

Leninism is nothing but the corruption of science of communism

1. Leninism is nothing but the politics of state capitalism.

State capitalism is nothing but a state with a nationalized economy that means the nationalization of total or major or main, main sectors of the economy of a country by the government of a state. Therefore, the state is the owner of the said means of production, and of exchange. Thus, the chief executive and other executives of the same state are the buyer of labor power of the wage slaves- the seller of labor power of the state to produce commodity to accumulate capital- the unpaid labor that is the fruit of exploitation. Therefore, the chief executive of a state of state capitalism is the gang leader of the exploiters. So, state capitalism is a so waste form of decayed capitalism along with brutal and atrocious conditions.

But, the politics of state capitalism is so effective:

- (a) For controlling the labor market by using state power.**
- (b) For exploiting the workers by using state power**
- (c) For overpowering the workers by using state power.**

(d) For oppressing the workers by using state power.

(e) For ignoring and denying the rights of workers what acknowledged by the traditional capitalists by using state power.

(f) For abandoning the bargaining power of the sellers of labor power- the wage slaves by using state power.

(g) For denying and avoiding the class struggle of exploited workers by using state power.

(h) For ignoring and grounding the movement of the deprived workers by using state power.

(i) For exploiting the workers by much higher rate than the traditional capitalist state by using state power.

(j) For accumulating capital so rapidly by exploiting the wage slaves in much higher rate to increase the volume of capital speedily than the traditional states to use and expend capital- the unpaid labor by the executives of the state and their allies by using state power.

(k) For producing a ferocious force by producing so many brutal dictators and violent oppressors to dictate and oppress the opponents and protesters dangerously and harmfully by using state power.

(l) To guillotine the disobedient or opponents or different opinion holders to the supreme dictator and his vicious

circle but blind to him by the supreme dictator by using state power.

(m) To try to manage and maintain the peace of grave in everyday life all over the country by using state power.

(n) For not allowing any different view or opinion from anyone with the chief boss by using state power.

(o) To create and nourish the cultism by reintroducing the poisonous political ideas introduced by the ill-motivated and intentional liar, brutal and cruel political bosses of the slavery society by using state power.

(p) For creating a political elite class to enjoy the power to earn more to expend more to lead a luxurious life by the cost of exploited wage slaves by using state power.

(q) To pair of claps the broken economy of decayed capitalism to protect it by using state power.

(r) To take over the liability and responsibility of the disabled capitalists those are failed to run their business to run by nationalization by using the state power.

(s) To serve the interest of the exploiters by using state power.

(t) To confine the workers by country by using state power.

2.Leninism is nothing but the politics of national liberation. It's against colonial policy- the integral part of capitalist

development by conquering the whole world by the revolutionary capitalist class and thereby, the progressive capitalist class created a capitalist world with modern industry along with a world market with modern transportation and communication for trading by the existing conditions of capital by replacing the old local and national seclusion and self-sufficiency and thereby making the capitalist world as a world of inter-dependence of nations in every direction, to end the colonial policy by dividing or founding a new state for claimed independence, national liberation, freedom, liberty etc. Though, a state is the strongest oppressive machine with huge chains to chain everyone to oppress the exploited classes to serve the interest of the exploiter ruling class by birth condition of it, originated from the private property. On the other hand no nation have scope to be liberated under the capitalist system- a system with inter-dependency of nations in every direction. Rather, the supremacy of the workers of the world will cause for vanishing the nation and nationality.

Sure, colonial policy has lost its utility when the capitalism become old and fall into serious decayed condition and thereby the ruling capitalist class has concluded it after the 2nd world war currently, the capitalists are for the politics of the capitalist globalization for free movement of commodity and capital all over the world by making the states as defunct under the rule of some global organizations

including IMF-the controller of the world economy but failed, founded by the winners of the 2nd world war including Leninist big boss J.V.Stalin to serve the capitalist interest globally from a centre. However, the capitalists has founded so many new states by following the said politics of national liberation. The cost and expenditure of these states are nothing but a part of surplus-value, produced by the wage slaves. Therefore, the reactionary capitalist class has been overloading the society by the huge cost of states and other organizations including UN, IMF etc along with a huge number of various types of parasitic persons related with the same politics. Therefore, the politics of the said national liberation is not for the independence, liberty, and freedom of all rather, it's so helpful for the exploitative interest of the parasitic ruling class but so harmful for the self –employed but exploited working class.

So, the politics of national liberation is so useful:

- (a) To remove the class identity of both capitalist class and working class by identifying all as a nation those are belongs to the same language, or religion or territory etc.**
- (b) To confuse the working class about the classes and the antagonistic relation between the classes, mainly between the exploiter capitalist class and exploited working class by marking both the classes of a same nation.**

- (c) To fascinate the working class about the emancipation by the national liberation by ignoring the hard reality of so waste capitalism- a global system.**
- (d) To obsess and addict the working class to think and consider for getting relief from the hardship, miseries , sorrows, degradation etc of it by a national state by following the political concept of patriotism- an emotional but harmful approach for the workers.**
- (e) To create wrong concepts among the workers about the freedom, liberty and independence by the nation state with democracy, but, state itself is a big bundle of the huge chains to chain mainly the exploited classes and capitalist democracy is a political system of capitalism to manage the capitalist mode of production by an elected government- a general committee to do the same to serve and protect the capitalist interest. Noted, nation state is dead under the rule of some global organizations including IMF and thereby democracy is also dead.**
- (f) To use the politically influenced workers as a collaborator of different fractions of the capitalist class those are involved in conflict of interest even, the capitalists can engage the workers in war as fighter but without paying which is totally suicidal for the working class but so helpful for the capitalist class.**

(g) To confuse the workers about their exploiter capitalist class-the ruling class of capitalist society but, currently disabled to rule the society and thereby, the exploiter capitalists are yet succeeded to influence the workers to consider and care the exploiter capitalists as their friends, brothers, well-wishers etc but not enemy which is totally lie, false and bogus.

(h) To ignore and deny the class identity of the working class to serve the interest of the capitalist class.

(i) To confuse the birth fact of the working class as a whole by prescribing and advising the workers to love their mother or father land as a patriot. But, not nation or country but the working class is the product of the exploiter capitalist class to produce commodity to accumulate capital- the unpaid part of the commodity. However, capitalism – a global system based on selling and buying thus, no capitalist have scope to buy and sell their commodities in a single market of a country alone, and workers are also under the rules of the global market to sell their commodity-the labor power. Therefore, no one have scope to be a nationalist or patriot in capitalism- a society of numerous commodities with a global market for trading. In fact, no development work of any country is for the development of the said country but all development works are for the interest of the exploiter capitalist class. The interest of the capitalist class is nothing but to accumulate the capital by exploiting the wage

slaves but, the selling of their commodities is the condition to cash the capital after production of capital by the wage slaves. So, the development works of every country along with global communication system is the condition for reproduction and circulation of capital to accumulate capital. But, the reactionary capitalist class is totally failed to do so by the demand of capital. Therefore, yet the agriculture sector and other back dated instruments of production and of exchange are existing thus more than 2 billion people of the world are suffering from the poverty- an artificial creation of the disabled capitalist class.

(j) To ignore and deny the class interest of the working class to protect the interest of the exploiter ruling class.

(k) To deny and avoid the class struggle of the working class to save the capitalist class to protect capitalism currently, in moribund condition.

(l) To divide the workers of the world by nations for not uniting and acting to vanish the capitalism with so reactionary capitalist class along with its all oppressive weapons including state by the communist revolution by the working class alone for the emancipation.

(m) To hinder the efforts to unite the workers of the world for protecting the capitalist system.

(n) For disuniting of the workers of the world to save the capitalist class from its final destination by taking place in the record book of the history.

(o) To engage the workers to work to restore the pre-capitalist economy along with descendants of the deposed and defeated kings or emperors –the brutal, cruel, ugly and back dated rulers- the unjustified and undue beneficiaries of the pre-capitalist society – an agro-based but nature dependent, self-dependent and local but so poor economy but glorifying them as national hero by opposing the colonial rulers- the introducer of the modern capitalist economy- a global system along with global trade and commerce, modern transport and communication system, modern education system, judiciary, news media etc though the capitalist class is also exploiter and thereby the rulers of the capitalist world are also parasitic thus they are also undue and unjustified beneficiaries by following the rulers of the slavery and feudal societies. So, conflict of interest is the cause of the contradiction between the rulers of the past and present societies. But, it is impossible to restore the backdated economy by vanishing the modern capitalism by such effort but failed. So, any such effort to replace the capitalism by the so poor economy of the past is totally and so reactionary job by glorifying the deposed and defeated kings or emperors – as national hero.

(p) To create hateful atmosphere among the workers of the world by participating with opposite and various fractions of the capitalists of different countries those are involved in quarrel, conflict or war by conceiving the political but artificial identity by nation.

(q) To confuse the workers about their emancipation by founding a nation state by fighting against a fraction of capitalist class but not as a whole against the capitalist class to vanish it by vanishing the capitalist mode of production.

However, National boundary was not enough to develop capitalism and thereby, the progressive capitalist class has conquered the world. Therefore, national liberation is not possible in capitalism- a global system where nations are inter-dependent. But, such politics is so useful to create emotion among the wage slaves too by the slogan of national economy and patriotism but, beneficiary of such politics is mainly local capitalists but not wage slaves. Noted, workers have no nation and country but they have a world to win by losing their chain by vanishing the capitalist mode of production. Therefore, unity of workers of the world is the first condition for the emancipation. So, Leninism is against emancipation of the working class.

3. Leninism is not against killing to end it by ending exploitation by abolishing commodity production system based on selling and buying system, wage slavery, capital etc but rooted on private property- the cause of killing and all

other existing evil jobs. But, communism is a peaceful society free from killing. So, Leninism is not against capitalist class and capitalist system- a global system. But, Leninists claimed it for socialism which is totally lie, false and bogus but an intentional political propaganda.

4.Leninism is not against the rule of men by men to end brutality, cruelty, punishment, crime by ending exploitation to end all divisions, discriminations and disparity among the human being by socialism- a society without ruler. Thus, Leninism is not against division, disparity and discrimination among the human being. So, Leninism is for the interest of the ruling exploiter capitalist class.

5.Leninism is not against selling and buying to end it to end exploitation. So, Leninism is for the interest of the exploiters.

6.Leninism is not against wage slavery to end it to end exploitation. So, Leninism is for the interest of the exploiters.

7.Leninism is not against exploitation to end it by the working class alone .So, Leninism is against the interest of the working class. Noted, socialism is free from commodity, capital, selling and buying, wage slavery, exploitation, class and class rule by replacing the capitalism- the last and final class divided society. Therefore, Leninism is not for socialism.

8. Leninism is an ideology. Ideology introduced by the political bosses of the exploiters of the slavery society to justify their unjustified private property and unfair

exploitation. But, communism is a society with social ownership of means of production, transportation and communication. Thus, everyone is free to do anything in communism- a scientific society of equals. Thereby, everyone is scientist in communism. Therefore, the end of ideologies is the condition for socialism- a most modern society.

9. Leninism is a politics based on ideology, thus, Leninist parties are exercising the politics by following and caring the political concept of the slavery society and thereby they are practicing the customs, traditions, culture etc by celebrating death and birth anniversary of Leninist bosses as considering them as extra-ordinary to lead, guide, teach etc to their followers, supporters and nations even after their death what the mythologies described about Manu, Moses and many more self claimed teacher of their respective nation. Therefore, Leninist big boss Stalin did not hesitate to reintroduce the Pyramid culture of Egypt by mummifying the dead body of Lenin- an extreme and absolute dictator. In fact, no ideologist is free from servility and no man of servility can lead a life without his master but a slave can revolt.

But, the communist movement and revolution is the job of the revolutionary working class alone; and a communist party -the party of working class to unite the workers of the world for the communist revolution to vanish all kinds of servility by ending the private property- the origin of

ideology and thereby the origin of servility is free from masters, leaders, heroes etc but every member is free to say anything in party forum thus, every communist is a freedom lover and liberty hungry.

So, Leninism is against the socialism- a scientific society of equals thus, socialism is a friendly and lovely society with freedom and liberty of everyone.

10. Leninism is nothing but an effective weapon of the exploiter capitalist class as it is an ideological but claimed it as the development of so –called Marxism. But, Marx was a communist and thereby he was not an ideologist thus, he did not produce any such ideology rather, as a communist he was a scientist and he discovered the science of communism by discovering the code of capital and the code of society for change. Therefore, Leninists are not only undermining scientist Marx by marking him as a producer of an ideology but also corrupting the science of communism.

Noted, the code of creation or formation or transformation or change of anything is science. Thus, science is a factual statement of any action. So, science is true. Truth is light but faith is blind and dark, ideology is a faith.

In fact, the code of anything does not care anyone to work. So, science is working thus science will win. Sure, every scientist has needed to know the code to follow to work scientifically to know the unknown things. Therefore, who

agree or not about any code that is not important but the code of anything is a reality i.e. H₂O is the code of water, discovered in 1811, therefore, who agree it or not that does not matter but H₂O is water or who acknowledge or not that is not important but the earth is moving around the sun and thereby, the same thing is for the code of capital -the unpaid labor thus, capitalists are exploiter.

But, ideology is a view of any political bosses of the exploiters about the so many things including life, meaning of life, society for justifying his role or rule and thereby the role of the ruling class or aspiration of a fraction of exploiters therefore, no ideologist care science that is the fact of reality to say anything what is necessity to say for the parasitic interest of him and the exploiters supported by him. So, ideology is not for truth. Ideology is an intentional and ill motivated product thus ideology is not for all but for the sectarian interest of a fraction of exploiters.

But, science is universal thus science for all. So, ideology is not science and thereby, science is not ideology. Sure, science can explain ideology so rightly and properly but no ideological explanation of science is right and proper rather, any explanation of science by any ideology is not only wrong but also an intentional and fabricated lie thus, all such ideological explanation of science is also a corrupt but ill-motivated statement based on lie. Noted, any statement on the basis of lie is a bundle of lies.

Leninism is an ideology, produced by Lenin. Therefore, all kinds of Leninist explanation of science of communism discovered by Marx is not factual but an intentional, and ill-motivated thus fabricated statement based on lie thus, Leninism is a big bundle of lies. The disciples of liar Lenin are using the term – Marxism to justify Leninism as a developed form of Marxism to cheat and confuse the wage slaves even about the science of communism for serving the capitalist interest to protect the capitalism currently in moribund condition along with a so reactionary capitalist class with a huge cost of the society.

Noted, The manifesto of the communist party by Marx and Engels has described as is :

“ The charges against communism made from a religious , a philosophical and generally, from all ideological standpoint are not deserving of serious examination.” page: 48. And the same book started that “ The communist revolution is the most radical rupture with traditional relations; no wonder that its development involved the most radical rupture with traditional ideas.” Page-50, published by the ICWF, @ www.icwfreedom.org .

Therefore, it's very much clear that communist society is free from ideology, religion, philosophy etc, originated from the private property, introduced by the political bosses to serve interest of the exploiters. Marx was a communist and the co-writer of the said manifesto of the communist party.

So, question does not arise at all about Marx that he was an ideologist or the producer of the so-called Marxism as an ideology. Thus, Marxism is a fabricated political term but not fact so, it's a political lie that is lie and thereby, Marx has produced the said Marxism is not only a double lie but also limitless lies. Thus, Leninism is a development of Marxism is an intentional and concocted political lie to corrupt the science of communism to use scientist Marx for the interest of the capitalist exploiters by confusing the wage slaves even about Marx and his discovery.

So, Leninism is nothing but a dangerous poison for the working class. Therefore, the rejection of said Leninism is an unavoidable condition to rebuild the communist movement for the emancipation by the communist revolution by the working class alone.

Marx and Engels both were communist but not Leninist. So, Leninism is not the condition to be a communist but Leninist bosses are claiming that none can be a communist except acknowledging Leninism. It's a false and bogus but intentional political statement about a communist. In fact, all Leninist statements about capitalism, communist revolution, communism etc are totally lie, false and bogus. Thus, Leninist explanation about the science of communism is not only lie, false, and bogus but also a corrupt, corrupt and totally corrupt version.

So, Leninism is nothing but the corruption of science of communism.
