contradiction of the both classes by vanishing the capitalist private property, by vanishing the commodity production by vanishing the selling and buying system by vanishing the capitalist class by vanishing the capitalist society by common/commune/social ownership of the means of production, transportation and communication and that is communism. So, communism is the historical consequence of capitalism and thereby communism is unavoidable and inevitable.

Communist revolution to solve the contradiction and crisis of capitalism by replacing the so waste capitalism by socialization of means of production, transportation

and communication that is SOCIALISM is the job of only working class alone. Therefore, communist revolution is not possible in one country alone because, capitalism is neither local nor national but a global system thus, the replacement of capitalism is not a national event but global thereby the range of the communist revolution is universal. So, unity of workers of the world is the first condition and the "united action of the leading civilized countries at least is one of the first conditions for the emancipation of the proletariat." - the manifesto of the communist party. Thereby, a communist party is a global party of the revolutionary working class to unite the workers of the world to form it in a unified class to fight against the capitalist class by fighting against wage slavery to vanish the capitalist society by vanishing the wage slavery system by vanishing the reactionary capitalist class along with all weapons and instruments of class including state, IMF, UN, political party, NGO, etc of it by a communist revolution by the revolutionary working class for communism.

But, there is no party to do the same, but there is no option except a communist party to do the same. So, a communist party is a historical necessity. Information Centre For Workers Freedom (www.icwfreedom.org) is working to rebuild the

communist movement to form a communist party to do the same on the basis of science of communism, discovered by Marx and by Engels too, by rejecting all existing ideologies including Leninism-the corruption of science of communism.

A conversation. Dated: 31-05-15.

I have posted one of my articles as : “ Capitalism and Socialism” in a group name as : Socialism and Communism, but in Bengali. But, one of the admin of this group named Zakir Biswas did not responded in this group but he sent me some messages in my wall and finally removed me for this group, and such conversions are as follows, but sorry these are in Bengali :

Zakir Biswas: “আমার সমাজতন্ত্র ও কমিউনিজম পেজটিতে আপনার কোনো লেখা পোস্ট করবেন না। পেজটা নষ্ট হোক - এটা চাচ্ছি না | ধন্যবাদ, ভাল থাকবেন।“

Shah Alam: “ধন্যবাদ। কিন্তু এটি কি আপনার ব্যক্তিগত সম্পত্তি? যদি তাই হয় তবে আমাকে এপ্রোভ করলে কে? আপনি কিন্তু আমাদের গ্রুপ বা পেজে যা খুশি লিখতে পারেন তাতে আমাদের পেজ বা গ্রুপগুলো নষ্ট হবে না। যদিচ, আপনারমতো লেনিনবাদীরা সমাজতন্ত্রের বিজ্ঞানকে দূষণ করতে কোনোক্রমেই কসূর করেছেন না। আপনি কি প্রমাণ করেছেন যে কমিউনিস্ট ইস্তাহার ভুল? আপনি কি প্রমাণ করেছেন

যে, কমিউনিস্ট লীগ ও প্রথম আন্তর্জাতিক কেবল ভুল নয় বরং অকার্যকর ফালতু বিষয়?। আপনি কি প্রমাণ করেছেন মার্কসের পুঁজি অসত্য ও বানোয়াট? আপনি কি প্রমাণ করেছেন যে, এ্যাংগেলেসের সমাজতন্ত্র: ইউটোপীয় ও বৈজ্ঞানিক পুস্তকটি একেবারেই মিথ্যাচারে ভরা? আপনি কি প্রমাণ করেছেন যে, শ্রমিক শ্রেণী ছাড়া আর কেউ বিপ্লবী? আপনি কি প্রমাণ করেছেন যে, পুঁজিবাদী ব্যবস্থা একটি বিশ্ব ব্যবস্থা নয়? আপনি কি প্রমাণ করেছেন, রাষ্ট্রের খরচ ও রাষ্ট্রিক নির্বাহীদের ব্যয় উদ্ভৃষ্ণ-মূল্যের অংশ নয়? আপনি প্রমাণ করেছেন কমিউনিস্ট ইস্তাহার জাল করা বা আপনার ফেরীকৃত সমাজতন্ত্র বিষয়ক তত্ত্ব জায়েজীকরণে ভূয়া কমিউনিস্ট মেনেফেস্টো বানানো অপরাধ নয়? আপনি কি প্রমাণ করেছেন যে, লেনিনের রাষ্ট্রে শোষণ ছিল না? আপনি আমার পোষ্টকৃত পুঁজিতন্ত্র ও সমাজতন্ত্র কেন ভুল তা প্রমাণ করেছেন? না। আপনি ঐ পোষ্ট বিষয়ে এখানে কিছু বলেছেন? না। অথচ, আপনি ইনবস্কের হকুমনামা প্রেরণ করলেন, কিন্তু কেন? খুব ভয় পেয়েছেন? আপনি যা খুশি করুন তাতে আমার কিছু বলার বা করার নােই। তবে লেনিনবিাদীরা পুঁজিতন্ত্রের সেবক যা আমরা অফিসিয়াল দলিলপত্রাদি দ্বারা প্রমাণ করেছে এবং লেনিনবিাদী দলগুলো মার্কসের নাম ভাংগিয়ে েএমনকি কমিউনিস্ট ইস্তাহারই কেবল নয় বরং খোদ পুঁজি গ্রন্থের জাল-ভূয়া অনুবাদ প্রকাশ করেছে তাতে আমাদেরকে বলতেই হবে। যোহোক অমন একটা হুমুদারীর জন্য আপনাকে করুণাও করার অবকাশ নাই। যেমনটা চান তেমনটা থাকুন। আর কি বলার আছে। ধন্যবাদ।“

Zakir Biswas: “আপনাকে এড করেছে রেজাউল। যিনি এই জগতের শিশু।আমি আপনাকে রিমুভ করে দিছি। ব্লক করতে চেয়েছিলাম।”

Shah Alam: “তার মানে এটি আপনার প্রাইভেট প্রাপাটি নয়। অথচ, আপনি একাই রিমুভ করছেন। বেশ ভাল।“

Zakir Biswas: “আর এই পেজটা আমি খুলেছি। এখানে ৯৯% লেখা আমার অনেকেই

জানে এটা আমার করা পেজ। এবং এখানে এড করতে আমার কাছ থেকে অনুমতি নিতে হবে- এই স্ক্যান রেজাউলের হয় নাই, তাই সে এড করেছে। অনেকেই অনুমতি নিয়ে এড হয়েছে। এই পেজটা অনেক যত্নে গড়া। আপনি আর বিরক্ত না করলেই খুশি হবো।”

Shah Alam: “বেশ বেশ। জাল দলিলকারী, জাল দলিলের সুবিধাভোগী বা সমর্থনকারীরা যে এমনটা করে তাতো নতুন নয়। আপনি কিন্তু আমার একটা বক্তব্যকেও ভুল বা অসত্য প্রমাণ করেননি বা লেনিন সাহেবেরা সমাজতন্ত্রের বিপ্লবকে দূষণ করে তাও দাবী করতে পারেননি।

অথবা, এটাও আপনি দাবী করেননি যে, কমিউনিস্ট ইস্তহার বা পুঁজি গ্রন্থটি লেনিনবাদী দলগুলো বিকৃত করেনি। আপনি কিন্তু বলেননি যে, এংগেলেসের লেখা সমাজতন্ত্র: ইউটোপিয়ান ও বৈজ্ঞানিক পুস্তকটি মিথ্যাচারে ভূরপুর। আপনি কিন্তু দাবী করেননি যে, কমিউনিস্ট লীগ ও প্রথম আন্তর্জাতিকের এদ্বিময়ক বক্তব্য ভুল। মার্কসরা বলেছেন -পুঁজিতন্ত্র একটি বিশ্ব ব্যবস্থা, তাই একক কোনো দেশে তার প্রতিস্থাপন সম্ভব নয়, এমনকি কমিউনিস্ট লীগ ও প্রথম আন্তর্জাতিকের নিয়মাবলীতেও তা বলা হয়েছে এবং মার্কসের পুঁজিতন্ত্র বিষয়ক এবং পুঁজিতন্ত্রী ব্যবস্থা বিনাশে কেবলমাত্র শ্রমিক শ্রেণী বিপ্লবী তাই কৃষক কেবল রক্ষণশীল নয় পুঁজিপতি শ্রেণীর অপরাপর অংশের মতোই প্রতিক্রিয়াশীল, এসব কিছুই আপনি খন্ডন করেননি। তবে মহা ঋমতাধরের মতো আপনাকে বিরক্ত না করার নছিতহত করেছেন। আমি আপনাকে জানি না-চিনি না, কেবল এটুকু বুঝলাম আপনি একজন লেনিনবাদী। উল্লেখ্য, কমিউনিস্ট পার্টির ভুয়া মেনিফেস্টোর বিরুদ্ধে উপযুক্ত প্রমাণাদি সমেত আমরা - “ লেনিনবাদীরা [সি.পি.িএস.ইউ- সি.পি. আই(এম) কমিউনিস্ট ইস্তহার অনুবাদেও জালিয়াতি করেছে” বই প্রকাশ করে ঐ বইটি সি.আই. (এম) এর দড়িবাজ -ফেরেববাজ নেতাদের গোছরীভূত করা হলে তাদের অনেক চেলা-

চামুন্ডা আমাকে নানান হুমকি-দামকি দেওয়া সহ আপনার মতোই তাদের নানান গ্রপ, পেজ িএমনকি অফিসিয়াল গ্রুপ - “ গণ শক্তি” হতে রিমুভ করেছে। কিন্তু, তারা কখনো বলেনি যে, আমাদের বক্তব্য মিথ্যা বা তারা জালিয়াতি করেনি বা প্রিন্টিং মিসটেকে এসকল বিষয়াদি ঘটেছে। কারণ; তারা জেনে-বুঝেই শ্রমিক শ্রেণীর বিরুদ্ধে ঐ সকল দুষ্কর্ম করেছে। আপনার বহর তাদের চেয়ে বড় কিনা জানি না , তবে আমাদের বইখানি তারা বাজার থেকে যেমন তুলে দিতে পারেনি তেমন নেট হতেও ডিলিট করতে পারেনি। আপনি লেনিনের শিষ্য বৈ সমানতো নন, আমাদের আরেকখানি বই : “ লেনিন চীট এন্ড বিট্রেয়িং মার্কস সো আই এম এফ দি ওয়াল্ড লর্ড এন্ড... ” এবং এটিও বাজারে ও নেটে আছে। আতঃপর, আপনি বিরক্তিবোধ করলেও আমরাতো নাছার, কারণ আমরা মিথ্যা বা ভুয়া লিখিনি। তাছাড়া, রাষ্ট্রীয় পুঁজিতন্ত্রকে সমাজতন্ত্র বলে নানান বিষাক্ত জিনিষ লিখে কেবল সমাজতন্ত্র নয় বরং পুঁজিতন্ত্র সম্পর্কেও মিথ্যাচার করবেন, আর দুনিয়ার শ্রমিকরা কেবল আপনার মতো লেনিনবাদী জালিয়াতেদের সেলাম দিবে, তা ভাবেন কি করে? সন্দেহাতীতভাবে, দুনিয়ার শ্রমিকেরা তাদের মুক্তির শর্তে পুঁজিতন্ত্রকে যেমন দূরীভূত করবে তেমন পুঁজির চরিত্র মতোই তামান ফেরেবাজ, জালিয়াত ও ভন্ডদের নিয়ে গঠিত পুঁজিপতি শ্রেণীকে কেবল পরাস্ত নয় বরং চিরকালের মতো ভেনিশ করে, তাই বাদ যাবে না সমাজতন্ত্রের মুখোশদারী কার্যত ভুয়া সমাজতন্ত্রের মোহে শ্রমিক শ্রেণীকে বিভ্রান্ত ও দেশে দেশ বা জাতিতে জাতিতে ভাগ-বিভাগকালী বিষয়াক্ত লেনিনবাদ সমতে লেনিনবাদী মোড়লেরাও। আপনি তাদের একজন হলে আমার কিছু করার নাই। এটাই আপনার পেরিণতি। শেষত পাবলিকলী পোষ্টকৃত বক্তব্যের জবাব পাবলিকলী দিতে না পারে যে ভীতুরা তা রিমোভ করে বা একান্ত ব্যক্তিগত ইনবক্সে এসে এসব ফাউল কথা বলে তারা শ্রমিক শ্রেণীর কনুগারও অযোগ্য। আমরা কৃষক নয়, শ্রমিক, শ্রমিক এবং শ্রমিক। তাই, প্রতিক্রিয়াশীল কৃষক দরদীদের সাথে শ্রমিক শ্রেণীর বৈরীতা বৈ মিত্রতা নাই, কারণ কৃষকও ক্ষেত মজুরের শ্রম-শক্তির ক্রেতা হিসাবে শোষকও বটে।।”

Zakir Biswas: ভাই, আপনার সমস্যাটা কী। আমি আপনাকে নিষেধ করলাম, তারপরও প্যাঁচাল পাড়ছেন!” And finally Shah Alam: “Even a stupid is not always stupid but a Leninist criminal is free from sense common. Thus, they are very much expert to quarrel to hide their crimes to avoid their consequence but not defending. Even, they are free from shame to do such nonsense without considering the views and request of others because, they are blind to their selfish and sectarian interest. Good bye.”

Capitalism is neither local nor national but a global system, currently ruled by the some global syndicates including IMF-the controller of the world economy to protect the moribund capitalism, founded by the winners of the 2nd world war including Stalin by ending the colonial policy -the integral policy of capitalist development to conquer the whole world to introduce the capitalist system globally.

Therefore, the replacement of capitalism by socialism by working class alone is not possible in one country alone. And, socialism is not a national but a global society. Noted, USSR was never socialist but a state of state capitalism, where the rate of exploitation was much higher than USA.

So, there was no socialism or there is no socialism.

But, the historical consequence of capitalist society is socialist society by the existing conditions of capital. In fact, capital is the cause of the disappearance capitalist society by the revolutionary working class alone. Undoubtedly, the out come of the contradiction of capitalist class and working class (Buyers and sellers of labour power of the world) is the socialization of means of production, transportation and communication that is the that society is socialist society, thus socialist society is free from classes and class rule. thereby, socialism is free from all class weapons and tools including state, political party, UN, IMF etc.

So, the disappearance of capitalism by the working class and the emergence of socialism- a society free from exploitation is unavoidable and inevitable.

One out of nine of the world population is suffering from the hunger.

On the other hand per head average yearly income of the world population was not less than \$ 12,800 in the year-2014.

Though, not more than 2.7 billions labour force has produced the same amount, out of 7.2 billions of the world population.

There are near 90 millions are millionaires and not more than 1900 are billionaires out of the 7.2 billions of the world population.

Undoubtedly, no billionaire or millionaire has produce any single amount of value thereby, no one of them has produce surplus-value that is capital-the unpaid labour or the unpaid part of commodity- produce by the wage slaves.

Stock of the world in the year 2014 is not less than \$ 85 Trillions.

However, have any one need to expend \$ 12,800 per year to live a modern life? No. Have there any necessity to produce such amount ? No.

In spite of that there are 1.2 billions people are living under the extreme poverty line those have no ability to expend \$ 1.2 per day and not less than 2.2 billions people of the world are living under the poverty line. But why? Certainly sure, not the producer but the exploiters are the owner of the capital by paying wage to the wage slaves to produce commodity to accumulate capital.

Therefore, more than 800 millions of people of the world has been suffering not only from the hunger but also serious miseries and the whole working class of the world has been suffering form the poverty along with so many miseries and hardship because, there are some millionaires and a few billionaires.

Such nonsense condition of the moribund capitalism is not only a matter of shame but totally unfair, unjustified, illogical, intolerable and inhuman.

Noted, only the cost and expenditure in the sector of state to maintain the moribund capitalism is not less than 29.50% of the GDP of the world. And how much the cost of all other organizations of capitalism to serve the capitalist interest and to protect the waste capitalism along with a reactionary capitalist class, including UN, IMF, Political parties, etc?

However. If there is no millionaire or billionaire there is no poor or hungry man or sufferer, but all are happy with a most modern life to live a lovely life with full sense of humanity.

So, there is no alternate except vanishing the exploitative capitalist system by the socialization of means of production, transportation and communication by the untied action of workers of world to free the whole human being from all such nonsense inhuman conditions including hungry for diet.

Therefore, the only option is to unite the workers of the world to do the same. Workers of the world' unite.

State is nothing but a powerful weapon of the ruling class to oppress and overpowering the ruled classes.

State by origin is a machine to serve the parasitic interest.

State by practice is a strong tool to protect the parasitic class.

State by declaration in capitalism is a democratic things thus, its a useful machinery for all of its jurisdiction but such claim is nothing but a false and lie thereby its a political propaganda to confuse the ruled class -the working class.

State under the rule of the IMF is nothing but a defunct instrument to implement the policies made by the IMF by making sure its inability because of inability of the disabled capitalist class to rule the capitalist society.

In fact, capitalism is in moribund condition thereby capitalist class has lost its ability even to save the lives of aspirants for selling the labour power.

Therefore, increasing the number of states is nothing but the failure and inability of state to serve the capitalist interest to protect the moribund capitalism.

Noted, if there is no class there is no utility of a state to serve the interest of the ruling class.

Thus, there is no state in socialism - a classless society.

But, the USSR was a state founded by the Bolshevik Party by Lenin and others.

There was a government, but there were 139 unknown or hidden mass burial-ground at Malaysia, is it believable? Is any part of a country out of its government ?

If the said part of the Malaysia was out of control of the GOM, then it was possible to kill thousands innocent people but aspirants to sale their labour power to live by the brutal traffickers.

But, if there was a GOM with all departments of it including police and other forces then without the consent and collaboration of some government officials has committed such inhuman and heinous brutalities?

Therefore, there was a nexus among the traffickers and Government officials of the respective countries.

Are the executives of the concern countries of the victims free from the responsibility of such mass killing by the traffickers?

Is the UN free from the liability of such genocide ?

There was no war but there was genocide.

Are the victims not the member of human being?

Where is the declaration of universal human rights-1948 and others to protect the lives of the mentioned victims?

Are the dear and nearest or relatives of the victims right to know the facts?

What would be happened about the identity of the victims?

Are not the relatives entitle to get required fund to live

from the concern authorities and from the liable criminals?

Is any country free from the responsibility to make sure the safe and secure journey for the immigrants to live by selling their labour power to produce commodity to accumulate capital for the capitalists?

In fact, the reactionary capitalist class has lost its ability to rule the capitalist society by protecting the lives of sellers of labour power even for the interest of capital.

But, working class can not allow any one for such brutality to kill and graved the such interested sellers of labour power.

Therefore, unity of workers of the world is unavoidable condition to fight against such reactionary capitalist class to win the world by defeating the capitalist class where there is no political boundary to resist and restrict the movement of any one all over the world.

He who is not against the private property to vanish it by the working class, but he is claiming that he is against crime including rape, thereby, he is working to reduce it by the strict implementation of the laws introduce by the private property holders is nothing but he is doing politics to protect the capitalist interest or he is a tool of politicians or a beneficiary from such nonsense politics or a stupid.

Noted, the private property is the cause of all crimes including rape. Crime is nothing but the violation of law introduced to serve the interest of the private property holders.

Therefore, if there is no private property, there is no law to protect it, thereby there is no necessity of law thus, there is no crime by violating the laws because, there is no law.

So, there is no option except to vanish the capitalist private property for becoming free from the miseries and sufferings from the crimes including rape.

If there is a VIP, there are so many non-vip people including non-important.

If there is a VVIP, there are so many VIP and non-vip people including non-important..

Therefore, there is discrimination not only among the people but also between VIP and VVIP people.

But, the capitalist class is for democracy with equal right of voting to elect the managers of the capitalist system by electing executives and law makers of a state by declaring the equal right to get the equal treatment from the law and judiciary by their respective so-called democratic constitutions.

Therefore, there is self-contradiction between the equal right of all by the constitution and practicing the policy

for VIP or VIPP.

In fact, not equal right but the discrimination is the reality in capitalist society.

Therefore, capitalism is not free from such self-contradictions.

Rather, capitalist class is not free from the practicing the double standard even in the field of law and democracy.

Leninist bosses has been claiming that the great leader Lenin has developed the theories of Marxism by adding so important things in the store of Marxist ideology. Therefore, Marxism is incomplete without Leninism. Thus, no one be a communist if he is not a Marxist – Leninist.

Disciples of Trotsky, Stalin, Mao, Ho-Chi-Min, Kim, Hoxa etc are already claiming that the respective leaders and teachers of them has played a significant role to advance the Leninist ideology to use in practical field by adding their valuable contribution in the store of Leninism. Therefore, Leninism is not sufficient to

practice so, mentioned great bosses are essential to be a communist.

Thus, they all are not unified in a Leninist party rather they are divided in different parties by following the political line of their respective teachers- Trotsky, Stalin, Mao, Ho-Chi-Min, Kim etc though they all are pure Leninist by their claim but every party of them is denied as Leninist party by other Leninist parties.

How funny!

However, yet no one of the Leninist camp has explained the said contributions of their 'great' teachers to developed and advanced the Marxism to use it to be a communist by marking and indicating the error or short comes of the writings of Marx or Engels, even none of them has identified the limitation of writing of Marx or Engels about capital and capitalist society or the consequence of capitalist society by working class etc for such contributions of them were necessary.

Sure, they say so many nonsense but these are not at all related with the writings of Marx and Engels about capital, capitalist society, contradictions of capitalist society or the historical consequence of capitalism – the socialism by working class alone etc and etc. Rather, claimed nonsense contributions of Lenin that is Leninism is nothing but the corruption of science of communism-

discovered by Marx and explained by Engels too by distorting the writing of both Marx and Engels.

Even, CPSU or CPI(M) did not feel shame to distorted the manifesto of the communist party to justify their misdeeds against working class to serve the capitalist interest.

Moreover, Marx never produced any ideology like as Marxism, rather, he has discovered science of communism by discovering the code of capital and the code of society for change. Science and ideology is not same but totally opposite. The end of ideologies is the condition for a scientific society. Socialism- a scientific society will vanish all ideologies including Leninism.

Undoubtedly, Marx and Engels both were scientist and worked for a scientific society by the working class. Therefore, they were not Marxist but communist. The basis of any ideology is the private property to protect the interest of private property holders but Marx and Engels were against the private property for a common ownership of the means of production, transportation and communication by abolishing the private property by the working class by the existing conditions of CAPITAL.

Were Marx and Engels Leninist or Maoist etc ? Question does not arise at all.

Therefore, were they communist without Leninism? Certainly sure, they both were communist.

Thus, have there any basis of the said claim of the Leninist bosses about the claimed development of so-called Marxism by Lenin? No. Its totally lie. Thus, Leninism is the Marxism of today is nothing but a fabricated false story. So, the stories about Leninism is nothing but a myth.

In fact, Lenin was a cheater, fraud and liar even about Marx too.

Therefore, Leninist bosses are not free from such nonsense things including lie even about the writings of Marx by branding these as Marxism, which is not only a heinous effort to undermine Marx himself by using the name of Marx as their idol but also distorting the writings of Marx by Lenin too.

Leninist boss Ho-Chi-Min was for the declaration of separation of USA which was not against slavery, by his own written declaration of independence of Vietnam.

Thereby, he was not against even slavery. Thus, he was a supporter of slavery, but, the end of wage slavery is the condition for the socialism. By the same declaration, he was for the declaration of the France revolution-1789, which was an important but a bourgeoisie revolution. Therefore, Ho-Chi was for the capitalist interest by supporting the said declaration.

Undoubtedly, the said revolutionary government of France has introduced a law against the workers of France to restrict the assembly

of workers and any such assembly of workers was punishable by the said law.

Sure, Ho-Chi was not for the interest of the working class rather, he has founded a state of state capitalism by following the Leninist politics but by the design of 3 key boss of the winning party of the 2nd world war including the President of the USA, 1943.

Sure, Mr.Ho-Chi was the president and Prime Minister of the Vietnam at the same time and he was the profiteer of his party thus he was the Chairman of his party till his death.

He was the declared guide of his nation what was Mosses too.

Therefore, He was for cultism and he has exercised it personally too by introducing even currency with his picture.

And he was for the Pyramid culture of Egypt, reintroduced by Leninist boss Stalin at USSR.

Though, the Vietnam was not out of the IMF-the controller of the world economy to serve the capitalist interest to protect the moribund capitalism, founded by the winners of 2nd world war including Leninist boss Stalin, by ending the colonial policy; But Mr.Ho-Chi was a so-called nationalist and patriot by his constitution to constitute his state.

Though, nation state is defunct under the rule of the IMF.

Sure, workers have no nation and country but they have a world to win by losing their chain by defeating and vanishing the capitalist class and capitalist system. But, he has tried to chain the workers of the Vietnam by nationality, patriotism and country.

Certainly sure,wage slaves of the Vietnam was bound to protect his state as their national duty even by sacrificing their lives if necessary but they have no scope even to bargain their wage and others benefits. Just cheat and betray with the working class.

Undoubtedly, the capital, invested at Vietnam in any sector from any where is protected by the government of the Vietnam and the right of private ownership of its is guaranteed by the constitution of Vietnam for

not nationalized. But, the abolition of private property is the condition for the socialism to end the wage slavery to end the exploitation. However, the constitution of USA do not guaranteed such right of private property but its for nationalization of any property for the public interest.

Therefore, if the Vietnam of Ho-Chi-Min is a socialist then why not the USA is million times socialist than Vietnam?

Noted, communism is a discrimination free society thus, there is no room for any great or extra-ordinary one or any hero like Ho-Chi-Min.

(2)

Socialism, originated from the capitalism and socialism developed from the socialism is not same.

But, that does not mean that there is a ' GREAT CHINA WALL" between both the stages of socialism. Or there is no difference between socialism and communism.

Undoubtedly, both stages of socialism are free from wage slavery, exploitation, discrimination, class, class weapons etc nonsense -the factors of capitalist society.

Certainly sure. the replacement of capitalism is socialism by the working class alone for their emancipation by the existing conditions of capital.

Noted, wage slavery is the cause of all miseries of wage slaves, therefore, vanishing of wage slavery is the condition for the emancipation of wage slaves by ending exploitation of buyers of labour power of the world by ending the private property.

No doubt, all able bodied are workers to produce the all necessaries for the all of the world in socialism.

Thus, there is no wage slaves thereby, there is no class thus there is no class weapons even political party in socialism.

But, there is an association of all of the world to cooperate to produce all required things for all of the world and to communicate all required information to all. by all and all are equally fit to elect and contest in any post of the association but all elected persons are under re-call system. But, Lenin has founded a state of state capitalism at Russia by a planned military coup to protect the decayed capitalism by confusing the workers of the world by such false and bogus claim that he had founded the first socialist state.

Noted, there was not only wage slavery to produce commodity to accumulate capital by exploiting the wage slaves, rather, the rate of exploitation at USSR was much higher than USA.

The private property holders have need faithful wife to protect their property by their legitimate inheritances. Therefore, they are for chastity of a wife. Thus, they are for wifely fidelity of girls and women. So, there are laws to protect the chastity of women, introduced, developed and maintained by the private property holders including capitalist class.

The violation of such laws is 'rape' therefore, such rape is punishable by the laws of capitalist class too, followed by the masters and lords. Therefore, women are nothing but the reproductive machine to serve the interest of the private property holders by the laws of capitalist class too. Thus, women are nothing but the sexual commodity to use but owned by the males, thereby, husbands are nothing but the owners of their wives as wives are sex slaves of husbands to produce the legitimate inheritances . Therefore, wives are nothing but a useable sex commodity by their husbands in any time, in any way without considering even the ill health conditions of a wife by the law of masters and lords.

But, no doubt women are not commodity rather human being though yet chained and undermined by the private property holders. Undoubtedly, women are not a matrix to carries the legitimate inheritances for the private holders but they are equally equal shareholder to produce any new baby by their 23 Chromosomes. Therefore, women are not only carer but producer of a new baby. Thus, no one can use a woman body as a sex instrument to produce his inheritance, if she have freedom by vanishing of the private property with all rights of inheritance by the working class- the producer of capital.

Even, no one can use the body of a women to produce their babies without consent of the concern woman. But, existing laws of the private property holders do not acknowledge the fact to recognize the equal share of women to produce new generation along with equal dignity of women. No doubt, the capitalist society based on the private property has been destroying the private property by the existing conditions of capital. Even, the capitalist class has torn asunder the ties of families based on the capitalist private property and that is one of the self-contradictions of capitalist class. Undoubtedly, the consequence of capitalist society is socialism, by the so many self-contradictory jobs of capitalist class and thereby the historical consequence of capital is nothing but the disappearance of family by disappearance capitalist private property by socialist ownership of the means of production, transportation and communication by recognizing the individual as the basic unite of the new society-socialism. Therefore, every one is equally dignified in socialism, thereby all are free to do anything including love and union. Thus, any such sexual union without consent of anyone of the partners is nothing but a nonsense event of rape even by the growing concepts,

originate from the moribund capitalist society. So, sexual intercourse with a woman even by husband without consent of his wife is nothing less than a nonsense event of rape. But, Leninist parties are working for enforcing and strict implementing the laws to protect the chastity of women by implementing the concern laws, introduced by the private property holders to punish the rapist but not husbands to rape their wives. Therefore, such activities of the Leninist parties is nothing but a heinous effort to protect the private property by chaining the woman by the concern laws for so-called chastity by confusing the working class. Noted, a communist have no separate interest except working class interest, and working class have separate interest except vanishing the private property for their emancipation by socialism. So, Leninist parties are nothing but a tactful and cunning servant of capitalist interest to protect the moribund capitalism. The capitalist class has torn asunder the the ties of feudal that bound man to his natural superiors to develop the capitalist mode of production. Noted, capitalist society has sprouted from the ruins of feudal society.

The capitalist system has been uprooting and scattering the family ties and relations by the existence conditions of capital: (1) Reproduction; (2) Circulation.

The historical consequence of capitalism is socialism- a society free from capital by the existing conditions of capital.

Therefore, the historical consequence of the capitalist family is nothing

less than vanishing it by the united global action of the workers of the world by selling and buying system by vanishing the private property - the basis of the capitalist class and its family.

Noted, the private property is the cause of all heinous jobs including killing, rape etc & etc. So, not family but the individual is the basic unit of the new society-Socialism, where every one is equally dignified thus, all are only human being with full sense of humanity in socialism thereby, all are free to do anything including love and union thus, all are lovely and friendly, thereby any such nonsense including rape is unthinkable, in fact all such heinous and rubbish terms including crime, punishment, killing, rape etc & etc will be disappear and unknown in socialism.

10 died in the floating boat of slave traders on the Andaman Sea from want of water. They are drinking urine to live in the same floating boat. They were not allowed to entrance in Indonesia, Malaysia .

Some boats were returned to the sea, but there is no food, and drinking water in the floating boats of the slave traders.

There are some floating boats with the distressed people from Myanmar and Bangladesh in the sea without captain.

Total number of such endangered people is not less than 8,000.

No concern countries has been taking required and effective measures and steps to save the lives of these deceived people by the effect of capitalist crisis. The victims are also cheated, tortured, and killed by the fraud traffickers . Some officials of the concern states are also involved with such heinous business of trafficking. Reports has published that the responsible nexus has become so rich by committing such crimes against humanity.

Even, required but urgent actions by the global agencies including UN are not effective to save the victims. But, these organizations are claiming that they are working for the human on the basis of Universal declaration-19148, to save the human being from any such waste situation including war.

Are the mentioned victims Human being?

13-05-15.

They will die, if not rescue.

They are in different boats in different water body including Andaman Sea.

There are not less 8,000 modern slaves are waiting to die or rescue from Bangladesh and Myanmar. Because, they are illegal immigrant but cheated by the capitalist frauds. Even, no one knows that how many such victims were killed by the traders of modern slavery in the forest of different countries including Thailand. So sad.

Victims are willing to sale their labour power in the world labour market to the buyers of labour power to produce commodity to accumulate capital for the expected buyers of labour power of the world to live, though they will be exploited by the buyers of labour power of them.

A commodity have use and exchange value but if not sold the commodity have no value.

Therefore. there were so many wars including 2 world wars among the capitalist class to sale their commodities for their survival. Colonial policy was introduced and implemented for the market to sale the commodities of colonial capitalist to develop the capitalist system globally.

The reactionary capitalist class is going to make sure the free movement of commodity and capital globally by practicing the politics of globalization for make sure the global free market under the strong administration of the WTO by denying, ignoring, undermining and ineffective

the political borders of the world created by the so-called nation states.

But, the capitalist class is not ready to allow the sellers of labour power to move freely in the global market to sale their labour power to live.

In fact, the reactionary capitalist class have no ability to allow the wage slaves to live by selling their labour power. Therefore, the capitalist class has lost its ability to rule the society, " because, it is incompetent to assure an existence to its slaves within his slavery,because it can not help letting him sink into such a state, that it has feed him, instead of being fed by him."- The manifesto of the communist party-, 1- Bourgeois and proletarians.

But, yet the unfit capitalist class is exist because, workers of the world are not united to fight and vanish the capitalist class. Even, there is no communist party to do the same.

However, concern states and some global agencies including UN are not free from rescue and rehabilitate the victims and their dependents because of their commitment to the universal declaration of human rights-1948.

Lose of life of any single victims will be consider not only a matter of negligence and cruelty to them but inhuman jobs of the concern authorities even by the standard of the said declaration for violation of it.

All concern authorities will come forward to help and cooperate the victims is expected.

Killing any one for any reason by anyone by any way is not only a cruel and heinous jobs but its against the natural existence conditions of a human being by denial the natural effort of any one to live thereby, killing man by man is not only a dangerous action only against a man but its against humanity by ignoring the natural love to live a lovely life by all human being.

Nothing but only the private property is the cause of all crimes including killing.

Therefore, if there is no private property, there is no reason to be exist any crime even killing -originated from the private property, introduced by the masters for their parasitic interest.

Thereby, killing is nothing but a dangerous action to serve and protect the parasitic interest by protecting the private property- the source, store of parasiticism-the cause of crimes and punishments including killing.

Noted, killing is not only a crime but punishment by the law thereby a concepts by such laws to punish but originated from the private property.

Sure, working class will vanish the private property to vanish parasitism by vanishing capitalist class.

Thus, no one have any option except to sided with revolutionary working class to end the killing along with all nonsense crimes and punishments for a lovely life of all to live with uninterrupted peace by vanishing the wage slavery system, based on the private property.

So, no one have any option to be a communist to unite the workers of the world to fight against wage slavery to vanish it by vanishing the private property by working class alone by the united forceful action of the workers of the world to end the punishments and crimes including killing to fight against killing.

Exploiters are not only expert to exploit but they are very much expert to confuse the exploited not only about exploitation, but also about the legal right of exploiters by the right of the private property- the cause of all evil jobs including lie, cheat, fraud, rape, killing etc to exploit the exploited not because that they are exploiters rather they are so kind to help the exploited even to live by the kindness of exploiters by producing so many literatures including poem, drama, story, film etc full with lie.

There are so many writers, poets, dramatist, director etc to do the same as they are beneficiary from the exploitative system.

Exploiters are not only expert to exploit but they are very much expert to confuse the exploited not only about exploitation, but also about the history – a factual statement of the class struggles of the past time by manufacturing so many descriptive but false and bogus stories to justify their authority to rule society by overpowering the wage slaves-the producer of capital in this capitalist society.

There are so many story writers but known as historians to do the same as they are beneficiary from the exploitative system.

Exploiters are not only expert to exploit but they are very much expert to confuse the exploited not only about exploitation, but also about the politics- the supreme policy of all evils by born condition of it by manufacturing so many descriptive but false and bogus stories by glorifying not only politics but also politicians to justify the politics and political role of politicians to maintain and protect the exploitative capitalist system by oppressing, and overpowering the wage slaves –the

exploitative class to produce commodity by paying wage to accumulate capital by state and politics .

There are so many story writers but known as political philosopher or observer of politics or political analyst or commentator to do the same as they are beneficiary from the exploitative system.

Exploiters are not only expert to exploit but they are very much expert to confuse the exploited not only about exploitation, but also about the writers, poets, dramatists, directors as considering them as extra-ordinary or great teacher, guide etc nonsense by not only manufacturing so many fabricated stories about their so-called greatness or extra-ordinary capacity and quality but also introducing so many customs, traditions to celebrate their death and birth anniversaries to worship them to justify their such parasitic role to maintain and protect the exploitative capitalist system by chaining the wage slaves –the only hope for the best future of all of the world by such nonsense slavery concepts.

Leninist writers, poets, dramatist, directors etc are not free from doing the same nonsense by claiming that they are also guide, teacher and savior of working class.

But, working class as a creator of all capital and thereby capitalist means of production, transportation and communication have no need any such nonsense but parasitic teacher, savior or guide, rather, working class will vanish parasiticism by vanishing the exploiter capitalist class including all hired writers, poets, dramatists, directors, philosophers etc but beneficiaries from the capitalist system by vanishing the exploitative capitalist system for their emancipation by communism-a society free from exploitation and thereby its free from so-called extra-ordinary or great teacher or guide rather all are not only scientist but also equally dignified in communism.

In details: No Leninist Party is communist party, a book, published by the ICWF @ www.icwfreedom.org.

They are nationalist therefore, there are against colonial rulers but they are not against the capitalist rules introduced by the colonial rules to exploit the wage slaves to accumulate capital, and they are Leninist too.

Noted, colonial policy, practiced by the revolutionary capitalist class was not only essential but also integral part of the capitalist development but concluded it by the winners of the 2nd world war to protect the moribund

capitalism by the rule of some global syndicates including IMF, to practice the politics of globalization for the interest of the reactionary capitalist class.

Therefore, claiming such nationalist by the said claimers even after the end of the colonial policy is not only a fabricated lie but also a political propaganda. How funny! They are patriot therefore, there are for the development of independent national economy thereby they are against colonial rulers but not the capitalist mode of production - a global system based on the private property to rule and overpowering the exploited wage slaves to accumulate the capital, thus they are not against the rule of the IMF and they are Leninist too.

Noted, nations are inter-dependent under global net of capitalism, and currently, nation states are defunct thus dead under the rule of the IMF, thus, practicing the policy of independent national economy by a dead state is not only lie but a false political propaganda of the capitalist bosses including Leninist to confuse the working by the emotional but fabricated concepts of patriotism to chain and divide them by nation and country to protect the moribund capitalism with a disabled capitalist class to rule the society by paying regular wage too.

Therefore, claiming such patriot by the said claimers is not only false but an intentional and ill motivate propaganda. Just mockery!

They are democrat thus they are for national state thereby they are for a national government by choice of the voters of their respective states to advance the country

even to reduce the poverty so, they are against the colonial rules, but they are not against foreign investment rather they has been hunting sources to invest the foreign capital by creating a friendly environment by taking all necessary measures including killing the wage slaves to control, by taking all required steps by denying all traditional ideas, concepts of democracy even by destroying the election system for the capitalists of all over the world to invest to exploit the wage slaves roughly and they are Leninist too.

Noted, the economic policies of the world has been making by the IMF to serve the capitalist interest globally, thereby, the executives of the defunct states are nothing but the local authority to implement the policies of the IMF in their respective areas by oppressing and overpowering the wage slaves by ignoring the traditional ideas and concepts of capitalist democracy, in fact democracy is dead under the rule of the IMF.

Therefore, claiming such democrat by the said claimers is not only false but a nonsense propaganda. Just cheating. Again, Lenin was for the foreign investment to construct his state - a state of state capitalism, where the rate of exploitation was much higher than USA, but he claimed that his state was a socialist.

Such claim of Lenin is not only lie but also cheating. More details: Lenin Cheat & Betraying Marx So IMF The World Lord And-----, a book, published by the ICWF @ www.icwfreedom.org.

Masters has introduced the customs of worship to them to chain the others by the chain of slavery to justify their divine right to rule and oppress to others to exploit the

slaves by overpowering by such practice of worship to the exploiters.

Lords were for such worship.

Therefore, they had introduced so many forms of worship including worship to idols by various manners including offering the flowers- the reproductive organ of plants, and fruits, milk etc to get relief by the grace of such idols.

But, capital is nothing but the unpaid labour. And capitalist society is a society of certainty of uncertainty thus no one is safe and secure in this capitalist society by the existing conditions of capital, produce by the wage slaves.

Therefore, there is no option except vanishing the capitalist class by replacing the capitalist society by socialism by working class alone for security and safety of all of the world.

Undoubtedly, socialism is a scientific society thereby every one of the socialist society is a scientist thus, there is no room for any master or lord or parasitic to do any thing for anyone in socialism. So, socialism is a society free from all nonsense customs, cultures including worship, introduced by the exploiters for their exploitative interest by denying the dignity of ruled, oppressed and exploited.

Such scientific analysis of societies and formulation about socialism has done my Marx- a communist who has discovered the science of communism by discovering the code of capital and the code of society for change.

So, as a communist Marx was not for any such discrimination among the human being and thereby he was not for worship.

But, Leninist bosses has been worshiping even to him by offering the flowers to his statue.

Even, Leninist boss Stalin has re-introduced the Pyramid culture of Egypt. There are so many Leninist against Stalin but no Leninist is against such Pyramid culture.

Sure, the culture of worship to anyone by anyone is nothing but not only practicing the politics of masters and lords but also acknowledging and recognizing the disparity and discrimination among the human being by denying the equal dignity even undermining the dignity of human being.

Therefore, worship to Marx by any way is nothing but not only undermined but also denial the Marx along with science of communism.

Sure, Leninist bosses are not only master but also slave by practicing such nonsense including worship to Marx.

But, the end of all types slavery including wage is the condition for communism.

So, no Leninist is considerable even to be a secular capitalist due to such practice to worshiping Marx.

(1)-

He who try to roll back the wheel of history is a reactionary.

The East India company has introduced the capitalist mode of production at India by defeating the beneficiaries of the ancient Indian society with self-dependent but so poor economy and the that introduction of capitalism at India was a revolutionary job done by the said company for the interest of capitalist development. Sure, capitalist mode of production is more advanced then the self-dependent poor economy, but the capitalist class as a whole is exploiter of exploited wage slaves -the producer of capital.

Therefore, the relation of the capitalist class and working class is not friendly but antagonistic by the condition of commodity production.

Thus, there is class struggle against capitalist class by the working class. Thereby, the out come of class struggle of working class against capitalist class is a classless society- socialism.

Undoubtedly, defeated beneficiaries of ancient society of India are also against the capitalist class. But, they are not the friend of working class-the production of

capitalist class.

Therefore, any steps to return to the ancient society of India is nothing but a so reactionary job.

Sure, any steps to vanish the capitalist class to vanish the capitalist mode of production by working class for a most modern scientific society is a revolutionary job.

Leninist parties of India are against the introduction of capitalism in India by the East India company.

Even, these parties are for the reactionary steps by some Indians those were tried to restore the self-dependent but poor economy of India as considering them as national hero.

But, workers have no nation and country but they have world to win by losing their chain by defeating capitalist class.

Noted, Karl Marx was for the such revolutionary job by the revolutionary capitalist class to develop the capitalist mode of production by defeating the self-dependent but so poor economy of not only at India but all over the world.

But, Leninist parties has been claiming that they are for socialism. How funny! Even, they did not feel shame to use the name of Marx to justify their Leninist crimes against working class.

Marx did not produce any ideology.

Marx has discovered the science of communism by discovering the code of capital and the code of society for change.

Noted, science and ideology are not same but also total opposite.

Sure, Lenin has produced an ideology like as " Leninism" -the corruption of science of communism to serve the capitalist interest by using the name of Marx as Marx was a communist.

Thus, it was necessity to use the name of Marx by Lenin to confuse the workers of the world about his politics of state capitalism.

Code of nature is science.

Code of creation is science.

Code of formation of anything is science.

Code of deformation of anything is science.

Code of transformation of anything is science.

Code of existence of anything is science.

Code of any matter is science.

Code of power is science.

Code of capital is science.

Code of existence of capital is science.

Code of society for change is science.

Therefore, science is a proved thing by the repeated and repeated experiments thus, science is a fact so, and science is the reality.

Thereby, science is the factual statement of the reality.

Noted, the code of capital, the code of existence of capital and the code of society for change has discovered by Marx.

The change of capitalist society by the existing conditions of capital by the working class is the code of the communist society.

The combination of these codes are the science of communism, discovered by Marx.

Therefore, the disappearance of capitalist society is unavoidable thus, communism is inevitable by the factual statements of the science communism by Marx.

So, communism is a reality.

A discussion on punishment :

A post by Shah Alam: Dated: 03-05-15.

"Punishment is not the remedy of crime.

Because, punishment or fear of punishment but the cause of crime is the private property.

Therefore, only the abolition of the private property is the not only the remedy but the only effective measure to disappearance of the crime.

Undoubtedly, working class will do the so by conquering the new society where there is no crime or punishment even the very term fear , man by man is unthinkable in socialism. Certainly sure, a fearless society is a society of uninterrupted peace."

"Here is my attempt to give a countering logical argument: Assume private property is abolished. Workplaces are collectively owned. This doesn't warrant everyone from not committing crimes like rape or murder. There are various other social problems that cause criminal behavior. I admit private property is one the problem but so is patriarchy, for example, and many other problems. Or simply humidity, which causes anxiety and people are more likely to comite crime.

Abolishing prison should BE a long term goal. And signaling out private property as root of all evil sounds almost religious."

Reply of Shah Alam:

"Any one can think anything but what is the fact or code of any thing is the important to consider. If there is law to chain or resist to do or not to do anything there is violation of law and the violation of law is crime by the terms and conditions of the respective law. But, there was no law to violet to commit crime

before the private property. There was no written law before 3,700 years ago in this world but the age of human being is not less than 2,00,00,000 years, and the age of private property -the cause of all nonsense including killing, rape etc is not more than 5,600 years. Where you got the said point in my statements that the " Workplaces are collective owned." ? But you said it to counter my statement against punishment what is absolutely the a view of you. I think, no one have right to draw any conclusion about others views or observations to prove wrong on the basis of his own views which have no scientific basis. If any one can say anything as his own view, he is not restricted at least at his own wall but no one can do it by responding others to compel to read by the writer of the post. Sure, any one have right to say but no one have right to try to compel any one to read him. But, a writer of a post is not free from the reading reaction of any one on his post. Noted, means of production, transportation and communication, owned by commune/ common/society is Socialism by the consequence of the capitalist private property, Its the code of change of capitalist society, discovered by Marx and he is not wrong. There are so many workplaces under the collective ownership in this capitalist society, based on the private property. Sure, such collective ownership is the effect of the limitation of the capitalist private property by negating the private property, and thereby, negation of negation of the private property is the social ownership of means of production, transportation and communication and thereby there is no class on the basis of the private property thus, there is no utility of any law, rule etc to rule and control by punishment by man by man therefore, there is no necessity to violate any rule to chain or restrict any one by any one to or not to do anything. Any difference on the basis of the science of communism is welcomed."

(1)The capitalist class is not only the exploiter of working class, but also an expert hijacker to celebrate the very special events of working class to protect the capitalist class by confusing and chaining the workers by so many false, bogus but fabricated emotional political propaganda to love

their respective country, nation etc to save workers to save industry, to save the nation and national economy to develop the their respective country by peaceful co-existing with capitalist class by maintaining the peaceful environment of the work place to increase the productivity of workers to get more wage by increasing the rate of production of commodities to increase the volume of capital as a patriot and a champion soldiers of democracy by considering that the class weapons of capitalist including state, political party, ideologies etc and capitalist class it-self are the friends, guides, saviors, protectors and judges of the working class to ensure and justify their so-called 'fair wage' and rights of workers on basis of even ILO Conventions to live a good life as worker under the capitalist system. How funny!

Undoubtedly, the capitalist system that is the selling and buying system is the cause of all miseries of the sellers of labour power of the world by paying wage to produce the commodity

for the buyers of labour power of the world to produce capital and thereby, capitalists are exploiter and the wage slaves are exploited thus, there is an antagonism among the sellers and buyers of labour power of the world by the condition of production of commodity by wage slaves to accumulate capital.

So, there is no scope to maintain a peaceful environment at work place, thus, there is no scope for a peaceful co-existence of both the capitalist class and working class, by the condition of commodity.

Thereby, there is class struggle to reduce the wage slavery to vanish it by vanishing the selling and buying system by vanishing the private ownership of means of production, transportation and communication to vanish the capitalist class for the emancipation of the working class by their united global but forceful action that is a communist revolution-the ever biggest global events of the world but imposed by the capitalist

class by the existing conditions of capital it-self as : (1) Reproduction; And (2) Circulation.

Undoubtedly, the historical May day is the one of very special marking day of working class to celebrate it as it's a one of the historical day in the history of class struggle to decrease the daily working hours by limiting it 8 hours to get some sorts of time to do others including required rest to maintain the existing condition of health to work not only for the commodity production but also to unite the workers of the world to fight against capitalist system to vanish the exploiters by the revolutionary working class by the revolutionary workers of the Hea Market, USA, 1886.

Therefore, except working class no one have interest or benefit by celebrating thus historical May day to take required steps to unite the workers of the world to fight against wage slavery to vanish it , if he have no ill motive to use the such important day to disturb and hampered the class struggle of working class by confusing and

dividing the workers of the world by so many nonsense but effective political propaganda by using the day with the various functions to serve the capitalist interest to protect the capitalist system to protect the exploiter capitalist class- a class of corrupts, frauds, cheats and liars.

Thereby, the cheat and corrupt capitalist class has hijacked the very special but so important day of working class –the May day by celebrating it in various way and by different class weapons of capitalist class including state, ILO etc by spreading the above mentioned political propaganda of capitalist bosses.

The ILO is not national but a global organization of capitalist class to serve the capitalist interest globally since its birth to work to maintain the peaceful existence of capitalist and working class by maintaining the peaceful conditions of working place by the peaceful bargaining by the both exploiter and exploited classes by the so-called neutral role of the state to do the same by the basis of the Conventions of ILO by creating the false

impression to the workers that the state is a neutral organization to serve all, and the capitalist class is necessary to live. But, the history of state is not the same but the state has created by the private property holders to serve the interest of the ruling class by oppressing and overpowering the oppressed and slaves. And, not working class but the exploiter capitalist class not exist without wage slaves, because, not capitalist but the working class is the producer of capital, thereby working class have no need any capitalist to live rather, disappearing of the capitalist class is the condition of not only the betterment of lives of workers but the condition of liberty and freedom of all of the world to do anything freely including love and union as the member of a free but scientific society- a society of loving and caring human being with full sense of humanity.

No doubt, capitalist class is the ruling class and the working class-the product of capitalist class is wage slave in this class divided capitalist society- a global society.

Therefore, workers have no nation and country but they have a world to win by defeating the capitalist class for the emancipation by the vanishing of the private ownership of the means of production, transportation and communication by the commune/common/social ownership of the means of production, transportation and communication to produce all required but most modern necessities by all able bodied of the world for all of the world.

Undoubtedly, working class will do the same by uniting them by boycotting all such functions by the bosses of highjacker capitalist class by rejecting all nonsense political ideologies including Leninism-the corruption of science of socialism, discovered by Marx.

The End.
