producer of capital but the product of the exploiter capitalist class. So, no Leninist party is communist party.

(27) No Leninist party is for abolishing it along with all political parties for communism- a free, fair and lovely society but free from politics, politician, political party, and political organizations including state- a big bundle of huge chains made by the political servants of the parasitic classes to chain men by men to rule men by men to oppress even by killing , punishing and overpowering thus, state is the strongest oppressive machine of the exploiter ruling classes but currently defunct under the rule of some capitalist organizations including IMF- the ever mightiest organization, founded by the winners of the so heinous 2nd world war including Leninist big boss J.V. Stalin to control the world economy to avoid the recession- the non- curable but unavoidable disease of capitalism by the existing conditions of capital to avoid the war by ensuring the free competition of the capitalists by confirming the free movement of commodity and capital all over the world by concluding the colonial policy - the integral policy for the development of capitalism globally followed and practiced by the progressive capitalist class but currently capitalism is in moribund condition by the existing conditions of capital and the existence conditions of the exploiter capitalist class. So, no Leninist party is communist party.

(28) No Leninist party is for vanishing all capitalist organizations including IMF to end exploitation of men by men by vanishing capital by abolishing capitalist property by the working class alone for communism - a scientific society of a single one mankind but everyone is heathy with

a healthy and joyful life therefore, the society will work scientifically by reducing all risky and hard work by using most modern equipments and technologies to win the nature to use it for the best welfare of all and thereby, every one is scientist in communism where everyone will be a true human being in true sense in the first time of the human history by rejecting and reducing all class and political identities including sexual identity. So, no Leninist party is communist party.

(29) No Leninist party is acknowledging that the cause of nonexistence of capital the existing conditions of capital by the working class by the communist revolution - the culmination of contradiction of the exploiter capitalist class and the exploited working class for communism by replacing capitalism- the last and final exploitative and class divided society, sprouted from the ruins of feudal society- a nature dependent, agriculture based, self - dependent, local but so poor economy by abolishing the capitalist property - the cause of war and all other existing evil things. So, no Leninist party is communist party.

(30) No Leninist party is acknowledging that the capitalism - a society of certainty of uncertainty because of uneven competition in market because of capitalist property - a property along with state property to use for accumulating capital by producing commodity by the working class by paying wage- the price of labor power of the wage slaves but the property is owned by the capitalist class but not equally and thereby, the capitalists have no option except complying the capitalist rules of competition to exist as capitalist therefore, the capitalist class have no option

except constant revolutionizing the means of production to produce more and more commodity by using minimum labor power of the wage slaves to sell the products in cheap rate to compete in market to exist as capitalist but the capitalist class cannot use these instruments properly because, capitalism has no space to contain the products, producing by using the said new and newer instruments thus, there is self - contradiction of capitalist mode of production - a production system with a motto to accumulate capital so, the new and newer instruments are revolting against the capitalist ownership by creating recession - an anarchy in the society by the existing conditions of capital- (1) Reproduction ; And (2) Circulation and thereby, some capitalists are losing their property which belongs to them unfairly and every recession is creating and bordering the path of social ownership of means of production, transportation and communication and finally, the consequence of repeated recession is communism, won by the working class so, capitalism will take its final destination by replacing it by following the same rule for what the capitalist class has won and developed capitalism by defeating the rulers and ruling class of feudal society and no doubt the both slavery and feudal society are not existing by the outcome of contradiction of the new and newer means of production with the old social system of ownership of the property. Therefore, no Leninist party is caring the code of society for change, discovered by Marx- a communist and thereby, a scientist but not ideologist. So, no Leninist party is communist party.

(31) No Leninist party is caring the science of communism, discovered by Marx by discovering the code of capital and the code of society for change to work for replacing capitalism by abolishing capitalist property by the communist revolution by the working class alone for communism- a scientific society, free from all existing unscientific concepts , subjugated and defamatory words, mythological views and the so-called social values, moralities, etc introduced by the rulers of the exploitative and class divided societies . So, no Leninist party is communist party.

(32) No Leninist party is free from spreading false, bogus and distorted interpretation of the writings of both Marx and Engels to confuse the working class even about capitalism to protect the moribund capitalism from its final destination by fall of it by the working class alone for opposing communism- the historical consequence of capitalism with a disabled but not ready to accept the non-existence of it thus, the reactionary capitalist class is suffering from insanity so, the parasitic capitalist class is so violent therefore the fascist capitalist class has taken shelter to the hole of history by practicing the politics of the dirty rulers of the brutal slavery society- the first exploitative and class divided society based on private property from which family, state etc has originated to rule the men by men and thereby, the politics- the supreme policy of all evil policies has started its journey to justify the unjustified rule of men by men by chaining by laws to oppress even by killing to protect the private property and serve the interest of totally unfair private property holders. Even, CPSU - the origin of all Leninist party has distorted the writings of Marx and

Engels to justify its countless misdeeds against the working class; And CPI (M) - the 2nd biggest Leninist party of the world has manufactured a fake manifesto of the communist party by disfiguring the original by Marx and Engels for justify its political activities by confusing the workers. Therefore, no Leninist party is for caring the writings of Marx and Engels for working for communism. So, no Leninist party is communist party.

(33) No Leninist party is working by caring the science of communism rather, all Leninist parties are supporting and following Leninism- a corruption of science of communism but so poisonous ideology for the working class. Thus, no Leninist party is free from servility but communism is free from all kinds of servility. Therefore, no Leninist party is working for communism- a scientific society of liberty and freedom of all thus, communism is free from ideology. So, no Leninist party is communist party.

(34) No Leninist party is agreeing that the communist revolution - the historic event to overthrow the capitalist class in the air for ever by abolishing capitalist property forcefully is inevitable, imposing by the violent capitalist class by its existence conditions and the existing conditions of capital. Therefore, no Leninist party is acknowledging that the fall of capitalism and emergence of communism is equally inevitable and unavoidable even by not considering and caring the history for not existing the slavery and feudal society though no ruling class was ready to accept their defeat and non existence. Thus, no Leninist party is working for communism by supporting and following the code of society for change by following the history - the fact

sheet of factual facts of the past. So, no Leninist party is communist party.

(35) No Leninist party is a global party to work to unite the workers of the world for the communist revolution for communism - a scientific and humanitarian society of equals and thereby , it's a lovely and friendly society of liberty, freedom and peace. So, communists are liberty hungry and freedom and peace lover but all Leninist parties are for rule of men by men by chaining men by men by founding Leninist state- an extreme fascist state with a single but absolute dictatorial party rule thus, every Leninist party is for violence to terrorize the exploited wage slaves to exploit more to maximize the volume of capital to protect moribund capitalism by increasing the amount of subsidy to the losing and non-productive sectors by denying the scientific development of society by communism, won by the working class. Therefore, no Leninist party is for ending exploitation of men by men, rule of men by men and war for liberty, freedom and peace of all of the world. So, no Leninist party is communist party.
