where everyone is living with liberty and freedom thus, everyone is free to do anything as he likes to do. But, atheism?

Atheism is not against the capitalist class to vanish it to end class, and class rule along with class weapons including state-the strongest oppressive machine of the exploiter ruling

class by ending exploitation by the communist revolution by the working class alone for the emancipation.

Atheism is not against the capitalist mode of production to vanish it for the socialization of means of production and of exchange for social production for all of the world by the all able bodied to live a best life by everyone of the world with freedom and liberty. Rather, atheism as a well formulated view was formulated by the progressive political servants of the revolutionary but exploiter capitalist class to develop capitalist mode of production by defeating the feudal lords – the claimed divine right holders by ending feudalism. Therefore, atheism was an effective weapon of the progressive capitalists to fight against the divine right holders to confirm their defeat to sprout capitalism from the ruins of the feudalism - a society with a nature dependent , local but so poor economy. So, atheism was helpful to serve the exploitative capitalist interest to develop capitalism- a society of numerous commodities with a world market and thereby, capitalism is a well communicated global system but exploitative and class divided society.

However, capitalism is a modern industrial society by caring atheism but capitalism was not sprouted for ending the exploitation of men by men for the emancipation. Though, capitalism is the last and final class divided society based on exploitation. Because, capital will vanish by the existing conditions of capital- (1) Reproduction; And (2) Circulation by the working class alone by the communist revolution for the emancipation of the working class by emancipating the whole society.

So, atheism is not for emancipation.
